# TREASURER OF OHIO NAMED IN DRY PLOT

State Official, Brewmaster and Attorney Indicted by Grand Jury.

"FRAMED," SAYS BUCKLEY

Columbus, Ohio, Dec. 31 (A.P.) .-State Treasurer Bert B. Buckley was indicted today by the Federal grand jury on two counts for conspiracy to violate the prohibition law and on eight other counts. Two others were jointly indicted with

Buckley. They were John L. Schrimper Cincinnati attorney, and Joseph Scher-ber, brewmaster of the Jackson Brew ng Co., Cincinnati. Adolph Gruber, another Cincinnati attorney, was named as a coconspirator with Buckley, Schrimper and Scherber.

but was not indicted The overt acts with which Buckley is charged in connection with alleged conspiracy are that he introduced Schrimper, Gruber and John F. Eckhaft, assistant prohibition administra-tor, on October 10, that he offered Eck-hart \$300 a month on October 13 and that he offered his personal and poli-tical influence to obtain appointment of Eckhart as State prohibition direc-

Buckley is also charged with having received \$2.50 per half barrel for beer manufactured and held by unknown breweries and receiving \$250 from Schrimper in October, 1928. A statement declaring his innocence

"They took Shepherd out of the car and a lot more of them gathered around and carried him away." Miss Keeler continued.

"I felt that I had done all within my power to deliver him safely into the hands of the law, so I left. I did not want to see a lynching.

"Charley kept pleading for me not to teave him, but I couldn't help him. I felt sorry for him. I have a heart and don't believe in mobs. I wanted the law to take its course.

A statement declaring his innocence and characterizing the charges on which have sindicted today as a "cold blooded frame-up," was issued by Bert B. Buckley. State treasurer, a few minutes after he learned of the grand jury's action.

Buckley and the Cincinnati men are charged with conspiring to obtain information on Federal raids for the purpose of "tipping off" the Jackson Brewing Co. and "divers other breweries of Concinnati."

Brewing Co. and "divers other brewerles of Concinnati."

It was further alleged that Buckley, Schrimper and Scherber conspired to influence Eckhart to provide the raid information without reporting to his immediate superior, William Woodruff, acting administrator.

Buckley also was alleged to have asked Eckhart to promise immunity to Cincinnati brewerles. Buckley is to start his second term as State treasurer January 14 next. He was reelected to the post last November.

the post last November.

Buckless identification with the State government started in 1915, when he was named State fire marshal. Buckgress from the Third Ohio district in

# INFECTION IN KING'S LUNG HELD CHECKED

Doctors Now Center Fight to Conquer Weakness That Affects Monarch.

NEW TREATMENT STARTED

London, Dec. 31 (United Press) .- The London, Dec. 31 (United Press).—The bulletin issued at Buckingham Palace tonight indicated that infection in King George's lung had been practically conquered, a high authority declared.

The bulletin marked one of the most important stages in the king's illness, it was asserted. And physicians are now dealing with the damage to the king's constitution resulting from the infection. This extreme weakness, which is of great danger, is being fought which is of great danger, is being fought by every possible method.

A new course of medicine has been

started to enable the king to assimilate the most delicate nourishment in the form of concentrated essence of jellylike chicken meat and an occasions

Night Bulletin Hopeful. Although the night bulletin had not

reported any actual progress during the day, it was understood the court physicians were hopeful that the king would overcome the recent check to his covery. The night bulletin said:

The night bulletin said:
"The king had a good day. There is
no change in the condition noted this
morning. Bacteriological examination
shows that the extent and potency of the local infection are diminishing

"STANLEY HEWETT, "HUGH RIGBY, "DAWSON OF PENN." The meager indications that King George is making very slow progress was welcomed by Britishers as a relief in the gloom which has returned to the

The morning bulletin said: "The king passed a somewhat restless night. His general condition is maintained although as previously noted the state of exhaustion still presents a dif-ficult problem. There is a little more

ficult problem. There is a little more readiness to take nourishment. The local condition is progressing."

The king's progress had been slightly checked over the week-end, it was said on high authority at the palace, and a weakness must persist as long as the state of exhaustion continues.

"This weakness, coupled with the long and weather hattle which the king." long and wearing battle which the king has staged, was considered of greatest danger to him. The five doctors who have been in attendance regularly since the king's condition became serious, were said to be devoting all of their energies toward combating the exhaus-

They held a two-hour consultation at the palace in the morning and returned later in the day.

#### Arrest, Fire Alarm, Rain All Come at Midnight

The first person arrested in Washington during 1929 was a colored man; the first fire alarm was a false one, and the first rain fell shortly after midnight.

Leroy Shorter, 22 years old, colored, 1119 Seventh street northwest, was the first person arrested. The charge was drunkenness. The time he was taken in tow was 12 o'clock, midnight, and the arresting officer was Patrolman Lester Parks

of the Second Precinct. The first fire alarm was sent in from Box No. 246, at Fifteenth and V streets northwest. The time was 12 o'clock midnight. Apparatus of No. 9 Engine Company was first to reach the scene. No fire, or evidence of a fire, was found, which indicated the first New Year Joke.

#### Flags Will Honor Maj. Gen. Wahl

Military Rites to Be Held Tomorrow in Arlington National Cemetery.

Flags on all War Department buildings in the District will fiv at half-staff comorrow, day of the funeral of Maj. Gen. Lutz Wahl, adjutant general of the Army, who died Sunday. Interment will be in Arlington National Cemetery tomorrow afternoon.

The escort will form at Fort Myer at o'clock, following private services at the home of the deceased, 2019 Kalorama road northwest, and at St. Matthew's Church, Connecticut and Rhode Island avenues northwest.

The escort will be commanded by Maj. Gen. Hanson E. Ely, commanding

general, Second Corps area, with head-quarters at Governor's Island, N. Y., and will consist of the Third Battalion, and will consist of the Third Battalion, Twelfth Infantry, stationed at Fort Washington, Md., two troops of the Third Cavairy from Fort Myer, Va., and two batteries of the Sixteenth Field Artillery of that station.

Pallbears will be Maj. Gen. Charles P. Summerall, chief of staff; Maj. Gen. Briant H. Wells, deputy chief of staff; Maj. Gen. Frank McIntyre, chief of the Bureau of Insular Affairs; Maj. Gen. Merritte W. Ireland, surgeon general:

the Bureau of Insular Affairs; Maj. Gen. Merritte W. Ireland, surgeon general; Maj. Gen. Robert H. Allen, chief of Infantry; Maj. Gen. B. Frank Cheatham, quartermaster general; Maj. Gen. Andrew Hero, Jr., chief of Coast Artillery, and Maj. Gen. Herbert B. Crosby, chief of Cavalry. Brig. Gen. C. H. Bridges, is acting adjutant general, pending appointment of a successor to Maj. Gen. Wahl.

LIEUT. CALL DEAD.

Army Officer Dies at Fort Monroe; Born

in Washington. The War Department was notified vesterday, of the death of First Lieut. Louis W. Call ir coast artillery corps. at Fort Monroe, Va. Lieut, Call was born in this city in 1899, and was appointed a second lieutenant of coast artillery in 1921.

He was appointed a first lieutenant in 1926, and was a graduate of the coast artillery school's basic course in 1922, the coast artillery battery officers' course in 1926, and received a bachelor Riggin Buckler and Mrs. Isabel Magruder of of science degree in chemistry from gruder Buckler, of Harford County, Md. She was a granddaughter of Gen. John Bankhead Magruder, of the Confederate Army. The time and circumstance of her death were not rangements have not yet been annayed in the caplegram.

Corning and placed him in the hands of Dr. C. F. Bowen at Grant Hospital. Re-moval of the peanut was necessary be-fore his lungs could be cleared of the

pneumonia from which he was suffer-ing. The peanut found its way into the child's lungs last November 26. Its presence was unknown until the two

ilseases developed and he was brought here. Two other babies are in Ohio

Rites for Navy Department Aid to Held Tomorrow.

Funeral services for Miss Jennie McTavish, employed in the Navy De-partment, and a resident of Washing-ton for 20 years, who died Sunday night at the home of her sister, Mrs. D. A. Edwards, at 1008 Massachusetts ave-nue northeast, will be held at 9 o'clock tomorrow morning at the Holy Com-

here. Two other babies are in Ohio hospitals at opposite ends of the State with foreign objects in their bodies. Frankie Brooks, 18 months old, of Asco. W. Va., lay at Cincinnati with a toy motorcycle in his throat and pneumonia fastening its hold upon him while surgeons feared to operate until he is stronger. The toy lodged in his throat two weeks ago.

Patricia Denny, a Cleveland baby has a metal clasp in her throat and influenza setting in.

Spartanburg, S. C., Dec. 31 (A.P.).—Agnes Hughes, 2, had a safety pin removed from her lung here today by a Spartanburg physician.

Edwards, at 1008 Massachusetts avenue are in Ohio hor here, will be held at 9 cyclock nue northeast, will be hel

large to remove the kernel and special instruments were ordered by phone in Philadelphia. Expert workers turned out the instruments during the night, placed them aboard a Pennsylvania passenger train which reached here this afternoon. An immediate operation was performed.

Columbus, Ohio, Dec. 31 (A.P.).—Pieces of a peanut lodged in the lung of 19-month-old Donald Hettich, of Corning, were removed today by Dr. C.

# AMERICA TO LIMIT REPARATIONS SUM

Bonds Will Not Be Bought if Germany Is Asked to Pay Impossible Amount.

OPINIONS OF DIPLOMATS

By ALBERT W. FOX. With the dawning of the New Year, the biggest international problem since Treaty of Versailles now looms in the for a of a concerted effort to estab-

the form of a concerted effort to establish a genuine basis of peace and economic stability in Europe through final
and definite adjustment of the reparations question, as between the former
allies, and Germany.

America is to be involved as the prospective guarantor of the completed
European program, and the only delay
in starting the work is due to the fact
that President-elect Hoover, President
Coolidge, Secretary of State Kellogg and
Secretary of the Treasury Mellon must
be given an opportunity to obtain and
weigh the information which S, Parker
Gilbert, agent general of the reparations commission, is bringing to Washington. Mr. Gilbert is now on the
ocean due to arrive from abroad this
week.

week.

In the background, fully cognizant of the preliminary plans, but unable to forecast the future, are the American banking interests, chiefly J. P. Morgan & Co., who will be relied upon to con-& Co., who will be relied upon to con-summate the program and make it operative provided it comes from the experts in such form as to be capable meeting the bankers' expe

Hoover Has All Facts.

No further efforts are being made to minimize the importance of the United States Government's cooperation in this major European problem, but there is still apprehension in official circles that the American public will prematurely judge the situation, and assume that Uncle Sam is going to inaugurate that Uncle Sam is going to inaugurat the New Year by being dragged agains his will into unwelcome entanglement

London, Dec. 31 (A.P.).—The British government has nominated Str Josiah Stamp and Lord Revelstone as the British members of the projected committee of experts on reparations. The names of the two deputy members will be announced later.

Paris, Dec. 31 (A.P.).—Seymour Parker Gilbert, agent general for reparations, was en route to the United States aboard the liner. Berengaria today and presumably he will discuss the forthcoming revision of the Dawes plan while in America.

Plan Was Held in Reserve. In the first place, the whole plan partment, but it has been said of nime that he has resolutely refused to suggest the names of American experts that will serve on the reparations revision committee.

The Dawes plan at best was a stopgap arrangement to hold the fort and insure stability until the allies thought the time ripe to really try to settle the reparations problem.

under the Dawes plan, the amount which Germany was ultimately to pay in reparations was left in the air, undetermined. Year by year payments were prescribed for Germany presum-

Furthermore, it develops that the export surplus which the allies counted upon is not available to Germany, for Germany is importing more than she is exporting. The money which Germany is using to pay reparations at present is coming from foreign loans, the bulk of it from American investors.

Thus, the American taxpayers are already paying the major portion of the German reparation payments in the German reparation payments in the sense that they are holding the loans and advancing the money.

Germany is not proposing the new reparations program nor promoting the idea. She has her safeguard clause under the Dawes plan and some of her statesmen feel measurably secure without a change of conditions.

out a change of conditions.

But the allies, and particularly the French who are badly in need of money fear the safeguard clause and incidentally fear that the strain on Ger dentally fear that the strain on Germany may be too heavy to insure future balancing of their own budgets. So the allies believe the time is ripe for the great 1929 settlement.

The German desire to have the Rhineland freed of allied troops served as the prop for suggesting that the final settlement be reached as early as possible this year.

Germany Accepts New Move. The French government maintained it could not withdraw from the Rhine-land until it has assurance that reparations would be paid in full. Germany accordingly has accepted the new move for total settlement without committing herself to the extent of assuming responsibility for the success of the

negotiations. So the experts are to be chosen by the reparations commission and Germany and given their major tasks. The first is to ascertain by a study of conditions &c., how much Germany can pay in full settlement. The next question to be decided in

how to commercialize or mobilize the amount which Germany is to be assessed. The third question how much of this amount can be turned into cash immediately or in the very near future.

Answers to all three questions hinge, it is explained, on the total amount which the experts agree upon as Germann and the comment of the comments agree upon as Germann and the comments agree upon as Germann and the comments agree upon as Germann and comments as the comments agree upon as Germann and comments and comments agreed the comments and co which the experts agree upon as Ger-many's final settlement. This, for the first time, implies that the real measure of Germany's obligation is going to be Germany's foreign credit rather than the amount the French ..ould like to collect or even the amount which Ger-many might actually be capable of

paying.

If the total sum of reparation bonds should run into the fantastic figures previously suggested, no one would invest in the bonds nor would J. P. Morgan & Co., or other bankers handle

Two Drowned on Way To See Football Game

# 2 BEER RACKETEERS **SLAIN IN NIGHT CLUB**

Panic in Chicago Cafe Follows Shots That Kill Two at Secluded Table.

#### MAN WITH GUN ARRESTED

Chicago, Dec. 31 (A.P.) .- Two "tough guys," of the beer racket, William Gunner McPadden and Hugh "Stubby" McGovern, were shot to death early today at the Granada Cafe, Sixty-eighth street and Cottage Grove avenue.

dining and dancing dove under tables dashed for exits or hid behind pillars at the sound of the six shots, fired in rapid succession. Despite the number present, very few witnessed the actual shooting, which was at a table in a secluded corner of the cafe, one of the better-known night clubs of

George Mahoney, a pistol in his hand, was arrested as he stood among the frightened guests a moment after the shooting. Police said six shots had been fired from his revolver.

#### Former Al Capone Partner.

McGovern was described by police as a former associate of Al "Scarfare," Capone, and reputed foe of Ralph Sheldon in beer operations on the South Side. McPadden, a pal of Mc-Govern, was a business agent for the Asbestos Pipe Coverers' Union.

Asbestos Pipe Coverers Union.

The slayer's marksmanship was unusually accurate, as gang shootings go. Both men were shot through the heart, and there was a bullet hole in McGovern's forehead. The first shots went wide, giving McGovern a chance to draw his pistol. It was still in his hand, unfired, when he fell.

McPadden had no weapon. McGovern, McFadden, two other me

McGovern, McFadden, two other men and four women had entered the cafe about 1 a. m. and had been seated about an hour when Mahoney, a male companion and two women entered and took a table nearby. Witnesses said Mahoney walked over to the others' table, said a few words to McGovern, and then the guns flashed.

Arrested Pistol in Hand

Police Sergt. Tim Sullivan, who arrested Mahoney, said:

"When I heard six shots I ran in from the lobby. Mahoney was standing by his table holding the revolver. I ran up behind him and hit him with my fist in the back of the neck. He dropped the weapon and tried to seize my revolver, but I subdued him. The revolver he was holding was empty." y revolver, but I studed him. The worder he was holding was empty."
Police also are looking for Charles aldwin, drug store owner, following formation that immediately after the looting a man dashed from the cafe and drove away in an automobile having license plates issued to Baldwin.
After viewing the bodies of McFadden
and McGovern, Miss Helen Doherty,
cashier of the Omaha Packing Co. on
the South Side, identified the two gangsters as members of a gang of four which held up her offices Saturday night, escaping with \$900. Police said their killing might have grown out of a quarrel over division of the holdup

#### Law Change May Make John Coolidge a Major

Hartford, Conn., Dec. 31 (A.P.) .- A incoming of the general assembly on January 9 to permit Gov. John H. Trumbull to increase the membership of his staff by one officer who would represent training camp activities.

If such an amendment is adopted it is understood that John Coolidge, who would be qualified by reason of service in citizens training camps, will be incompleted in the control of the con

would be qualified by reason of service in citizens training camps, will be eligible for appointment as an aide decamp with the rank of major, to be assigned to the staff of the governor. Under the law staff officers are drawn from the National Guard or from the Federal active or reserve organizations, and not as formerly from civil life. Gov. Trumbull reappointed his present staff shortly after his reelection last month and no vacancy on it exists at resent.

# FOR FLU EPIDEMIC

Prohibition Officers Given Permission to Extend Doctors' Quotas.

#### PINT LIMIT, DORAN SAYS

Prohibition officials are certain there will be ample whisky available for

medicinal purposes in the present in-fluenza epidemic.

Instructions have been issued to local administrators to issue extra quotas of prescription blanks to physicians above the 100 a quarter now allowed, if necessary.

One official indicated issuance of

more than one pint per patient every 10 days would be overlooked during

Prohibition Commissioner Doran said, however, there was no legal way for a physician to prescribe more than the legal amount of one pint.

Asked whether a technical violation of the law would be overlooked during the emergency, Doran replied, "We will cross that bridge when we come to it but we can not agree upon nor sanction violations."

Congress alone he explained has the

Congress alone, he explained, has the authority to make changes to permit more than one pint in 10 days, but

states are expected to report after the New Year.

One additional death reported to the District Health Department yesterday brought the total from influenza, reported since December 1, to 22, acco ing to figures made public by Dr. William C. Fowler, District health officer.

There were 28 new cases of the disease reported yesterday. This brought the total of cases reported during the cases reported during the

Repeating his warning to all persons to exercise care and refusing to qualify expectancy of continued development of an epidemic of mild influenza, Dr. Fowler made public figures showing that the death rate in the last month was not great and did not provide a basis for public panic. There were 84 deaths from influenza throughout the year, he said, and 11 of these were re-ported in one week last March.

Sacco-Vanzetti Executioner Dies, . Boston, Dec. 31 (A.P.).—William J. endry, warden of the State Prison at Charlestown, and the man who officiated at the execution of Sacco and Vanzetti as well as those of many other less notorious criminals, died at his home on the prison grounds today after a long illness. He was 57 years old.

#### Girls Ditch Leap Year Chances, Records Show

Failure of the Capital's fair sex to take advantage of their "leap year" privileges was blamed by Col. Willlam A. Kroll, in charge of the Marriage License Bureau at the District Supreme Court, for the falling off in marriage licenses during the year of

At 4 o'clock yesterday Col. Kroll closed his office for the year. During the day he established a record tor licenses issued on New Year's Eve, when 45 wedding permits were issued. To John L. Oberender, 21. and Miss Viola V. Oles, 18, both of Baltimore, Md., fell the distinction of being the last couple to obtain

a license during 1928. During the year a total of 5,401 licenses were issued, which was 202 less than in 1927, when 5,603 Ilcenses were given. Col. Kroll said he expected the total for the year to fall far below the mark attained yesterday, but Dan Cupid kept busy during the Christmas holidays and more than 200 licenses were issued On New Year's Eve last year only fifteen couples, applied for licenses

# Pair of Attempts to

Mrs. Stillman's Plane Fails in Locked in Closet. Ordered to Leave Ground.

TRIP TO BRAZIL IS AIM PLEA FOR PARDON MADE

New York Dec. 31 (N.Y.W.N.S.) - Special to The Washington Post navigator, had dumped some 400 galions of high test gasoline on the natives of Hempstead, barely missed colliding with the roof of the primary school in that town, and come to rest tempor-arily on the frost hardened ground of Mitchel Field.

Mitchel Field.

The first attempt failed when the plane was halfway down the runway. The second began auspiciously, as the North Star shot up to an altitude of about 3,000 feet and headed over Hempstead for Atlantic City. Le Boutillier turned to his navigator. "Well, Lewis, we're off at last," he smilled. Then the tachometer got bearish and dropped from 1,800 to 900 degrees. The North Star was a hurt bird struggling to keep above the roof tops.

Gasoline Shower for Watchers,

Le Boutillier pulled the lever dumping his gasoline. And those watching the queer behavior of the plane received a gasoline shower. The plane came closer and closer to ground, until she was barely above the roof tops. Turning her, her pilot headed for Mitchel Field. At first those watching believed this impossible. The three tons of plane and equipment looked to be on their way toward a crash. Le Boutillier jockeyed her over the school house, and she came to rest lightly on the turf.

The two aviators got out smilling and the queer behavior of the plane re-

the turf.

The two aviators got out smiling and said this would merely delay them three days. In that time they hope the cloudy weather reported by the United States Weather Bureau all the way from here to Florida, with rain possible below Cape Hatteras, and fog at Jacksonville, will have broken. Repairs were being made to the plane to-night so that she could return to her original starting point.

Engine in Ship May be Changed. "If the engine is bad," said Le Boutillier of the Wright Motor Co., with which the North Star is equipped, "we'll get another." He believed the magneto had "passed out" or there was water in the gasoline. The gasoline pressure, he insisted, was sufficient, registering 65. Those at Roosevelt Field registering 65. Those at Roosevelt Field who have watched preparations for the flight, were surprised at the failure of the first attempts to take off, characterizing preparations made as "the most careful ever seen at this field."

The goal of the flight is Pernambuco, Brazil, with a return flight contemplated, making the whole endeavor a record in long distance flights.

Alleged Slayer Quickly Apprehended in Capital Twelfth Precinct, last night arrested Raymond Adams, colored, a half hour

Raymond Adams, colored, a half hour after police were notified that the man was wanted in Philadelphia on a murder charge.

Beiry arrested Adams in the janitor's quarters at the apartment building at 2520 Tenth street northeast. Gov. Zimmerman asked him if he were granted executive clemency whether he woman, but he man admitted granted executive clemency whether he woman, but he was told, also have been as the officers and crew of the details on the road to stabilization. They retired immediately the showing of the films. no difficulty in arresting

#### NAVY INVESTIGATION **FOLLOWS AIR JOURNEY**

CONTINUED FROM PAGE 1.

Davison, the Bureau of Aeronautics representative in Admiral Hughes' office, approved the flight before mentioning it to the admiral. Admiral Hughes later is said to have interposed an objection that Secretary Warner should not have authorized the flight. Meanwhile, Mr. Updike and Lieut Brown had obtained a plane, and when the final stop order came through they were somewhere West of Washington,

were somewhere West of Washington, about 2,500 feet up. For several days the Bureau of Aeronautics and the office of the chief of naval operations exchanged notes, orders, suggestions and when Lieut. Brown dropped back in town he learned that a board of investigation had been ordered. Rumors flew between the two departments and participants in the controversy set about making the proper depositions, state-ments, and affidavits.

With Lieut. Brown wondering what Two Families Wiped Out

he had coming to him, the papers in the case went up to none other than Secretary Curtis Wilbur. Then Assistant Secretary Robinson stepped in. As Eight Die in Crash

It wasn't a grave matter, he suggested, whispering somether in Mr. Wilbur's ear about a twin boy and girl over in Indianapolis. "Just one of those slips that constitution could be suggested."

Kingston, Ont., Dec. 31 (A.P.).—Two families—one of six and the other of two persons—were almost instantly killed today when their automobile was struck by a Canadian National Railways train at a crossing at Cataraqui, near here.

The dead were identified as Mr. and Mrs. Dupuis and their four children, of make the matter official and Proctor Vt. and Mrs. Edward in the carpet of the service."

Ligut Brown is understood to have gone up "on the carpet," alongside representatives of "operations," and the aeronautics bureau. Secretary Wilburdington and their four children, of make the matter official and processing the service. Vt., and Mr. and Mrs. Edward final he sentenced all concerned to

Zimmerman of Zone today on the first leg of a two- the influence his sweetheart, Mrs. Nick way trip to Brazil, the second of which Biesen, had on him as a boy and as a ended only after Oliver C. le Boutillier youth and how, under such influence. and Capt. Lewis A. Yancey, pilot and he killed the woman's husband in 1920 Beier declared that he is now telling the entire true story of the killing and he hopes that his story will bring a pardon. It was intimated at the

hearing today that if enough credence is given the story told by Beler the woman, now remarried and living in La Crosse County, will be arrested in connection with the crime. She Was 30, He Only 17. As a boy of 14, Beier asid, he started to work, off and on, at the Biesen farm when he was not needed at home At his sister's wedding, when he was 17 Mrs. Blesen, at the age of 30, first made love to him, he said. Later, when Blesen went to La Cross, Mrs. Blsen called him to the farm home and this was the first of many intimate love scenes he described to the governor. This situation continued for the next few years until it became a neighborhood scandal and at the sec of 21. Belsey.

she would lock him up again, his story related. She threatened him if he should leave and he made no attempt to escape. Some days he was brought one meal and on others none, Mrs. Ble-sen explaining that she could not bring food because frequently there were others about the house.

ers about the house.

It was on August 21 that Bieler in his closet hiding place heard the Biesens quarrel. Finally Biesen began beating his wife and she called "John, help me." Beier then took a pistol in the closet and broke out. Biesent came for him with a butcher knife and he shot the with a butcher knife and he shot the husband through the head, the prisoner said. Then Mrs. Biesen reentered and seized a shotgun and gave it to him ordering that he again shoot the husband, he charged. Beler took the gun and shot the head from the body and escaped to the woods back of the house.

Ordered Back to Home,

At night Beier hid in the strawst Mrs. Blesen came after straw to bed the horses after the funeral and ordered him to come back into the house at night. He came and was again hidden night. He came and was again hidden in the closet and the love affair continued. Then one night the house burned down and Beler succeeded in throwing out the grips full of clothing with which he had planned to go to South Dakota, and again escaped into the woods. He told his father of the shooting and the latter took him to LaCrosse to consult an attorney and he was questioned by the district attorney. Beler says he was advised to plead

# **COMFORT IN HEAT** FOR FAT MEN, SEEN

Dr. L. V. Heilbrunn Talks of Experiments Made With Stout in Tropics.

#### LONGER LIVES PREDICTED

New York, Dec. 31 (A.P.).—Greater comfort of living in heat, possibly even for fat men, was forecast today before the American Association for the Advancement of Science.

Discoveries which promise to aid in acclimating white races to tropic heat, were outlined by Dr. L. V. Heilbrunn, of Woods Hole, Massachusetts. He said experiments indicated that fat probably was the determining factor in adjustment of human beings to tropical temperatures.

To laymen a significant fact was that the nature of the fat, rather than amount, determines the ease of stand-

unt, determines the ease of stand-

Experimenting with animals to discover why some stand tropic heat comfortably, while others are killed by relatively cool weather, Dr. Heilbrunn said the differences are found in the melting point of fat in the two extremes.

Those which thrive in heat possess fat which does not melt until temperatures are high, while creatures of temperate zones almost literally justify the well-known summertime exclamation about melting on a hot day.

Next, the Woods Hole experimenters set about finding whether beings with temperate zone fats could develop those of the tropics. They found that living in warmer climates produced the fats more adaptable to heat.

Fruits and Vegetables Aid. With this knowledge fixed, they stud-d how to aid nature's process and

ound one way in diet.

Fruits and vegetables native to the ropics proved to contain properties or making the comfortable fats for hot

Dr. Heilbrunn concluded that as the nerease of populations makes it necessary for more persons to move to the tropics to find elbow room, it may be possible for the white races of temperate zones to acclimate themselves to the point of remaining comfortable and

Dr. Eugene L. Pisk, of the Life Ex-tension Institute of New York City, told of increases in the life span al-ready achieved and forecast lives of ver 100 years as within future poo

With all the fun and frolic seen through the smoke-wreaths, out front, in the burlesque houses, who would dream there could be such stuff as this unfolded in "Burlesque?" The play that came to Poli's last night, labelled a comedy, carries as much drama as the theater in this parish has

play that came to Poli's last night, labelled a comedy, carries as much drama as the theater in this parish has seen in many a day; or night.

George Manker Watters and Arthur Hopkins have here a classic. It was probably Mr. Waters who made the original investigation in the realms of burlesque, there to find that the emotions are pretty much the same as those which actuate hearts in other tions are pretty much the same as those which actuate hearts in other realms of humanity. Sisters and brothers under the skin are we all. Mr. So many fine points to tell about Hopkins, with his fine eye for the theater and things theatrical, must selves out of a review. Hal Skelly and have had quite a lot to do with the making of "Burlesque" into the fin-ished product that it is; the injection of those sure-fire touches of theater which lift stories out of the common-place and make them dramatic.

Bonny, leading woman with the "Parisian Widows." They have hit the scouts of Broadway musical production single out "Skid" for a turn with one of the big shows. Then comes the breaking up of the team of "Skid" and Bonny," with the comic falling for one of the merry-merry girls and the wife going, reluctantly, to the ranch of an Oklahoma oil man, or a rancher, or some such.

mighty bomb.

It was good fortune that hepled Mr. Hopkins select Hal Skelly to play the role of "Skid"—Hal Skelly of the music halls, of the Keith circuit, of the theater, who, until this, has been finding himself; but always in a play not quite his own. Here he is the perfect jewel in the setting, and, as befits his translated by the translate of the setting, and, as befits his translated by the translated by the setting and the setting her thanks the setting and the setting her thanks the setting and th It was good fortune that hepled Mr. Hopkins select Hal Skelly to play the role of "Skid"—Hal Skelly of the music halls, of the Keith circuit, of the theater, who, until this, has been finding himself; but always in a play not quite his own. Here he is the perfect jewel in the setting, and, as befits his training, he turns in as fine a piece of

I'm a very god boy I'll be out in about

McAuliffe learned that the Rindones were at the grandmother's house until 1:30 o'clock Sunday morning. Reasons were found for believing they met their doom soon after returning home or upon arising later Sunday morning.

They were all partly dressed. The youngest victim, Graidia, was found in bed with her shoes on as if she had been tucked away quickly upon her getting home so late at night. She died in a bed above which hung a lithograph of a saint holding a girl about her age.

in a bed above which hung a lithograph of a saint holding a girl about her age.

Although the family was partly dressed, there was no coffee or other breakfast dish on the stove to indicate that the gas overtook them in the morning. The gas which apparently killed them flowed from three burners on the kitchen range and from a small heater in the main bedroom.

The mystery lay in how seven persons, of whom the five eldest were not in bed, died without detecting the amell of gac and letting in some air. The mother and the 13-year-old girl died in the bathroom. Joseph was recavited on a trunk in the hitches.

the bodies of Michael's father and the tribunal.

work as the theater may well hope to see., Playing "Skid" is no mean feat, for the man who undertakes this job must be a combination song-and-dance man and straight actor. Mr. Skelly, a happy New Year!

Laura Hamilton plays Bonny, and if there are those who are always crying for the creator of a role, for the original in a part, here is an opportunity te step up and ask who could improve upon the interpretation given by this same Laura Hamilton? She is the per-

# **WOMEN PUSH FIGHT** TO GET IN CABINET

Work Favors Mrs. Alvin T. Hert for Interior Post; Proposal Problem for Hoover.

#### MRS. M'CORMICK'S VIEW

CONTINUED FROM PAGE 1.

nded at the time than that a compilment should be paid to the State's favorite daughter, one who had attained such national prominence.

But it is surprising the number of men high in public life who subsequently went to Mrs. Hert and assured her that she should not take the novement lightly, that she was entitled to a Cabinet post and that she should

get it.
The politicians now point out bitwith the problem that Mrs. Hert's espousal creates. All these men had to do, these politicians say, was, thinking nicely of Mrs. Hert, to keep on appourating the movement. About the only escape from the llemma as they see it now lies in the fact that the women may get to squab-bling among themselves. In this con-nection they are coming more and more to think highly of Mrs. Ruth Hanna McCormick.

Mrs. McCormick agrees with them that the time is not ripe to place a woman in the Cabinet. She is unprepared for such a revolution right

at this time. A few weeks ago many thousands of words were written about Mrs. Mc-Cormick blazing the high trail of women in public life. Women, of course, had preceded her to Congress, but after her successful Illinois cam-paign for representative at large, it was fect Bonny—and Bonny, be it understood, is true blue all the way.

Fears have been expressed that
everybody will not take kindly to
"Burlesque," for the simple reason that

Fears have been expressed that

# W. J. BURNS AND SO

Ask Court to Void Conviction of Jury Tampering in Sinclair Oil Case.

#### 15-DAY TERM PROTESTED

Appeals from convictions of jury-tampering accusations during the con-spiracy trial of Harry F. Sinclair, New

he and former Secretary of Interior Al-This bert B. Fall conspired to defraud the McCorltically.

Lease was broken up when the sensational jury "shadowing" charges were

made.

As a result of the tampering accusations Justice Frederick L. Siddons sentenced Sinclair to serve six months in the District Jail; Henry Mason Day, his associate, to serve four months; Will-iam J. Burns to serve fifteen days and W Sherman Burns to pay a \$1,000 fine. Sinclair and Day have already carried their appeals to the appellate tribunal.
Attorneys Charles A. Douglas, J. V.
Morgan and Frederick C. Bryan, of the Douglas, Obear & Douglas law firm, filed the Burns appeals. On behalf of William Sherman Burns, the attorneys contended there was no evidence to prove that he had knowledge or connection with shadowing of jurors in the trial and that there was no evidence against him to justify the sentence. Similar appeals were made on behalf of William J. Burns by the attorneys, who contended the court erred in mak-ing findings of facts in the case "not supported by evidence developed."

Services

The Washington Post is the only morning newspaper in Washington with the Associated Press Service. In addition it carries the United Press Service, the Chicago Tribune Service and the New York World Service. This brings to you all the National and International news carefully selected—undisputably authentic—written by the world's best writers "On the Spot" where

Local . Staff

The Post maintains a high class corps of local reporters who bring to you every morning all the news of Washington, nearby Maryland and Virginia. Every phase of Washington life is covered. Society, Politics, Community activities and Courts, in short, every thing of interest to Washington and Washingtonians.

Editorial Staff

The Washington Post is by far the most duoted paper in Washington. The care with which the editorials are conceived, the materiy style in which they are written and the reputation which The Washington Post has always maintained of taking a definite stand on every question of importance has won for The Post the name of "A Paper with a Personality." To read its editorials regularly is to be well informed.

Features

Perhaps the best known of The Post's features is its "Post-scripts." Every morning the news of the day is served to you in George Rothwell Brown's inimitable style. Truth, satire, pathos and humor go to make this column. It humanizes the news.

Many other special features appear to make a well-rounded and numor go to make this column. Is minimizes the flews. Many other special features appear to make a well-rounded paper. Comies for the children, and grown ups., Dr. Evans on Health, Mr. Work on Bridge, Uncle Ray's Corner, Cross Word puzzles, Radio Programs and many others.

The three-page sports section of The Washington Post carries a complete resume of all events in that realm. Baseball, football, boxing, racing, soccer, bowling, golf, tennis, swimming and track—each branch of sport is covered by writers who understand the fine points of every game. Full charts are carried daily on the leading racing tracks and complete results appear each morning on all tracks together with entries for the current day.

Finance

The financial columns of The Washington Post have for many years enjoyed an enviable reputation. Closing quotations on the New York Stock Exchange and New York Curb Transactions, together with the New York Bond Transactions, are invariably

The cotton, metal and grain markets appear daily as does the foreign exchange and money market. The local produce market, of interest to all farmers and produce men, gives a review of supply and prices at Washington markets.

The Sunday Post

The Sunday Post is a volume of intense interest. It carries on the high standard of The Daily Post in all departments and has in adddition features of interest to every member of the family. The eight-page Rotogravure Section brings to you the week's news in beautiful pictorial form. Eight pages of comics, including Gasoline Alley, Winnie Winkle, Elia Cinders and other equally humorous drawings furnish the children with a half hour's pleasure. The Magazine Section contains engrossingly interesting stories written by the best-known authors of the day. Each week, in this section, also appear local stories and write-ups with a particular appeal to Washingtonians.

The Society, Automobile, Amusement and Real Estate Sections all completely cover their respective fields.

The Sunday Post is essentially a Home paper.

What Home Service Means

The Washington Post is a clean home paper. It enjoys a growing patronage among those who desire authentic news, well written. It is the desire of The Post to deliver its paper direct to the home of all such persons.

Home service costs no more than when purchasing on the street or news stand.

Home service is a decided convenience to you. Home service of The Post is early and regular. Home service, coupled with our new Accident Policy, means protection to you and yours, plus the best paper Washington has to offer.

#### TWO SIDES OF THE SHIELD.

All great powers with the exception of the United States are looking diligently after their defense equipments, keeping pace with their extending commerce and national growth. The British, French, Japanese, German and Italian fleets have been augmented by new vessels during 1928. The British and Japanese cruiser fleets are stronger than the cruiser fleet of the United States, so that, in total naval strength, the treaty ratio no longer exists. Naval experts agree that the relative position of these nations in naval strength is: Great Britain, 1; Japan, 2; United States, 3. From equality with Great Britain in 1922, and superiority over Japan at the ratio of 5 to 3, the United States is now in third place.

It is now proposed by some senators that the United States shall signify its faith in the Kellogg Treaty by canceling its plans to build fifteen cruisers. With these cruisers the United States, while not as strong as Great Britain or Japan on the seas, would be in a position to defend its neutral commerce in case of foreign war. Without the cruisers the United States could not enforce respect for neutral rights as against a belligerent like Great Britain or Japan, and either of those powers in case of war would be sorely tempted to interfere with American ships, both for the purpose of appropriating goods, and to prevent goods from reaching the enemy. As there is no longer any binding schedule of contraband goods, everything is contraband that a belligerent cares to make so.

The Kellogg treaty has no bearing upon the situation that would arise after war had begun. It does not affect any nation's right of defense. Each nation must provide its own defenses. If it is well defended it is not likely to be wantonly attacked, and if attacked it will lose fewer of its defenders, because they are well equipped. For this reason every mother who lost a son in the World War is ardently praying that the United States will provide a Navy strong enough to protect the country and prevent needless sacrifice of soldiers and sailors.

Advocates of the Kellogg treaty who oppose the building of cruisers believe they are consistent, but they are no more consistent than if they were urging the abolition of police because murder is a crime. They believe that the United States will honorably observe the treaty, but they would not trust the United States with weapons of defense, for fear that it might seek war. They can not deny that other nations signatory to the Kellogg treaty are building up their fleets, but they are willing to trust to the good faith of those nations in renouncing war as an instrument of national policy. They denounce the building of American cruisers as "provocative," but they see no provocation in the act of other nations in defending themselves.

The Kellogg treaty and adequate national defense are like the two sides of a shield. Both are discouragers of war and both are calculated to keep the United States out of trouble. The nation that proposes this treaty and intends to observe it faithfully is the last nation in the world to be accused of war designs when it provides means of defending itself against breach of the world

#### A PNEUMONIA SERUM.

The announcement by Dr. George W. Mc Coy, of the hygienic laboratories of the United States Public Health Service, of the discovery of a more potent serum for treatment of pneumonia, marks another vital step in the conquest of disease by science. The new serum is a more refined and concentrated product obtained by the same process that has been used for a number of years to develop antibodies ch fight the disease. The serum is obained by injecting pneumonia germs into the lood of a horse. Antibodies formed in the lood of the horse to fight the disease are aken in the form of serum and injected into

times as powerful as the product heretofore obtained, and should prove an effective agent in combating pneumonia.

Considerable progress has previously been made in the fight of science against pneumonia. In 1926 this disease was second only to heart trouble as a cause of death in the United States, taking 107.797 lives. In one year the toll was reduced to 87,230 deaths, and this decrease was the principal factor in lowering the death rate of 1927 to the lowest point since 1900. Medical science should take advantage of this gain. If this more powerful serum is used throughout the country it will no doubt result in further reductions in the pneumonia death rate. In the meantime research scientists will be mindful that the problem is not fully solved, and other agencies for treatment of this disease will no doubt be perfected.

#### THE INFLUENZA CONFERENCE.

Under the auspices of the Public Health Service, there will be held in Washington this month a general conference for the purpose of devising means for combating the present influenza epidemic and others that may develop in the future. Public health officials from all the States and eminent scientists have been invited to attend. Three primary purposes are in view in calling the conference: (1) To emphasize the necessity for additional research on influenza; (2) to clarify and standardize information on the disease that is to be submitted to the public during epidemics, and (3) to assist in completion of plans for an extensive field study of the present outbreak.

Medicine knows very little about influenza. It has learned by experience what steps are efficacious in its treatment and it is able, after a fashion, to control its spread, but it has not isolated the germ of influenza, and its methods of treatment were developed empirically. Further research is urgently needed, for not until after the cause of the disease is known will it be possible to stamp it out. There is no reason to believe that its cause must remain a mystery.

The present epidemic is not severe, possibly in part because it did not catch the medical profession napping. If the comparative mildness of the present outbreak can be attributed even in part to the more intelligent treatment rendered by physicians and public health services, it offers evidence of what may be gained by further study of the disease. The conference unquestionably will be well attended. It is to be hoped that it will result in an organized, comprehensive campaign seeking to eradicate influenza.

#### THE SHIPPING WAR.

Undeterred by the rate war declared by the United States Shipping Board against the Cunard Line in an attempt to make unprofitable the latter's operation of the liner Caronia on the New York-Havana run, two additional companies have announced their intention to put ships in this service, starting next month. The French Line will use the liners De La Salle and Niagara on a Havre-Vigo-New York-Havana schedule, and the Red Star Line, an American company operating ships under the British and Belgian flags, will place the cabin liner Pennland in a New York-Havana-West Indies service to operate throughout the winter. In neither case is a direct and exclusive New York-Havana service contemplated, but each of these liners for upwards of 50 years have served Cuba faithfully through fat months and lean.

A potentially death-dealing situation is developing for the companies operating in the Cuban trade. Only for four months of the year are the Cuban routes highly profitable. But service must be maintained on a yearround basis, and American operating companies have cheerfully shouldered the burden, counting upon the cream traffic of the winter to counterbalance losses suffered during the summer. With outsiders planning to cut into the cream traffic it is not unlikely that the weaker of the year-round operators will succumb. In any event, there is no justification for their building new ships, as they have contracted to do under the provisions of the recently enacted Jones-White law, until such time as the threats to their continued prosperity are removed.

Wherein lies the solution? The Shipping Board's rate war obviously affords only temporary relief. The President Roosevelt will offer sufficient competition to the Caronia, in all probability, on the price, speed and comfort bases, but both liners will operate in direct competition to the regular fleet. Add to these the De La Salle, the Niagara and the Pennland. each carrying passengers that otherwise would use steamers in year-round operation, and it is apparent that the rate war bids fair to defeat the desired end-the protection of American

shipping. The solution lies in the power of Congress. Possibly it is to be found in the suggestion of Vice Chairman Plummer that "a bill exempting trade between British possessions and the United States from discriminating duties might reasonably be adopted, limiting the imposition of discriminating charges to British vessels when engaged in traffic between ports independent of the British empire and ports of the United States."

#### PROBLEMS IN HIGH PLACES.

Few recent political occurrences in Europe or elsewhere illustrate more forcibly the democratizing spirit of the present age than the election of Wilhelm Miklas to be President of Austria. Formerly speaker of the Austrian Parliament at Vienna, Miklas before that had been a teacher in a provincial grammar school at Horn, and during his speakership his wife and eleven children lived in a four-roomed apartment in the back wing of the school. When one reflects on the splendors of the Hapsburgs and the ambitions and pretensions of many Holy Roman Emperors of that family, one is constrained to marvel at the comparatively lowly origins of him who now rules where the weavers of the imperial purple once held sway.

It is one of the minor ironies of the situation that, at the very moment when the father is called to the highest office in the gift of his fellow countrymen, one of his elder daughters, an official in the Vienna general postoffice, is engaged in the passive resistance movement organized some time since by the postal employes against the government on the question of salaries. There is, so far, no indication that the belligerent young woman intends to abandon her position on the firing line,

patients. The new serum is from two to five nor, indeed, could she well do so even if she would, for discipline is rigorously enforced by the Austrian trade unions.

> Another difficulty presents itself in this remarkable family. While the now president was schoolmastering or acting as speaker, his salary was of the modest order and, during his tenure of the latter office in the World War period, it was practically nil, for parliament was out of session most of the time and there was then no attendance pay for deputies. Under such circumstances, Mrs. Miklas, who has learned both thrift and home management in the small hotel kept by her parents at Horn, economized in many ways and especially by doing most of her household work herself. Now that a wider vista has opened and petty cares have largely ceased, she is confronted with the dilemma, whether to stay in Horn and superintend the education and upbringing of her younger children, or take her place as mistress of a presidential mansion in Vienna, and there aid her husband in the discharge of the many social duties which henceforward will fall to his lot.

One inclines to the opinion that it is the latter alternative that she will adopt. Most of us can not help feeling that there is something unreal about Tennyson's village maiden, who married a landscape painter, and when she discovered, on reaching his home, that he was in reality "Lord of Burghley, fair and free," was troubled and perplexed by the burden of an honor unto which she was not born, and so drooped and faded and died before her time. One suspects, from her past history, that Mrs. Miklas is made of sterner stuff. She appears to be, like Eugene Aram, equal to either fortune, as is evidenced by her final declaration on the subject: "My husband will decide."

#### THOUSANDS OF MILLIONAIRES.

In 1914 the United States had 7,000 millionaires. Today, according to figures of Carl Snyder, of the Federal Reserve Bank of New York, there are between 30,000 to 40,000 persons worth more than \$1,000,000 in this country. The 11,067 most wealthy persons of the country have an income of more than \$2.800 .-000,000, which is approximately one-thirtieth of the national income.

These figures will be variously interpreted. There is always a tendency to regard the increase of large fortunes with alarm. When people are not confronted with facts to the contrary, they are inclined to believe that the wealth of the Nation is being concentrated in the hands of a comparatively few families. This gives rise to the cry that the workman is being ground under the heel of capitalists who are getting rich on his labor.

The truth is that while the millionaire class has been rapidly expanding, the wealth of the people of the United States in general has been growing also. In 1904 the per capita wealth was \$1,318. By 1922 it had increased to \$2,918, and there has been a steady increase since that time. The national wealth is more widely distributed among all classes than it has ever been before. In previous eras of prosperity one class has progressed at the expense of the mass of the people, but the present age is marked by an increasingly higher standard of living of all classes.

The fact that the United States has more millionaires than ever before will ultimately improve the status of men with moderate incomes. The amassing of wealth means investment in new industries, which in turn need ing power of these workmen will again benefit the manufacturer. Under the present economic scheme the success of one means the prosperity of many.

Of course there is a certain percentage of reat fortunes which represent no economic gain. A fortune made through speculation represents one or more financial disasters. Therefore every tendency to accumulation of wealth in this manner should be discouraged. But the public in general is little affected by the rising and falling of stocks, and the steady increase in wealth comes largely from the hard work and economy of honest people. When the laborer and the office employe comprehend that the forces that increase the number of America's millionaires also tend to improve their own status, they will be more disposed to cooperate in the present economic scheme.

#### TALKIES AND DIALECT.

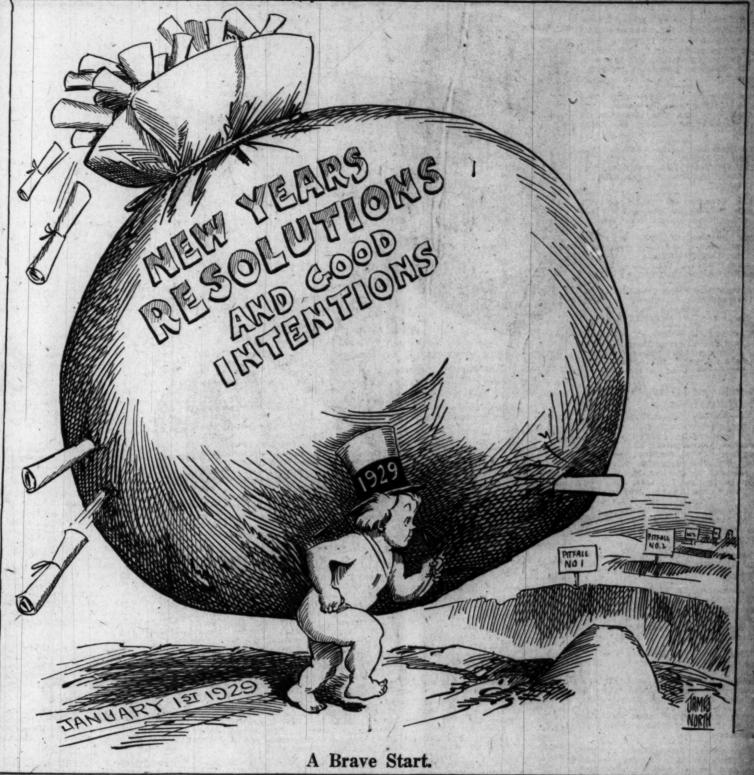

A unified American language in which all dialects are merged into one is visioned by Prof. John H. Muyskens, of the University of Michigan, Addressing the National Association of Teachers of Speech in Chicago, he predicted that if talking pictures keep on developing American speech will be free from dialect within 25 years. In other words, the professor would have the 150,000,000 people expected to inhabit this country by 1953 speaking the language of the movie stars.

The thought that talking pictures will ever bring about a universal dialect is little short of ridiculous. The drama has tended to accentuate the difference in speech between different parts of the country as a means of characterization.

When a Texas cowboy is represented on the screen is he to talk like a New York business man? Without the nasal twang of the Easterner and the harsh tones and provincialisms of the Westerner all the life which speech promises to add to motion pictures would be lost. The drama and the talking picture are good art only in so far as they represent speech as it is in the various parts of the country. It is not their function to melt all dialects into a

Habits of speech are too deeply ingrained in the mental traits of the people to be overcome so easily. Climate is an important influence in the easy drawl of the Southerner and in the sharp speech of the North. A recent survey gave St. Lowis credit for having developed the most typically American dialect. This is undoubtedly due to the central location of that city, where Western, Southern or Eastern dialects are mingled. But the St. Louis dialect is no more representative of this country than

It is daubtful whether the day will ever come when all of America's millions will speak with the same inflection, tone and rate of speed. However, the difference between the extremes is likely to be narrowed by means of the radio. Since talking pictures must depend on speech peculiarities for verisimilitude they can not be expected to cling to a uniform and typical

LETTERS TO THE EDITOR

Buyer Is an Accessory. To the Editor of The Post-Sir: 1 notice that the suggestion has been made to punish the buyer of liquor as well as the seller. Why not? It takes two to commit the crime. If there were no buyers there would be no sellers. If selling is a crime the buyer can be tried as an accessory after the fact." An accessory has always been held equally guilty with the actual offender, although the punishment has not always been so severe. If a man is indicted for selling, the buyer can be indicted as an accessory.

LAW.

What Shall the Jumper Do?

To the Editor of The Post-Sir: The editorial in this morning's "Post" in regard to pedestrians and traffic the pedestrian what he is to do at uncontrolled crossings, where there are neither police nor lights. He may have a technical right of way over traffic, but he is a bold or a life-weary man if he attempts to exercise this right. since most motorists, on seeing a pedestrian, at once blow their horns and step on the gas. Even where there is a policeman, the latter never looks at anything but cars, and the only thing the man on foot can do is to "c We know that in the eyes of mo-torists we are cumberers of the earth, but don't rub it in! ONE OF THEM.

Let Congress Pay for Parks.

To the Editor of The Post-Sir: It is good to see that opposition is developing to the proposition that the Distric borrow \$10,000,000 to \$16,000,000 from the Government and expend it in the purchase of new park grounds. Let us suspend fo a few years the park expansion business. We have ample park space at present for all the needs of the people of Washington. Let the Government clear off its buildings now in Potomac Park and restore it to the District, and then remove its unsightly buildings from the Plaza between the Cabitol and the Union Station, and we will have a very considerable increase to our park space, without buying any more, at least at the expense of the District tax payers.

Now that Congress has removed from the cax duplicate such a large amount of valuable land, thus reducing tax production, and is contemplating tak-ing a few more billions of the taxable real estate and declines to make good by adding to its contribution to expenses of the District Government gress supply the purchase m A TAXPAYER.

# The Once Over---by---H. I. Phillips

An Interview With the Old Year.

THE Old Year had spent his last day on earth without visible concern. He had slept soundly the night before and in the morning asked for bacon and eggs. At noon he had enjoyed a light lunch and in the evening he had eaten a hearty dinner of roast beef. French fried potatoes, bread pudding and coffee.

"You've only a few minutes before being bumped off. Are you nervous?" asked a reporter.

"I've thought if all over and I'm ready." the old man replied. "Nothing will seem bad after what I've been through."

"Aren't you sorry to go?"

"No. This being a year isn't all it is cracked up to be. Being a day, a week or a month is all right; that's a short life and a merry one, lights is all very good, but fails to tell but being a year is something else again. People don't appreciate it." has been married five t 'Have you found it pretty tough?"

"I'm all in, I had the great disadvantage of being an Election Year, a Leap Year and a Bull Market Year. That's a terrible strain. I've really had to do the work of three ordinary years. If I had my choice never would have been an Election Year. It's too noisy." "Now about being a Leap Year?"

"That's bad. Women get into a lot of messes and blame me. They run around proposing and making bad marriages and then when they're hooked they blame it on the year. There are millions of women in this world tonight who are so sore at me they would like to bump me

"As you look back over your life, what gives you the most happiness?" "Babe Ruth in the world series, Amelia Earhart's transatlantic flight, the Graf Zeppelin, the trip of the Bremen fliers and the closing of 'The

"Upon what incidents do you look back with the most sadness?" "The Heeney-Tunney fight, the Yestris scandal, the speeches at both political conventions, C. C. Pyle's Bunion Derby, Representative Heflin. the Movietone records of President Coolidge's voice, the Yale-Harvard football game, 'Ramona' and the tendency to put less and less meat in sandwiches."

"What was the hardest month?" "June, by all means. I had to listen to both Houston and Kansas City. I was never in good condition afterwards. October was pretty

bad, too, on account of the campaign speeches." At this point a gentlemen with a paper hat on and carrying a red white and blue horn threw a fistful of confetti into the Old Year's eyes and said gruffly, "You'd better get ready."

"I'm all ready," said the Old Year. "Have you any last word you would like to say?" asked the man in

the paper hat. "Yes," said the Old Year. "I wish to say that being here since December 31, 1927, has been a wonderful lesson to me. I forgive everybody. And I wish the New Year losts of luck. It will need it.' AWAITING COOLIDGE NEWS.

President Coolidge is bagging wild turkeys galore at Sapelo Island, but in that country if the wild turkeys bag the President-that's news. An optimist is a man who read every name on the list of 168,501 persons to whom the Government made big income tax refunds to see if he could find his.

competition." He is called to Washingwould like to inquire just where the ton and told he must stop that naughty business, and in future give by him on pages 155 and 156 of the

# WOODWARD & LOTHROP

**Extend Grateful Appreciation** for the Largest Year's Business in Their History

# And Wish You a Most Happy and Prosperous New Year

The year 1928 brought to a successful completion many of the improvements we had planned to increase the efficiency of this store and its services.

Notable among them has been the occupancy of the Service Building at 1st and M Streets Northeast, where we have placed under one roof our delivery plant, merchandise warehouse and manufacturing shops. This manufacturing plant is equipped with the most modern machinery and operated by highly skilled craftsmen in the production of Special Furniture, Screens, Awnings, Window Shades, Draperies, Slip Covers, the Replating of Metals, and the installation of Metal Weather Strips.

The Diamonds and Fine Jewelry Section has been entirely refixtured and arranged in a manner that enables us to properly present a fine and exclusive collection of Precious Stones, Fine Jewelry and Silverware.

The New China and Glassware Sections display in a setting most appropriate to the merchandise, the practical as well as the new and exclusive creations from producers here and various countries of the Old World.

The Fountain Room has been doubled in size to care for its everincreasing patronage.

Never was there a time when industry in all its branches was so alive to the fact that style and design have become outstanding factors in the making of products.

This, of course, has been particularly true in the creation of Fashions, and while Paris is still the inspiration for many styles, America is producing more and more of what we have been accustomed to expect from Europe. This has been especially emphasized in the making of Toys and Playthings, which not only appeal for their ingenuity and newness, but also for their durability. It is seen, too, in the great growth and favor accorded such fabrics as Rayon and Celanese-American made.

Our buyers will be frequently in Europe during the New Year and we shall continue to be on the alert for the new and desirable things wherever they are produced.

We're wishing you A very bappy New Year

Letter of Famous Conductor Tells Chamber This City Should Sustain One.

DECLARES LACK IS UNIQUE

such an important part of musical culture.

"The first necessity would, of course, be to finance such an institution properly, and then to find a conductor who combines a sound musical knowledge and enthusiasm with the power of directing and training an orchestra. These are all matters which will demand the interest of the best minds in your city."

Members of the committee are Dr. Frank W. Ballou, Judge Mary O'Toole, William O. Tufts and Sidney Seidenman.

Washington is perhaps the only capital in the civilized world that has no symphony orchestra of its own. Walter Damrosch, conductor of the New York Symphony Orchestra, said in a letter received yesterday by the Washington Chamber of Commerce. The noted conductor's letter was in reply to a query by the local body through its special committee to consider a symphony orchestra for Washington. Damrosch's letter follows:

"T have your kind letter of December 27 and there can be but one answer to your guestion. Washington, the Capital of the United States of America. should have a symphonic orchestra of its own. It is perhaps the only capital of the United States of America. should have a symphonic orchestra of its own. It is perhaps the only capital of the United States of America. Adam Schusier, 65. BENNING POWER STATION

# REDUCED ELECTRIC RATES

# A HAPPY NEW YEAR TO YOU!

THE POTOMAC ELECTRIC POWER COMPANY, through its Board of Directors, Officers and entire personnel, extends sincere greetings for the New Year to its thousands of friends and customers in Washington and Maryland.

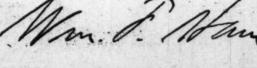

For the fifth consecutive year the Company has great satisfaction and pleasure in announcing a further reduction in electric rates to its consumers.

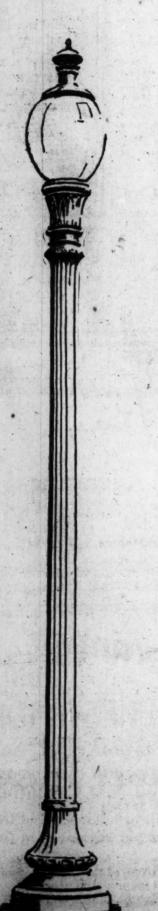

The household rate for the New Year will be 5.2 cents per Kilowatt Hour, which is a reduction of 7 mills per kilowatt hour over the old rate of 5.9 cents in 1928. Reductions have also been made in other Schedules, making a total saving to customers of \$625,000 for the year 1929 as compared with the year 1928. Since December 31, 1924, this Company has made a total reduction in its household rate of 48%. This constitutes a record of benefits to customers in dollars and cents of which this Company is particularly proud.

It is very gratifying to the Company to point to these yearly rate reductions in the National Capital, as it serves to emphasize the fact that, of all the necessities entering into our daily lives electricity is, perhaps, the one commodity that is cheaper than it was in 1914.

By courteous attention to the wishes of its patrons, strict adherence to sound business principles in finance, engineering and operation, combined with economy, prudence and zeal in management, the Company has enjoyed a healthy growth in volume of business resulting in increased earnings, which we gladly share with our consumers through rate reductions.

The Company is grateful for the ever-growing support and patronage manifested toward it during 1928 and promises a continuation of its policies and personal efforts that have enabled it to build new plant additions, extend its services, earn a fair return on the value of its property, and make yearly rate reductions through Matchless Service.

## Football at Pasadena on Air Today

Announcers Will Tell of
Game in Bowl of Roses.

8 Announcers or pair of vertical wires in a loom
12 Medley
13 Brazilian coin 3 Announcers Will Tell of Bridge Forecast 4 P. M. 14 Upon the top of 15 Pertaining to a WRC Will Offer Great Composers at 9.

One of the high spots of today's 20 On broadcasts will be the description of the University of California-Georgia 25 Salt Tech football game played in the Bowl of Roses at Pasadena, Calif. This game is scheduled to begin at 4:30 o'clock this afternoon, our time, and WRC will be : the coast-to-coast hook-up of stations. For the first time three radio reporters will be assigned to cover a football broadcast in the Bowl of Roses. These are Graham Mc-Namee, W. C. Munday, jr., sports announcer for station WSB, Atlanta, Ga., and Carl Haverlin, station KFI, Los Angeles. This East-West football game will be the climax of the Festival of Roses, held annually in Pasadena.

Graham McNamee will tell about the crowds, the scenery, and so forth, while W. C. Munday, jr., and Carl Haverlin will actually describe the game.

Another after on feature will be the bridge game to be broadcast at 4 o'clock this afternoon. The contestants in the eighth game are Mrs. Guy U. Purdy, of Omaha, Nebr.; Mr. L. D. Hin-man, of Enid, Okla., and Mr. Milton C. Work and Mr. Wilbur C. Whitehead. lowing are the advance hards for

Mr. Milton C. Work, "South," the dealer, holds: Spades, 10, 8, 5, 3; Hearts, A. K. Q, 9; Diamonds, 6, 5, 4;

Clubs, A. J.

Mrs. Guy U. Purdy, "West," holds:
Spades, Q. 4; Hearts, 8, 7, 5, 3; Dlamonds, Q. 10, 9; Clubs, 9, 5, 4, 2.

Mr. Wilbur C. Whitehead, "North,"
holds: Spades, K, 7, 6, 2; Hearts, J, 6,
4; Diamonds, K, 7, 3, 2; Clubs, 8, 3.

Mr. L. D. Hinman, "East," holds:
Spades, A, J, 9; Hearts, 10, 2; Dlamonds, A, J, 8; Clubs, K, Q, 10, 7, 6.

Eleven of the great composers will be presented in the Eveready Hour's opening program of the new year at 8 o'clock tonight from Station WRC. Vocal renditions by the International Singers, and flute, cello, violin and trombone solos, with orchestral ac-companiments by the Eveready Orchesa, under the guidance of Nathaniel hour-length program. Jacob Zayde will play the violin. Abasha Borodkin the cello. Ellis MacDiarmid the flute, and Charles Campbell the trombone in these numbers. The program will be as

follows:
Overture to "Raymond," Thomas, orchestra: Vienna Soiree, Schubert, two
planos and orchestra; Allegro Apassionata, Saint Saens, cello and orchestra;
"Who Is Sylvia?" Schubert, and "Die
Lotusblume," Schumann, International
Singers; "Tambourin," Rameau, flute ngers: "Tambourin," Rameau, flute ad orchestra; an air by Handel, tromine and orchestra; "Gavotte," Bach, chestra; "Sonata Pathetique," Bectoven, orchestra; "It Was a Lover and Is Less," and "Now Is the Month of aying," Morley, International Singers; cond movement, Violin Concerto, lendelssohn, violin and orchestra, and lungarian Rhapsody No. 1, Liszt, or-

Dolores Cassinelli, soprano, and Julian Oliver, tenor, will again be starred as vocal soloists in a program by Los Sevillanos to be broadcast at 10:30 o'clock tonight.

The Slumber Hour from 11 o'clock until midnight will close WRC's offer-

"The Octoroon" will be the next drama to be presented by Hank Simmons' Show Boat at 9 o'clock tonight over the Columbia Broadcasting System, including WMAL. "Fantinitza," by Franz von Suppe, will be the next operate to be broadcast by the United Light Opera Company at 10 o'clock from WMAL.

Guy Lombardo and his Royal Canadians, an orchestra well known to listeners who tune in on Station WMAQ, Chicago, will be heard from WMAL between 11 o'clock and midnight in

akulele and guitar, will be among the docal offerings from WMAL at 6:20 o'clock, followed by Gude's Flower Girl.

More than a score of members of Congress will participate in a broad-cast from station WJSV tonight, during which they will extend greetings to their constituents and other listeners in a "New Year's Congressional Greet-ing." Members of the House who will participate in the broadcast include Representatives B. Carroll Reece, of Tonnessee; John C. Ketchum, of Michirennessee; John C. Ketchum, of Michigan; Hampton Fulmer, of South Carolina; John Morrow, of New Mexico; to B. Burtness, of North Dakota; Tom McKeown, of Oklahoms; Albert Johnson, of Washington; Roy O. Fitzgerald, of Ohio; F. D. Letts, of Iowa; Ewin Davis, of Tennessee; Fletcher B. Swank, of Oklahoma; B. Walton Moore, of Virginia. ginia; Tillman Parks, of Arkansas James G. Strong of Francisco G. Strong, of Kansas; Will B. of Indiana; Frank Crowther, of Wood, of Indiana; Frank Crowther, of
New York; Homer Hall, of Illinois;
William Williamson, of South Dakota;
Herbert J. Drane, of Florida; Richard
Elliott, of Indiana; R. A. Green, of
Florida; Fred S. Purnell, of Indiana;
Charles E. Winter, of Wyoming; C. A.
Christopherson, of South Dakota, and
Charl 3 L. Abernethy, of North Dakota.
As a part of the broadcast, a special
musical program will begin at 7:30
o'clock and the members of Congress
will go on the air beginning at 9 o'clock.

Station WOL will broadcast two hours of dance music from 10 o'clock until midnight. There will be a short program of dinner music at 6:30 o'clock, followed by the Two Bills at 7

happening in our own day and age—people travelling across vast expanses of ocean on wings, talking with one another across continents and seas, sending photographs by wires—we seem to be speaking the truth. Really we know that such things aren't miracles at all—that behind them lie years, whole lifetimes of research, experiment, fallure before success.

But many women go through life with this "miracle" point of view toward beauty unchanged. They expect to discover a fountain of youth just around the next corner in which they have only to bathe once to find themselves rejuvenated. They write to measying, "please tell me how to reduce quickly I have no time to take exercise." They buy new preparations as they appear, only to discard each in turn to wait for the next one to perform the miracle.

And, of course, they are disappointed from the miracle.

And, of course, they are disappointed from the miracle.

And, of course, they are disappointed from the miracle.

And, of course, they are disappointed from the miracle.

And, of course the matter of the whole matter in as wrong a way as possible tries expect these miraculous changes without one bit of effort on their own part. Bot that it is ever wrong for us to believe firmly that we are able Singing

# Capital to Greet Radio Engineers

Welcome for Convention. Mary Garden to Sing "Sappho" Over WJZ Tomorrow-Code Heard.

Chairmen of committees will meet this week to discuss preliminary armements for the annual convention of the Institute of Radio Engineers which will meet in Wesnington May 6. It will be the first time that a national gathering of this organization has ever hear held in the Capital. The American section of the Inter-national Union of Scientific Radio Telegraphy has been invited to hold its annual meeting on the day following the radio engineers convention. Tentatively the first morning of the

engineers' gathering will be devoted to a technical session followed by an after-noon trip to the Naval Research Laboratory at Bellevae, D. C.

The second day will include trips to
the Arlington Naval Radio station and

the Arlington Naval Radio station and the radio division of the Bureau of Standards, to be followed by a brief technical session in the bureau, con-cluding with a banquet at night. F. P. Guthrie, of the Radio Corpora-tion of America; will very likely be the general chairman, with Thomas McL. Davis, of the Naval Research Laboratory, in charge of registration and the following committees and committee

chairmen:
Fellowship—Prof. A. E. Kennelly;
trips, S. S. Kirby; banquet, F. P. Guthrie, and publicity, R. D. Heini.
There will also be a ladies' committee consisting of Miss E. M. Zandonini, Miss M. T. Loomis, Mrs. F. P. Guthrie and Mrs. J. H. Dellinger.
It has been suggested that the presentation of the medal of honor of the Institute of Radio Engineers, or the

the Institute of Radio Engineers, or the Liebmann Prize, or both, be made at

Code is also still rampant on the dial.
"I had code interference on KWKH
program at 12 a. m. this 24th of December." W. F. Brice, a Post reader, of 1440 Rhode Island avenue northwest tells us. "This was on a frequency on 850 kilocycles or 352.7 meters."

Mr. Brice subsequently heard code back of the WENR, Chicago, program Thursday night at 12:15 a. m. The frequency of this station is 680 kilocycles and the wave length 440.9 meters. Code was also all over the dial Christmas Eve and badly marred the WRC program. We again noticed it very particularly on WMAL Friday night. This

station, by the way, is still carrying quite a whistle. So that those who would like to hear her may be reminded, the advance no-tice is given here that the one and only

Mary Garden may be heard tomorrow night in the Chicago Opera's produc-tion of Massenet's "Sappho." The pro-gram will not be carried by WRC, but may be heard through any of the WJZ network stations, including WLW and WBAL, and will begin at 10 o'clock. John B. Daniel, formerly in Washing on, will do the announcing.

#### YOUR BOY and YOUR GIRL

By ARTHUR DEAN, SC.D., The Parent Counselor

PRIVACY.

force the next generation to live its life more before the eyes of all? Are the opportunities for running to cover and hiding thought and action gradually becoming less? In short, will the generation to come gradually quit the game of hiding be-cause there will be no hiding places. Television of the future will let the light into all darkened corners. Teachs will be able to see through walls.
others may be able to follow the steps of their youngsters to school and account for every moment of loitering.

Dad can rest comfortably in the big armchair and watch on a dial the movements of his oldest hopeful who has borrowed the car "just for a short ride over to Jim's house." Teacher can turn a switch and see the extent of home study and listen in to that venerable bedtime story which youth tells to mothers, "I'll do my homework in

the hiding places but rather the hiding places will quit us. Forced to live in the open by the development of seeing and hearing inventions, man will either invent devices involving the use of interference waves to thwart the effect of these disclosuratory inventions, or else get busy in the game of honesty is the best policy.

When first announced every invention promises to do wonders. We were told that submarines would destroy told. But the hiding places but rather hands each week, with certain Auction Bridge and Contract Bridge questions to go with each. Deal A is published to-day and others will follow each day this week, including Saturday. This affords an opportunity for readers to test their own knowledge and enter into a contest with their friends.

A though he has six Spades, he lacks the strength to ask South to continue to go with each. Deal A is published to-day and others will follow each day this week, including Saturday. This affords an opportunity for readers to test their own knowledge and enter into a contest with their friends.

Seat though he has six Spades, he lacks the strength to ask South to continue to go with extrement to ask South to continue the bidding. Although weak for a Contract Bridge questions to go with each. Deal A is published to-day and others will follow each day this week, including Saturday. This affords a double; by saying two—not more—he are the bidding. Although weak for a contract Bridge questions to go with each. Deal A is published to sak South to continue the bidding. Although weak for a Contract Bridge and Contract Bridge questions to go with extremely a strength to ask South to continue the bidding. Although weak for a contract Bridge and Contract Bridge and

tion promises to do wonders. We were told that submarines would destroy the world. But destroyers equipped with "ears" shattered that dream. Poison gas would kill off an entire army. Gas masks reduced that menace. 'Tis said that waves of destruction can be sent across the ocean and destroy cities

But some counter invention will de-stroy the effectiveness of these waves. Defense keeps pace with offense. Remove the props and man sets up new ones. Start something and man circumvents. When a man runs up against a stone wall he either finds ways to climb over or duck under. Fifteen million years ago, according to Prof. Osborn, of American Museum of Natural History, the dawn men. swinging in the trees, found that the trees the hich they were accustomed to run to cover disappeared in the Oligocene period. Forced then to live in the open they developed fast run-

ning legs and a competent thumb for for selzing rocks and clubs. Our an-cestors didn't, according to this theory, quit the trees but the trees quit our ancestors. Taking away the trees brought running legs, weapons of de-fense and barricades. Civilization is making us mechanically honest. But no inventing laboratory will make the next generation in-trinsically honest. That's the job of the home, church and school:

OUR CONVERSATION CORNER. A Frank and Earnest Talk.

The leaflet service, supplementing this daily column with its scientific this daily column with its scientific advice and furnished free by this newspaper, covers every field in the life of little folks and young people. The column itself can not go enough into decided the column itself can not go enough tails nor can it openly discuss on these pages many vital problems in the care and training of boys and girls.

I have developed a classified list of

leaders covering practically every child-training problem coming up in the life of the mother and father and every difficulty which young people meet in solving their vocational, emotional, so-cial and educational life. Writing my daily message is not difficult, answering my heavy correspondence is a pleas-ure and a satisfaction and, moreover gives me an insight into all the affairs of home, school, parent and youth. But my real job—one which takes every spare hour of the day—is given over to developing helpful leaflets. Many of my correspondents send for each new helplet when the announce-

Smart bathing ensemble of white and two shades of blue. The suit is of tricot and the cape of jersey, with a zipper fast-Committees Will Arrange ener at the left shoulder. (Courtesy of Joseph Paquin, Paris.)

New York, Dec. 31, 1928. When is a scarf not a scarf? When it is an incrustation, of course

When Mme. Jenny launched the scarf in its modern application, some years ago, she probably never dreamed in her most optimistic moments that it would assume the importance in style

would assume the importance in style it now occupies.

But a couturier must show greater and greater ingenuity these days in his scarf treatments, for all the simple and obvious things have been done dozens A natural outgrowth of this has been

the scarf that is appliqued, wholly or at one end, and the scarf that forms an incrustation in the bodice of the dress. Other Scarf Effects,

Jane Regny shows knitted fabric sports jumpers, which have a scarf ef-fect woven as part of the pattern, in a fect woven as part of the pattern, in a contrasting color. The same idea is carried out by Premet, but the scarf, in crepe, for example, is sewn in as part of the garment. A parallel note is found at Beer-Drecoll, where incrustations in the form of bows are used at the collar-very effectively, it must be

Thus the scarf and the cravat have ILL the inventive genius of man far outgrown their original fund and become abstract elements of deco-

Two of the smartest and lovellest afternoon gowns-honestly, each one of them is a dream! And with our directions, ever so easy to make And, furthermore, you make them both from the material that made your "Cape for a Night," about which we told you last week, 'member? Or, if you didn't make the cape, we tell you how to make them from a specific amount of material.

Just send your stamped, self-addressed envelope to the Dare de-partment of The Washington Post

# HAPPY NEW YEAR!

So the old year has rolled behind us, and the New Year has come along! Do you feel very differ-ent? Probably not—you are only a day older than you were yesterday, not

what is a year, by the way? It is a complete journey around the sun. Semetimes I have asked school classes how long it takes the earth to go around the sun, and a pupil has replied, "One day."

That is wrong. The earth turns around in one day, but it does not circle the sun in that time. It takes a little more than 365 days to make a complete trip around the sun.

mplete trip around the sun. Night and day come from the twists

A Happy New Year to Each Reader --May you grow in knowledge and friendship-Uncle Ray

the earth is making during the yearly trip. There are just as many days in a year as there are "twists."

It may be hard for you to think of th; earth having "two motions" at the same time; but think of a baseball curve. The pitcher throws the ball so that it whirls around to make a curve. It twists at the same time that it is going toward the catcher, making two motions or three. If we count the curve as an extra one.

You may even fancy that the ball is

You may even fancy that the ball is thrown aboard an ocean liner. Then it will have still another motion—the motion of the ship. The fact is that the earth has more than two motions, but I do not want to make you dizzy by speaking about the others now.

by speaking about the others now.

How far do you think the earth travels in a year? If I tell you, you must promise that you will not think your Uncle Ray is making a joke. Scientists have taken the greatest care to find out, and they have learned that a complete journey around the sun is about 600,000,000 miles long!

Think of going that far between now and January 1, 1930! It is a mighty trip which costs nothing extra, and the ship on which we travel a steady one—we do not feel any rocking, and the voyage does not make us seasick. Let us make the best of the glorious adventure called Life, and let us do

better in 1929 than we have done be

# Morgan to Fight Mack

In Denver January 8 Denver, Dec. 31 (A.P.) .- Tod Morgan, junior lightweight champion, has been signed for a ten-round bou' with Ed-die Mack, Rocky Mountain champion, here January 8. Morgan is to meet Josy Sangor in Milwaukee New Year's

#### Roberti Starts Work For Fight With Firpo

New York, Dec. 31 (A.P.).—Roberto Roberti, big Italian battler, has estab-lished fleadquarters at Buenos Aires and soon will get down to active train-ing for his scheduled match with Luis

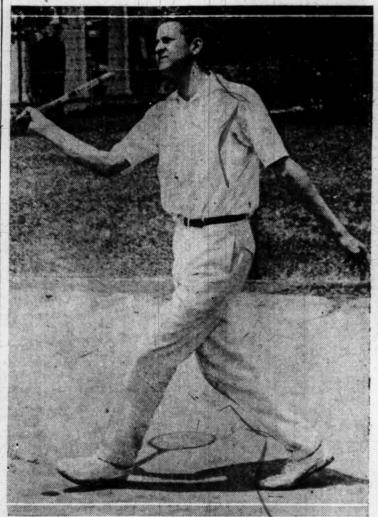

ing for his scheduled match with Luis Angel Firpo, the once-wild buil of the Pampas, February 1.

Roberti made known his plans in a cablegram to Humbert Fugazy, rival of Tex Rickard in promoting the scrambled ear industry here. Provided Firpo can get by Roberti's big fists, the Argentine plans a comeback in American rings with the heavyweight crown as his objective.

PECK TEAMS IN GAMES.

Two games will grace the Peck Memorial Gymnasium today. The Peck Seniors will engage the Pierce A. C., of Hyattsville at 2:30 o'clock while the Peck Juniors will meet the Lightning rive at 2 o'clock in a preliminary Manager Tucker is anxious to arrange more ager Tucker is anxious to arrange more sonal friends and they hesitate to criticize The position of England is not a dangerous one. They have 9 wickets in hand and 351 runs to make to pass boys find it necessary to comment on the Australian total and compel the arresched at Potomac 4270 after 6 o'clock.

Dundee Risks Capital Boy Gains Finals Of U. S. Junior Net Play Bright for

FRANK SHORE.

ALTIMORE, Md., Dec. 31 (A.P.) .-Kendall H. Cram, of Nashville, Tenn., won the National Boys' indoor tennis championship today, de-feating Walter Rothschild, of New in the tournament finals straight sets, 6-3, 8-6.

between Richard Murphy, of Utica, N. Y., and Frank Shore, of Washing-ton, who will meet in the finals of that division tomorrow by virtue of emifinal victories today.

Murphy defeated Billy Jacobs, Bal-

and Richard Covington in the junior doubles final match tomorrow.

The boys' championship match was peculiar in that the service seemed more a handicap than an aid to both players. At the outset Referee Bill Tilden called foot faults on each player and for the rest of the match their attention to the foot-fault rule gave the receiver the advantage of double faults and poorly placed serves. Rothschild took the lead at first, but Cram rallied and took the first set and again made a spurt that won him the second set after Rothschild had brought it to

Murphy defeated Billy Jacobs, Baltimore youth who won the boys, title last year, by a 6—3, 6—4 score, and Shore won a 7—5, 6—3, victory from Henry Clabaugh, another local youth.

Murphy and S. P. Hayes, jr., won the only junior doubles match of the day, defeating Shore and Donald Frame, of Harvard, 6—3, 6—4. The winners of this match will oppose Billy Jacobs

#### COACHES ARE PURE AND PROUD TO HEAR ROPER TELL IT

BY WESTBROOK PEGLER

dent of the Football Coaches Union, had a few words to say in his farewell address to the union at New Orleans, about the tendency of coaches and athletes to capitalize their distinction by indorsing trade-marked commodities Although he mentioned no names, he probably had in mind his colleague, Mr. Chick Meehan, the coach of New York University, who gave a somewhat quibbling approval to a brand of cigarettes this year. He had spoken of the matter during the football season, and address to the union at New Orleans,

smoke cigarettes, he might as well smoke yours."

It was a harmless testimonial, at any

city wants it for Easter week, Los Angeles would stage it whenever Kearns says the word, and Madison Square Garden would stage it any old time at all.

"If McArdle can get things straightened out with the commission," said Hayes today, "Walker will fight on the bossible."

smoke yours."

It was a harmless testimonial, at any rate, and reminiscent of the one for which Red Grange claimed to have received \$3,000, although his life story, which was then being syndicated, stressed the fact that he would never amoke and counseled young boys to shun the fumes of the noxious shrub.

#### Great Names Hold Particular Value to Advertising Men.

Advertising men place a peculiar value on great names and there is no teiling what they would bid for a testimonial from Mr. J. P. Morgan regarding a particular brand of overalls or ng a trade-marked dinner pail I suppose the testimonial theme in advertising goes back to those reading notices in the boiler-plate weeklies stating, "Local lady has 14-pound girl; praises Lydia Pinkham."

In extenuation of Mr. Meehan's conduct certain friends and apologists have explained that he signed the indorsement merely as a secondostation for

ment merely as an accommodation for a friend in the advertising business, a friend in the advertising business, who wished to make good for his employers in an impressive way and did not receive any pay for it. So he seems to have been kicked in the flask pocket while bending over to pick up an invalid's crutch.

Mr. Roper is rather straight-laced in such matters, but perhaps it will be a

uch matters, but perhaps it will be a cood thing for the coaches' union to have in the organization a militant Puritan, corresponding to the anti-everything element in the social make-up of the Nation, because the boys everything element in the social makeup of the Nation, because the boys
have been assuming more and more
control over the lucrative game of football and have been growing a mite
greedy. They reflect that a successful
team draws large gate receipts and
there is a natural temptation to sweat
all possible profit out in successful
years, which accounts for the variety
of autographed models of football
pants, footballs, jetseys and helmets
and the output of water syndicate articles signed by coaches during the
playing season.

N EW YORK, Dec. 31.—Mr. Will hoarding the actual news of their teams as thought this, too, were their personal ton University, and retiring presithe coach of a successful team is entitled to a certain degree of prestige,

ack ear The text of Mr. Meehan's cigarette testimonial is not at hand, but as I recall it, he did not go very far out on a limb. He did not write, "Your cigarettes enabled New York University to defeat Carnegie Tech," or "We place a package of your cigarettes on every plate at our training table." He merely said in substance, "For all I know to the contrary, your cigarettes are not immediately fatal," or "If a ware not smoke cigarettes." their colleagues to the detriment of

their own game.

The coaches' union is now the strongest influence in football, and no member could be forced to acept such players, however great the alumni pres-sure might be, if he simply refused to do so. Of course, he might lose his job, but the first coach to quit for such reasons would receive a great volume of swell publicity and could walk into of swell publicity and could wark the a better one. They have assumed control of the game, but haven't assumed a corresponding degree of responsibility.

2 Andys, Cohen and Reese,

# At Pinehurst to Dunlap

Pinehurst, N. C., Dec. 31 (A.P.) .-George T. Dunlap, jr., of New York, won the midwinter golf tournament of Pine-hurst Country Club today for the fourth successive year by defeating Forbes K. Wilson, York Harbor, Me., in the final championship division by the score of

The Princeton player achieved his easy victory with the same great golf that had won him his way to the closing round through a cluster of bright collegiate and veteran amateur stars. He covered the No. 2 champlonship course in 71 strokes. Wilson kept even with Dunlap to the eleventh hole, and

Have Edge on British the phantom memory of Larry Doyles Nothing daunted by the achievements of his predecessors, the young Jewish boy, playing his first year in the majors, buckled in and tried his best to live buckled in and tried his best to live buckled in an active memory and the second base was the phantom memory of Larry Doyles was the phantom memory of Larry D Melbourne, Australis, Jan. 1 (Tuesday (A.P.).—The English continued their first innings today in the third-cricket test match with Australia. Yesterday the antipodeans concluded their batted well over 300 for awhile, and his hitting was most timely. He fielded well, if not grandly. first visit to the wickets with a score

The English did not begin their batting very well yesterday. Their noted bataman, Jack Hobbs, scored only 20 runs. Herbert Sutcliffe and Wally Ham-mond, continued the English innings, which was left at 47 runs for one

But as the season passed the midway mark, Cohen's batting fell off and his fielding was not so sure. And yet, all the way to the hectic finish, Cohen was a dap-gerous man at the bat. He was always liable to slash out a hit that would help. He was cool and game and he gave everything he had to his club.

# Sport Outlook New Year

International Flavor Is Promised Again in 1929.

All Branches of Athletics Have Their Prospects.

(Associated Press Sports Editor). TEW YORK, Dec. 31 (A.P.).-Nine teen twenty-eight, taking the long count tonight, gives way to a New Year that promises a lot of light and fancy footwork all along the

light and fancy footwork all along the line of sports activity.

Some of it will be on the gridiron where Georgia Tech steps out tomorrow in an effort to halt the California rush. The fleet Paavo Nurmi will add an artistic touch later. So will Sharkey and Stribling and possibly Jack Dempsey, although the Manassa Mauler's footwork is not what it used to be. Big Bill Tilden still can cover a lot of court, if the U. S. L. T. A. will let him, and Bobby Jones will roam over considerable territory, with the features of his 1929 campaign booked for New York and California links.

Rogers Hornsby will do his cavorting around the infield for the Chicago Cubs, for a change, and the manifestations of footwork in the new Pyle bunion derby will be on exhibition all the way from New York to somewhere in the Far West.

Except for a few sorties here and there, such as a golf invasion of Eng-land and a tennis jaunt to France even if there isn't much prospect of success, Uncle Sam's athletic talent will spend most of its time on home soil in 1929. Nurmi, Paulino, Heeney, Lacoste, Cochet, and a few others will add the International touch here and there, but the prospect generally in sports for the new year resembles and old home

pects, as they look from a distance: Baseball—A big drive on the Yankee fortress, led by the Athletics, Browns and Tigers, as well as another hot pennant fight in the National League, with the Glants and Cubs. fortified by Hornsby, as the likely preseason choices.

ack by the old sock artist. Jack Dempsey, in a New York climax to heavyweight show that has its first act in Miami Beach with Stribling and Sharkey as the principals. Golf—Bobby Jones against the

open on the outskirts of New York or in the National amateur, to be played for the first time in Cali-fornia.

Hockey—A possible repetition of the old baseball drama, an all-New York world series on the ice, if the Rangers and Americans keep up their present fast pace.

Football—Red Cagle, Dutch Clark and a flock of other stars back next fall for a few final flourishes in a season that will be a record-breaker for intersectional interest. California-Penn, Stanford-Army, Yale-Georgia, Washington-Chicago, Southern California-Notre Dame and Army-Illinois are a few of the outstanding events on the gridiron

Polo-Nothing much to do for Tommy Hitchcock's new big four except rest on the laurels they won so sensationally in 1928 and await further challenges to their su-

Tennis—Another year of security for the French in Davis Cup and men's tennis, as well as for Helen Wills in women's competitions. Also another comeback scene for Big Bill Tilden,—if and when he negotiates peace with the rulers of the game.

Rowing—California and Wash-ington out to maintain the far Western threat under the coaching of "Mike" Murphy; Yale and Ed Leader organizing to make it eight out of nine from old John Harvard at New London.

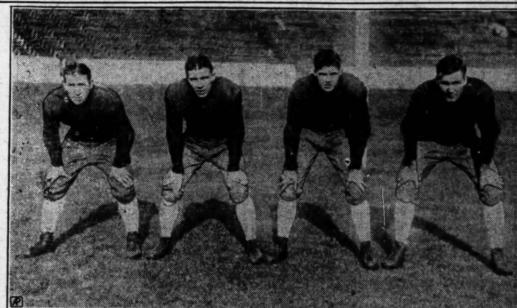

Track and Field-Paavo Nurmi's duels with old pop time, whether or not he turns "pro," as the winter feature, with Canada and the U.S. renewing some Olympic rivalries; Stanford's bid to make it three straight in the intercollegiat

Cohen had a hard row to hoe when

he faced the fans of New York last spring, for he had been played up in the papers all winter as a coming star,

up to all of his advance notices. He

#### SUNDAY BALL **APPLICATION** TABLED

Braves' Request Held Up Pending Bribe Charge Inquiry.

B OSTON, Dec. 31 (A.P.).—The Boston city council, meeting in exeton city council, meeting in exe-cutive session today, voted unaniusly to table until a later date an application filed by the Boston Na-tional League Baseball Club for per-mission to play in this city on Sundays. The filing of the application was a esult of the recent acceptance by the ity council of the State law permitting professional Sunday sports, passed by referendum at the State election.
While the city council was engaged in consideration of the application this

ing witnesses in an effort to bring out ing witnesses in an effort to bring out the facts behind a statement made last week by Charles F. Adams, vice president of the Braves. Adams, after the city council had delayed twice in taking action on the Sunday sports measure, issued a statement in which he intimated that an unnamed city councillor had solicited a bribe for early action on the measure,

Summoned before the finance mission to amplify his charge at first denied the authority of but later was ordered by the Supreme Court to submit to examination. He will be heard on Wednesday.

Interest in Wednesday's forthcoming hearing was further enhanced today with the announcement that the finance commission had summoned Emil Fuchs, president of the Braves, to appear on Wednesday. Fuchs pre-viously had expressed his willingness to answer any questions that the city council might wish to put to him regarding his application for a permit.

#### **Big Six and Southwest** Grid Stars Clash Today

Dallas, Tex., Dec. 31 (A.P.).-The end of their football careers was near tonight for 40 Big Six and Southwest Conference football players, who, tomorrow will plant their feet on a collegiste gridiron for perhaps the last time, in a contest arranged for the benefit of crippled children in a Shrine

hospital here For the last week, rangy giants from the corn belt, formerly foemen of the first rank, have toiled under the eyes of Coaches Ernest Bearg and Bo Mc-Millin to perfect a machine capable of matching a powerful offensive that Southwest Conference gridsters are ex-

pected to employ. The seniors, who compose the rival squads, hung up their uniforms to-night after two practice sessions each, both sides confident. In the morning the Texans went through a light workoutdoors, without much chance of out and during the afternoon spen being stopped by an Eastern array. two hours in rehearsal of the plays.

Fight for Berth on Giants

# Almost the Naked Truth

The York, Dec. 31.—Every one who ever had the pleasure of meeting Norman S. Håll, allaround star athlete of Yale, who was drowned in Cranford, N. J., Sunday, after saving the life of one persor and while attempting to rescue another, will share the regret that is general among Yale men all over the county. Hall, who was captain of the track team and a football letterman, was one of the most versatile athletes Yale ever had. A stalwart, handsome young man of charming presence, he had a keen sense of humor and a gift for story-telling that made him immensely popular wherever he went. His attendance at the last gathering in Nick Roberts' Yale barn in Montclair went a long way toward making it the enjoyable event it was.

Millingian A Cast Tails.

making it the enjoyable event it was Millionaires at Coat Tails

Of Stars of Sports.

Boxers are not the only figures in sport who attract the patronage of wealthy admirers. For several years during his management of the Detroit Tigers, Ty Cobb had millionaires swinging around him day and night. Four of them, retired from business, took all road trips with the team, accompanied Cobb to the clubhouse before games and met him there afterward. The most active of them. ward. The most active of them, Frank Utley, a Western lumberman. used to work out daily with the team. Coach Krug. On his trips to New York, Cobb sei-dom put up at a hotel, almost in-variably being entertained by local admirers. These admirers not only entertained Tyrus royally, but their advice on finencial investments made advice on financial investments the Georgia Peach the richest ball player in the country.

#### Fame Is Fleeting as Proven. By Ex-Champs in Semifinal.

Another somewhat weird ruling by the boxing commission is responsible for the fact that two former champions of the world, who will meet in Madison Square Garden Friday night are receiving semifinal billing, while a pair of mediocre heavyweights are scheduled for the main event. Johnny Dundee former featherweight and junior light-weight king, and Charley Rosenberg ne-time ruler of the bantam roost, are escending the pugilistic hill while Joe Sekyra and Max Schmeling may be on the way up, it is true, but Dundee and Rosenberg are both New Yorkers and possess big local followings, while Sekyra and Schmeling are comparative

ing commission recently turned thumbs down on a Dundee-Al Singer match, it informed Dundee that he might fight in the garden against a less formidab pponent, but that he must appear as semifinalist. While the commission had the praiseworthy motive of prothe way in which he is billed bears on the matter. It probably is safe to say that nine out of ten of the fans who go to the garden next Friday night will go primarily to see the bout between Dundee and Rosenberg.

#### Trouble Looms for Landis If 10-Man Team Is Success.

American League opponents of the ten-man team proposal of John A. Heydler, president of the NaNtional League, thought they had laughed off the sugestions, but it appears that it is taken seriously in Mr. Heydler's own circuit and will receive a trial in the environ trouber they are the serious trial in the environ. in the spring training trips. The Giants and the Pirates are two of the clubs who are planning to experiment with the suggestion that a tenth player be designated to bat for weak-hitting pitchers. If the National League should adopt the plan and the American League reject it, Judge Landis will have a job on his hands in drawing up rules for the next world's series. \_

#### Take a Month Off and See Four

From Detroit comes another sugge tion that probably will receive little attention from the baseball fathers. To eliminate the constant pitching re placements that so frequently drag out games, it is proposed that the starting pitcher be compelled to twirl nine innings unless injury compels his retirement. Judging fro some of the pitching in both circuits last season, adoption of this plan would mean that some games started in April would run on into Octobe if the impotent flinger did not drop from exhaustion sooner. Another suggestion of a change in

sport rules comes from James West, boxing fan. After spending the other evening watching Ace Hudkins and Rene De Vos mauling and tugging each other, it occurred to him that it might A fan at the Polo Grounds last summer summed up Reese and his baseball gifts all in one sentence just after Andy had made an error. "I don't care how many errors that kid makes, he is some guy on that ball field," declared this shrewd and observing fan.

Rene De Vos mauning in that it might be possible to minimize the clinching nuisance by amending the rules. He suggests that by shortening the time of the round it might be possible to bar the clinch has its proper cades that the clinch has its proper cades that the clinch has its proper cades. place in boxing when it is not abused

#### GALLAUDET'S FIVE WINS EASILY

tion of his removal from the line-up in favor of Dyer a perplexing one for

The reliable Cosgrove did not take a back seat, even though his mates jumped into the spotlight for once, for he turned in the respectable feat of scoring five fielders and a foul point while also being in the thick of the action at all times.

A whirlwind attack in the opening minutes seemed to stun the visiting players and they faded to score a point until half of the first session had expired. Abe Stern, a former Gallaudet court mainstay, counted Flint's initial score with a toss from the foul line which constituted Flint's total for the entire period. Gallaudet was in the van, 18 to 1, when intermission arrived. Finding it only slightly less difficult to run up the count on the invaders in the second half, the Kendall Greeners

the second half, the Kendall Greeners collected enough points to make victory certain and then retired in favor of a substitute team. In the last five minutes Stern, Rocco and Miynarek, another ex-Gallaudet star, unloosed a long-range bombard-ment which netted 8 points. The Gal-

laudet subs failed to break into Totals .... 16 2 34

Lon Gehrig a Visitor;

Wishes Johnson Luck Lou Gehrig, who with Babe Ruth, specializes in making home runs for the world's champion New York Yank-ees, breezed into Washington to spend the New Year as the guest of Fred Bucholtz at the Occidental Hotel.
"Columbia Lou," one of the most

modest stars of the game, had little to say except that he thought the Yankees would repeat in the pennant race of 1929 and to praise Babe Ruth. "I wouldn't be surprised to see the Babe create a new home-run record next season," he said. "I thought he'd do it last year, but his 60 mark still stands, although he came close. As his contract ends after the coming season. he's likely to try to step out a little so as to give him the basis for demand-ing a raise. And, if the Babe really

# 70,000 to See Roses Game On Coast

Bears Remain Slight Favorites Over Southerners.

Georgia Tech's Power Is Respected by Coast Backers.

PASADENA. Calif., Dec. 31 (United Press).—A great defensive California football team probably will stick to its "wait-for-the-break" brand of play here Tuesday when it meets the Yellow Jackets, of Georgia Tech, in the annual Rose Bowl classic.

There has been some talk that Coach "Wibs" Price would revamp the Bears' style and give them a real offensive, but apparently he has not gone out of his way to do so.

California has had the advantage of a charging defense that makes opposing fumbles and Price thinks it a good brand of ball.

Many of the more than 70,000 fans, who will see the game, fear Georgia Tech, too, may play defensive ball and slow the game down.

Just what Georgia Tech has is not known. But if Alabama and other Southern teams are to be taken as a true example of Southern football, the Golden Tornado will use some slashing tackle plays that are just a little bit different, and a sweeping end run.

On the expected off-tackle play.

On the expected off-tackle play. Georgia Tech probably will send Mizell through. Much of the suc-cess of this depends on whether California uses a six or reven man

Georgia Tech will need a wide variety of plays if California resorts to its expected defensive style, because the ball will be in the Southerners possession much of the time.

California probably will rely strongly on the kicking of Benny Lom, its triple threat half back. His boots, passes and end runs promise to fear the Bear attack.

Lom has shown in practice here that he can outpunt Mizell, Georgia Tech's

Avery and Phillips. They will tower over the Tech back, who will have to reach high to get the ball The Southerners will get into the garge at full strength, Raleigh Drennon, giant guard, having fully recovered from a light touch of influenza. With "the rambling wreck," all present, the 200 Tech rooters here for the game can not understand the odds which make California a 5 to 4 tavorite.

The loyal Georgians have been taking up the California challenge money as fast as it comes their way.

Georgia Tech went through a light drill today and California was to have done the same, but elected at the last minute to put in two hours on the field.

Dartmouth-Navy Game

This Year, Is Announced Hanover, N. H., Dec. 31 (U.P.)—Dartmouth and Navy will meet on the gridifon November 30, 1929, the Dartmouth Athletic Association announced today. The game will be played in New York or Philadelphia.

The game will replace the Princeton encounter on the Navy schedule, Annapolis officials said. Princeton was

scheduled in 1928 to replace the annual

game with Army. Naval officials announced some time ago that the November 30 date was being held open in event that Army cared to resume relations broken off more than a year ago.

The split resulted from Navy's demand that Army adhere to the three-year eligibility rule now in force in aimost every major American university

#### Miami Golf Tourneys To Attract Pro "400"

Miami Beach, Pla., Dec. 31.—Sports of summertime have moved South for the winter. No longer must spidess spin webs on rusting golf clubs or gut shrivel on the tennis rackets of those who can aford a Southern Jaunt down into the sun. For there are no seasonal sports in this country that has no sea-

sports in this country that has no seasons.

Sans.

Early in January. Gene Sarazen, twice winner of the Miami Beach open champonshington manager. "I never knew Walter well," he said, "but I've heard plenty about him and all good. He's been so great as a player that I certainly hope he will make good as a manager."

Rockne Is Being Sought

By Ohio State, Is Report

Columbus, Ohio, Dec. 31 (A.F.).—
Reports were current here today that Knute Rockne, famous for fifteen wears.

Saray in January. Gene Sarazen, twice winner of the Miami Beach open championship jock Hutchison, Willie Klein and the "400" of professional golf will take their place in the annual winter parade and be swallowed up in the obscurity of the general play.

After a warm-up of pro-amateur matches, the high deacons of golf will assemble for the annual Miami Beach open championship with a \$3,000 meloon to be cut on January 11 and 12. This will be but an appetizer to the men's and women's amateur events in this country that has no seasons.

MERIDIANS VS. FORT MYER The Meridians engage the Fort Mysi 15-pound Five tonight in the Boys Club Gymnasium at 7 o'clock. Players are requested to report at 6:30 o'clock.

THE two Andys—Reese and Cohen—
one an Irishman and the other a
Jew, will battle it out for the second-base position on the Giants next
summer. Reese has the call right now
because of his sensational play in the
pinches last season, but Cohen was far
from a failure during his first summer
of play for McGraw.

came to the club as an outfielder and
later was shifted to third base. He
made many errors at the hot corner,
but they never fazed this game and
aggressive boy. He was up-and-at-'em
all the time. He is a natural player
and has what they call "baseball
sense." He is the bull terrier type, instinctive and indomitable in his play. stinctive and indomitable in his play Handy Andy played the infield and the outfield in 1927 and last season he was tried at second base when Cohen's batting slump would not yield to treat-ment. He played the bag like a vet-

and then he had to fill the shoes of the eran. mighty Hornsby at second base. And behind Hornsby loomed the brilliant Frisch. And then, back behind Frisch and his exploits about second base was Now, Andy Reese's batting average last season was just 308, nothing to get excited about, and his fielding was not up to the mark made at that sta-tion in days gone by by Frisch but his spirit, his aptitude and his possibili-ties have endeared him to McGraw The master of baseball men is sweet on Andy Reese. He sees in him that type of which great players are made He does everything in the game better than ordinary. He can hit, field and run. He has courage and coolness He s aggressive and ambitious. He takes care of himself and gives everything he

as every day to the game.

A fan at the Polo Grounds last sum-

Reese, playing his second season with the Giants, had a remarkable record for a newcomer to fast company. He CONTINUED ON PAGE 12, COLUMN 8, CONTINUED ON PAGE 12, COLUMN 6.

# GET OF FLYING EBONY, COVENTRY TO RACE THIS YEAR

# Tia Juana

Flying Heels, Godiva Impress Trainer as Yearlings.

Cochran Has Hopes of Offsprings of Stake Winners.

By GEORGE DALEY.

gave Gifford A. Cochran two of his biggest racing thrills by winning the Kentucky Derby and the Preakness Stakes, respectively in 1925 will have sons and daughters under col-

will have sons and daughters under colors for the first time this year. They too, will race in Mr. Cochran's name and he has high hopes that one or more will pay him for the faith he has had in their sires.

Both he and his trainer, Henry McDaniel, have been so much impressed with the general conformation and yearling trials of a colt by Flying Ebony and a filly by Coventry that they have been named for the Tia Juana Futurity, to be run at the Mexico track on March 31.

The Flying Ebony colt is out of Heel

March 31.

The Flying Ebony colt is out of Heel
Taps and has been named Flying Heels
— rather apt name if he can live up
to it. The dam of the Coventry filly
is Nelly Kelley, and she has been named Godiva, and she has been named Godiva, and appropriately, too. It was Lady Godiva who earned a place in history by riding a horse through Coventry garbed only in her flowing tresses, to save that town of England from an imposed punishment. The townspeople locked themselves in their homes that her ride might be free of embarrassment, but one peeper. ent, but one peepe

Both Flying Heels and Godiva showed enough speed in their yearling trials to justify the expenditure of \$30 each as entrance fees. This, however, is the only obligation unless they go to the post, when \$150 must be paid as a start-ing fee. Everything depends, of course, on what they show in ac-

The race closed with 108 entries, and with \$7.500 added and twelve starters the gross value will be \$12,500, of which \$10,500 will go to the winner. The distance is five furlongs. Some of the other sires represented are Trap Rock, Escobar, Sweep On, Light Brigade, Omar Khayyam, Peter Pan, Black Tongey, Vulcain, Snanish Prince, Chatey, Vulcain, Spanish Prince, Chat-on, sire of Chatford; Wildair and

Coventry won the Preakness Stakes of 1925, beating H. P. Whitney's Backbone, Almadel and others and running the mile and three-sixteenths in 1:59. He broke down a few days later and was forced into early retirement. An effort was made last season to bring him back to the races, but the pressure of training was too much and now he

nim back to the races, but the pressure of training was too much and now he is back on the farm.

Flying Ebony was so lightly considered for the Kentucky Derby the same year that he was placed among the field horses in the wagering. The field that year, however, included two or three horses so well fancied that the play was heavy enough to make the price comparatively short, so that done if Flying Ebony had been The price in that case would have been long. He beat Captain Hall and Son of John among others. se two victories withhn one week

tted Mr. Cochran \$105.600-the more e because neither had been more opefully anticipated.

Entries for two of the richest 2-year-old stakes of the racing year at Belmont Park will close on January 2 and owners can ill afford to miss the chance to make nomina-tions for the Futurity of 1931 and the Matron Stakes of 1930. Eligibility for these fixtures add greatly to the value of horses which go up

The Matron is exclusively for fillies and foals of this year who must be amed to race in 1930 over 6 furlongs. readnaught, a Man o' War filly, won the race and \$21,725 last September, hile Glade carried off the rich prize in 1927. Each one was at a lon, price and victory was in the nature of an upset. Mares are nominated for the Futurity ith their foals to race two years later The fixture has come to be the richest in the world. It had a gross value of 6125,000 last fall and will be even richer in 1931, as breeders are getting to be more and more tree with their contributions of the terroriches and the terroriches when the terroriche ntries under the temptation of such

owners with the closing of so many fixtures. It is a worrisome time too, as entrance fees and forfeits climb quickly into big money. They must do a lot of thinking and selecting to get their best horses properly engaged without wasting too much money. thout wasting too much money

the cheaper one.

The Maryland Jockey Club also closes
two important stakes on January 2—the
Dixie Handicap of \$30,000, at one mile Dixie Handicap of \$30,000, at one mile and three-sixteenths, to be run next spring, and the Pimlico Futurity of 1931, which will be worth over \$60,000.

Mike Hall came out of the West to win the Dixie Handicap last spring. As a rule most of the best of the older horses in the country are named for this race, with the chance that they can be made ready in time to run for such a worth while prize.

FORT MYER FIVE ANXIOUS. The Fort Myer 115-pound quintet would like to arrange a game for Sunday with some team in its class. The Brookland Boys Club, the Crescents, Aztecs and Tates are challenged. Phone Clarendon 1334-J-2.

#### TIA JUANA'S FEATURE TO MAGHERY

## cap: Conquistador Bows by Neck.

TIA JUANA, Dec. 31 (A.P.).—New Year's visitors were entertained with a special card of racing to-day. While the sport was devoid of features, a well-balanced card of claiming frays were staged. Interesting com-In lieu of handicaps, which failed to fill, fast breakers went into action in the fourth at five furlongs. The Cana-

dian trick, Maghery, belonging to Al Tarn, got up to whip Conquistador, Roguish Brother of Morvich, by a neck. with Short Price gaining third. with Short Price gaining third.
Conquistador was up to his old tricks
at the barrier. He wheeled and fussed
away seven minutes. This brought an
order from Starter Cassidy for his assistants to start Irwin's Bad Boy behind his field. Consequently Conquistador was led two lengths behind the gang retaining No. 1 position and there was sent into action

sent into action.

Though Maghery broke in top. Conquistador, through the daring of his rider. Martinez, passed her in less than a furlong to take charge. He sailed along at a brisk pace to midstretch before showing signs of wavering. Martinez made a splendid try to save the purse for the Irwin cause only to be nipped in the last few leaps. Short Price got away in a tangle. Later on he had to be taken to the outside, but finished well enough to beat Conversafinished well enough to beat Conversa tion a head for the show.

The Cochran barn introduced Guinea Hen to a Western audience for the first time. She was not ready. Next time her tale may be a different one.

#### Round 1929 Coming!

#### **Phoenix Five Faces**

**Heavy Court Schedule** Taking the many games on its schedule, the Phoenix A. C. Five really means business in a basket ball way this winter. Eleven contests will keep the Southeasters busy all through this month and part of February.

The Seaman Gunners begin the list on Thursday, followed by the K. of C. Five on Sunday. Manager Chroniger once in a while would help, too. has several open dates for February and March and would like to arrange games with the best of unlimited teams. He can be reached at Atlantic 2461 or 314
Eleventh street southeast. The schedule follows:

The victory of the East

ule follows;

January 3. Seaman Gunners at Bolling
Pield: 6, K. of C. at K. of C. Hall: 8. Bolling
Pield at Bolling Field: 13, J. C. C. at center;
16. Quantico Marines at Noel House: 20,
Fort Washington at Fort Washington; 23,
Nasbaum A. C. at Noel House: 27, Quantico
Marines at Quantico, Va.
February S. J. C. C. at Noel House: 10,
K. of C. at K. of C. Mall; 23. Warrenton A.
C. at Warrenton, Va.

#### Court Game Features

reached at Cleveland 2551-W after 6 everything he has into everything he does, whether it be hitting a homer,

PETWORTH METS TRAVEL. The Petworth Mets will journey to Baltimore tomorrow night to play the Oakley A. C., of that city, at 8 o'clock. In a previous game between the two the Mets won by a comfortable score.

The close of the year sees one of most prominent of the contendent.

#### East Victory Brings Doubt

The victory of the East over the month and soundly trounced the Army and N. Y. U., respectively. After those games most football followers were ready to admit that the Pacific Coast had an edge on the Attention of the squad of the squad of about 1. The complete spring school of the squad of games and batted 274. Y. M. C. A. Open House | Coast had an edge on the Atlantic on | Open house will be held today by the the gridiron. Now a team of Eastern New Orleans, at New Orleans; April 2 than many men who

The close of the year sees one of the most prominent of the contenders who entered the scramble for Gene Tun-ny's crown when Tunney surrendered it five months ago pretty definitely eliminated. Successive defeats by Jimmy Maloney and Ernie Schaaf show quite conclusively that Johhn Risko is just about washed up as a pugilist. Five months ago he shaped up as about the best of the lot. Body punishment received in his fight with George Godfrey is believed to have robbed the "rubber man," of most of his elasticity. Schaaf, by the way, has been coming along fast, doing most of his boxing in Boston rings. That boy will bear watching in 1929. (New York World News Service.)

#### CENTRAL SET FOR ALUMNI TODAY

#### Coggin's Team to Play **Strong Combination** of Graduates.

B EFORE making its debut in the high school basket ball series against Western in one of the two games which will bring Tech and Eastern together on the same program, the Central High School Quintet will engage in a pair of contests today and tomorrow.

engage in a pair of contests today and tomorrow.

The Alumni will be met this afternoon at 2:30 o'clock in the Central Gymnasium, while tomorrow the High Point Five, of North Carolina, will be entertained in the same gymnasium. These games are expected to bring the team into tiptop shape for the opener on Friday, according to Coach Burt Coggins, who believes that action and action alone is the only way to really condition a team.

None of the other high school teams will see action until Friday, although drills will be engaged in by all three of the teams to figure in the games on Friday, namely. Western, Tech and Eastern.

Those who will perform for the Central Alumni this afternoon include such well-known players and former stars of Central as Arthur Dezendorf, Don Childress, Dick Newby, Bill Howard, Pete Nee, Bill Banta, Mickey Macdonald and Harrison Dey. Players who Coach Coggins will use include Broadbent, Parkins, Lovell, Lampson, Romig, Stephan, DeLisio, Lamond, Capt. Kenneth Fisher and others.

#### **Odd Fellows League**

Staging Close Race Bowlers in the Odd Pellows League are experiencing one of their rost successful seasons in several years on the runaways. Most every team has been strengthened with indications that a close finish will cl'ax the schedule. Arlington leads at present by four full games, but the next six teams are closely bunched and any one of them may strike a winning streak and finish on top. The handicap system is employed in this league which gives the weaker teams an even break.

#### 6th International Title

In Row to Irish Eleven Paris, Dec. 31 (A.P.).—For the sixth successive year Ireland won the annual international Rugby match by defeating France today, 6 to 0. Ireland now has won thirteen of the sixteen contests that have been played.

# WAR COLLEGE FIVE BUSY.

With the Sixteenth Field Artillery Quintet booked for tomorrow night at the Washington Barracks, the Army War College basketers will open a busy basket ball schedule for January. The Soldiers have suffered but one loss in citteen games of far this session losing sixteen games so far this season, losing to the Skinker Bros. Eagles. Games for February can be arranged at National 8772, branch 73. The schedule:
January 4. Kendall A. C.; 7. Tivoil Whirlwinds; 9. Harriman A. C.; 12. Headquarters Company, 14. Red Shields; 6. Company 21. Jewish C. C.; 25. Port Humphreys; 30, Petworth Mets.

#### TIA JUANA RESULTS.

# DE VOS CAN DEFEAT HUDKINS, LEONARD BELIEVES In Slugging

· Return Battle at 15 Rounds Likely to Reverse Verdict.

With Foe

De Vos' Boxing Tactics Started Too Late, Says Ex-Champ.

> BY BENNY LEONARD. (Retired Undefeated Lightweight Champion of the World).

LTHOUGH Ace Hudkins got the A decision over Rene De Vos in their 10-round melee in Madison Square Garden Friday night, it will take another battle—a fifteen rounder—to decide which actually is the better man, in my opinion. Not that I have any fault to find with the decision; for on what was shown in the ring that night Hudkins was entitled to the verdict, even though by a shade. His aggres-siveness—unfaltering and unflinching aggressiveness, accounted for that. But while Hudkins fought his fight, and up to the kind of performance that we expected of him—in fact, he showed at his best—De Vos did not give anything like what we know he is capable of.

The reason, and the sole reason, why
De Vos was outgalloped by Hudkins was
because he made that always fatal er-

"fighting the other fellow's Instead of boxing, at which style De Vos is superior to Hudkins, De Vos selected to go in and slug with the Wildcat. I don't believe there is anybody his weight who can go

in there and slug successfully with Ace Hudkins: not when he is as strong and as well conditioned as he was Friday night. That was the undoing of Rene De Vos. A cagy, clever boxer and a hard hitter, De Vos threw away all his advantage as soon as he started trading punches with Hudkins. Why can't these boxers be sensible enough to take it on the run for a few minutes when they get in there with these rushing,

aggressive battlers of the Hudkins type? Then they can get their range and later on come through to victory. That's the way Tommy Loughran does. That's the way Gene Tunney won and retained the world's heavyweight title. Now, granting that Hudkins won the other night, whether by a shade or by a mile, I am convinced that in a return battle De Vos would turn the tables on the Ace. There were times tables and the tental provided in the champion much to the surprise of the sporting gentry, who wagered heav-the title. Bateoutspeared his man by a wide margin. But he got wise to himself too late to make the margin big enough in his

The battle, which was a grueling, mauling affair, with plenty of punishment handed out by both men, and only the flashes of science shown in comparatively rare intervals by De was just about the kind of a g that in these latter days of the have come to be known as

ons that most of these were strangers to the game; they were seeing their first real professional battle among the

first real professional battle among the stars of the sport.

If they think they saw a boxing match in that De Vos and Hudkins bout, they're mistaken. They saw a fight, pure and simple. And yet it was the dyed-in-the-wool fan who was howling loudest and cheering wildest when the going was roughest. when the going was roughest.

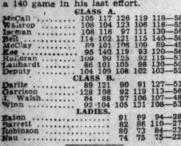

me if I don't think that. etween the old Broadway slasher and (Copyright, 1929.)

Two New Class Leaders

#### In Hyattsville Tourney

The leads in two classes changed hands in the Prince Georges County bowling championships last night at Hyattschampionships last night at Hyatts-ville. Carroll (Toots) Garrison went to the front in Class B, rolling a set of 560, while Miss Mary Eaton took the lead in the ladies class with a set of 284. Despite the fact that several good ets were rolled in Class A, none was high enough to displace young Atwood Bassford, whose mark of 613, made last week, presents a real hazard to Prince Georges bowlers. ing the Class B race, Garrison

turned in the best set of the night, making 592 in Class A. He clipped off a 140 game in his last effort.

#### Canter Forms Eleven

To Play Wolverines Eddie Canter, manager of the Federal leven; has collected an all-star 125pound team to oppose the Wolverines today on the Fairlawn Field at 11 colock. Players on Canter's Eleven are corralled from the N. E. Columbias. Darkaways. Brooklyn Boys' Club and 3. P. O. Federals.

Canter's line-up: Funk, Canter, H. Franke, ends; Risler, Smith, Livermore, guards; Jones, Hepburn; and McCarthy, Fiannagat, Fachina and Taylor, backs. being shown in this event, with consistently high scores being made. class, being closely followed by M. Tallant, 806, and G. Allen, 603. In the doubles, H. Lynch and R. Watson are in first place, with a set of 1.144. George and A. W. Allen are second, only 4 pins back, with P. and J. Harrison third, with a mark of 1,125. The Allied Roof-

These players are requested to repor at the field at 10 o'clock.

#### Northwestern Downs

Penn State Five, 41-17 panston, Ill., Dec. 31 (A.P.).—
thwestern University's five man oflive functioned effectively against
weak defense of Penn State's basball quintet tonight and the Purple
led back the Easterners, 41 to 17.
t. Gleichmann, North restern ford, and Walter, center, tied for scorhonors with 12 points each.
The sign Ten team rolled up a safe
with a lightning offensive at the
set and was never headed. Northtern led, 22 to 10, at the halfway

back, with P, and J. Harrison third,
with a mark of 1,125. The Allied Rooflevis are in front in the team event, with
1,638. Union Printers, 1,605, are second, with the Cornell Lunch Five just 1
pin back in third place.

The schedules for tomorrow and
Thursday are:

(Merchanis Leasue Night.)

THURSDAY.

"W" LEADS LIST.

Alphabetically the letter "W" is best epresented on the Yale football quad, there being fifteen players

the punting department where "Hooley" Gass will hold forth. Gass' exploits in this game is well known as

while a duplicate satchel holding the

receipts, totalling about \$1,200.

amateur he pr fessional, too.

By JACK ESPEY. PPORTUNITY knocked at Joe Bateman's door until it nearly fell from its hinges, but Joe was looking out the window or tying his shoe, and the big chance of his fight

career stumbled away in fatigue.
You probably won't remember unless you are about Joe's age (35 by his own admission and 56 according to the records), but Washington almost had a world's champion prize fighter when Bateman was scattering the bantamweights before him way back in the 90's. Washington almost having a world's champion prize fighter is some-thing that shouldn't be tossed away with stories to be forgotten, because

In Bateman's case, however, small purses could quickly have been turned into bank pillars, for he had only to accept the advice of a couple of would-be managers to take a shot at the then world's characteristics. take a shot at the then world's champion under their guidance. Caspar Leon was ruler of the ban-tamweights then and Bateman generally was considered his su-perior, but the Washington boy sacrificed his big chance to save a steady job as brakeman on the Pennsylvania railroad.

imself with beating ordinary fighters in bouts that were arranged on his nights off from work. And when he came to realize that he was good enough to be world's title holder, he found it was too late. Leon had been defeated by Terry McGovern and by that time the promoters were not so eager to shove him along.

Today you won't see Joe Bateman

suffering in want because he passed up the opportunity to gain a world's title and riches, for since he retired from the ring in 1908 he has acquired a business head and has learned what to do with it. Still, he is not exactly happy in the recollection of what he let slip through his fingers.

pupils gain the pedestal that once was only a step removed from him. Henry Lamar, whom he developed into the national amateur light-heavyweight champion in 1925, bids fair to bring partial realization of those hopes. Lamar now is fighting in professional

# LEADER IN FIELDING

#### Averages Low for Defense.

TLANTA, GA., Dec. 31 (U.P.) .- Individual fielding averages an-nounced officially by the Southern Association indicated a let-down in defense during the past season.

The fielding average of all players in the league during 1928 was .9615, a drop from the mark of .9640 set the

R. Moore, of Chattanooga, led first-basemen, playing in 142 games, mak-ing 1,274 putouts, 82 assists, figuring ing 1,274 putouts, 82 assists, figuring in 122 double plays and having only 9 errors marked against him, for a final percentage of .993. Hugens, of Memphis, was runner-up to Moore with a percentage figure of .985. The fielding of Wilbur Davis, of New Orleans, dropped from that of his previous year to .983 and third honors.

Blair, of Little Rock, led second basemen with a percentage of .983, while Klugman, of Memphis, raised his mark to ,976, a gain over his last year's per centage of 16 percentage points. Blair figured in 121 games, during which he accounted for 293 putouts, 362 assists, 101 double plays and 13 errors.

Klugman worked 146 games, in Klugman worked 146 games, in which he made 439 putouts, 428 assists, 108 double plays and 27 errors. Stewart, of Birmingham, closed the season with .966, and Stock, of Mobile, with .963.

McCarren, New Orleans third base-man, playing in 79 games, about half his club's contests, was the shining ight among the tenders of the warm corner, being credited with 88 putouts, 111 assists, 13 two-ply outs and 14 er-rors, for a percentage of .981. Prothro, of Memphis, had a figure of .943 in

Though failing to reach his mark of .964 in 155 games during the 1927 season, Ray Gardner, of New Orleans, showed the way again to league shortstops this year and ended up on op of the shortfielders with a figure of .954, made in 157 games. The leader tagged out 344 runners, assisted 443 times, participated in 80 double plays and errored in 38 instances. Leading Neither Lamar nor Lesser has had to go through the hectic experience that were Bateman's when the latter was starting out here in 1888. At that time Gardner by 1 point in the percentage column was Jones, of Atlanta, but the the boxers of the city usually were to

Freddie Moore 'last night won the finals of the championship flight of After going into the professional field, Bateman fought most of his bouts in and around New York City, where he attracted the attention of Charley the holiday King Pin bowling tournament when he defeated "Reds" Morgan, 595 to 591. Moore had high game, 148, but lost his early lead and won out in the final game when he rolled 120 while Morgan's best was a 92 while Morgan's best was a 92.

In the consolations, Clem Weideman turned in a 579 to easily beat Tim Dunworth, whose best was 516. Prizes tween the Colonials and Corinthians. o meet Casper Leon for the world's bantamweight title.

Bateman did not rely on fighting to earn his livelihood, but worked steadily tion to the finalists in the two classes.

Rather than Rather than ther winners are Parry McCurdy and "Happy" Welch, third and fourth men in the title flight, and Forrest McDaniel and Walter Seltzer, who finished in similar respective positions in the con-Last night's results:

#### BIRMINGHAM BUSY WEEK ON BIG TEN COURTS

#### Southern Asociation Championship Games Start: Few Teams \* Undefeated.

CHICAGO, Dec. 31 (A.P.).—Pre-ceded by battles against some of the strongest scoring combinations in the East, South and Middlewest, the Big Ten basket ball championship race opens on four front

preceding season.

Birmingham led the loop as a club with a percentage of .966, compared with .974 made last year by New Orleans.

Linis week.

It is by far the heaviest week of competition on the Western Conference schedule, bringing into action such teams as North Carolina, Pittsburgh, Penn State, Missouri and Delivery and Del Penn State, Missouri and Butler. All the lid-raising championship games, Wisconsin at Minnesota, Ohio State at Iowa, Northwestern at Michigan and Illinois at Purdue, come on Saturday night. The schedule of non-conference

games this week: Tomorrow-Carelton at Wisconsin, Indiana at Pittsburgh, Depauw at Purdue, Penn State at Michigan. Wednesday-North Carolina at Ohio State, Beloit at Chicago, Cornell College of Iowa at Michigan.

Friday-Missouri at Indiana. Saturday-Butler at Chicago. ago and Indiana are the only Big Ten teams which do not start their chase for the conference title this

Defeats of Chicago by Depauw and of Iowa by Pittsburgh last week, thinned the ranks of the Big Ten teams which have not been defeated in the stiff preliminary campaign this season to three\_Illinois Northwestern and Wisconsin. Iowa's giants were glorious in defeat at Pittsburgh, however Behind, 10 to 30, at the half, the Hawkeyes found themselves and played almost invincible basket ball The lead was too large, however, and the Panthers won 45 to 39. Depauw was threatened often by Chicago but never headed and tri-umphed, 23 to 19.

Minnesota closed its prechampion ship season by defeating Cornell Col-lege of Iowa, 29 to 19. The Gophers were wobbly, however, and far from im-

Penn State defeated the University of Detroit, 31 to 18, at Detroit, as an appetizer for the feast it expects to get off Northwestern and Michigan this

season so far, indications are that the Big Ten championship race will prove as dizzy if not dizzier than the football campaign teams that flash great form one week and then lapse into medi-ocrity during the next.

#### BOYS' CLUB LEAGUE.

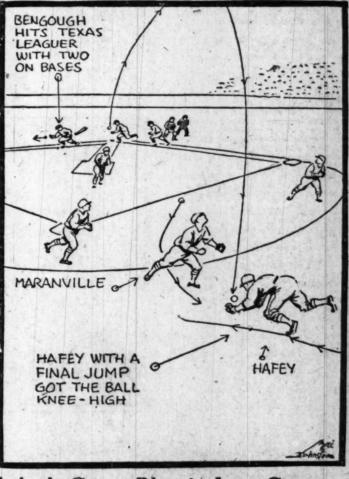

The Boys Club Standards opened the and half of the unlimited series of the Boys Club League last night by defeating the Yorkes, 30 to 23 in the Boys Club gymnasium. The game marked the first appearance of the Yorkes who took the place of the Centennials who dropped out.

Three games will be played on Friday night in the 100 and 130 pound

classes respectively. Opening at 7 o'clock the Speakers will engage the Griffiths in an 100-pound game while the Optimists and Times Boys Club

# John Mc Graw explains BIG PLAYS of LAST WORLD SERIES

## Hafey's Great Play in Last Game Forgotten in Homer Excitement

(Manager, New York Glants).

F THAT fourth game at St. Louis had gone to a tie, or the Cardinals had won by a close score, the fans probably would still be talking about the catch made in left field by Chick Hafey in the fourth inning. In the excitement over the later home runs by Ruth, Gehrig and Durst very likely it has been

whole series, and but for Hafey's being quick to sense the danger and making a remarkable run the Yanks might have won earlier. In the fourth inning the score was tied. There were two out and two on ba when Bengough came to bat for the Yanks. Bengough hit at a ball a little outside and sent a looping fly over shortstop that looked good for a Texas Leaguer single. Maranville started for the ball and though he ran fast it was drifting

further and it could be seen that he wouldn't get it. In the meantime, both ase runners were sprinting toward the plate, there being two out. In a flash, Hafey sensed the situation and came like a shot to back up Maranville. In the last 20 feet he put on extra speed, yelling for the Rabbit to get out of the way. With a final jump Hafey got up to the ball and caught it

about a knee's height from the ground.

One of the runners was already across the plate, but as there were two out no One of the runners was already across the plate, but as there were two out no cun counted, of course.

Aside from the skill in making the catch, the credit for a brilliant play goes to Hafey because of his alertness in sensing what was about to happen and getting on the job. The catch held the score to a tie until the big fireworks began with 10 points and Dartmouth College.

a few innings later.

No matter what finally resulted, that one great play by Hafey should not be

#### DOBIE WOULD SIMPLIFY GAME

#### Football Is Topheavy With Strategy, Says Cornell Coach.

N EW ORLEANS, La. Dec. 31 (U.P.).
Football, says Gill Dobis, of Cornell, is topheavy with strategy.
The gloomy coach of the Ithacans doesn't anticipate any rule changes, but he feels and hopes that something will be done in time to standardise the offense in football.
"There is too much football in the "There is too much football in rules," said the doleful one.

"There is so much variety of offer that it places too much of a bur upon the player and upon the co to defend against the many modes attack.
"I would eliminate the shift and the

huddle and curtail the running ga-considerably. Furnish the offense wi three or four standard formations a

"That would give the defensive team a chance to know what to expect. Football is the only game in the world that you can't reain the world that you sonably know what is going to happen. In baseball you know w the other team will do, the sam being true in basket hall also.

"But in football you can play on team this Saturday and see a certain kind of offense and the next Saturday you'll see another kind and the third Saturday still another kind.

"It doesn't seem right to me that college game should be so complex, so comprehensive. Of course, that's just my idea I have no intention of introducing any such suggestion. I feel however, that football will come it that in time, and in a short time.

"Would it make the game dull? think not. By removing all restrictions on the pass the game could be kept open enough to suit the fans."

#### Illinois Five Defeats Washington U., 30-29

Champaign, Ill., Dec. 31 (A.P.) Illinois halted a late rally of the Washington University Basket Ball Team and emerged victors, 30 to 29 tonight The Illini five presented an airtight The lillin five presented an airtight defense during the first half and the visitors were unable to break through Led by Capt. Ernie Dorn, whose brilliant floor work was the feature of the game, the Rubymen were holding a 21 to 12 lead at the halfway mark. In the last session the lillini defense weakened and Washington outsoored and outplayed the Orange and Blue in the final six minutes of play.

# ARMY OF MOTORISTS **OBTAINS** 11,000 TAGS IN LAST DAY'S RUSH

4,000 Autoists Left Without New Year Licenses as Doors Are Closed.

91,000 ISSUED IN MONTH **SETS DECEMBER RECORD** 

Hundreds in Line Are Turned Away-New Hurry Demand **Expected Tomorrow.** 

Motorists, to such a number as Alexer would have deemed sufficient to in a world campaign of conquest,

seconded on the District Building yespreasy to get their 1929 automobile bense tags, and when some time after o'clock Wade H. Coombs, superintenant of licenses, made a cursory check, ore than 11,000 tags had been issued the course of the day.

The number of license tags issued the course of the day.

The number of license tags issued isterday set a new high record in the istory of the District. But that was ally one record. Another was established for the total of new license tags used in the month of December pombs said that since December 1 lere have been \$1,000 automobile tense tags issued to District residents. December last year the number rued was \$1,000.

Police Trap Alleged Purveye

4,000 Fall to Get New Tags. Four thousand motorists failed to t their new 1929 tags, Coombs said. based this figure on a computation tags issueds in past years and the reentage of annual increase in the imber of cars for which tags have en issued. The total increase in gistration this year, Coombs esti-ated, will be greater than in any her year.

Hundreds Are Turned Away.

Hundreds of last minute tag buyers re turned away. True to his warning at his employes would not be kepture overtime to accommodate last inporary gates be set up to be that mporary gates be set up to be that morary gates and the Lewronce Moss appeared in a room at the Lee House and miller and Lawrence Moss appeared in a room at the Lee House and morary gates be set up to be that morary gates and the Lewrence Moss appeared in a room at the Lee House and morary gates be set up to be that morary gates be set up to be that morary gates and the server paid with a marked by Detective J. E. Billman as they emerged from the room. Miller that provide the form and warfall and were freed in bond for jury trials.

#### LATE-COMING MOTORISTS CLAMOR FOR TAGS

A view of the crowds which swamped the District Building yesterday with last-minute applications for auto tags. More than 11,000 persons recevied 1929 tags yesterday and hundreds were turned away.

# FACE RUM CHARGES

Police Trap Alleged Purveyer of Liquor by Telephone Call From Hotel.

SUSPECT TAKEN IN CHASE

Accused of liquor law violations, five men and a woman faced Judge Ralph Given yesterday in Police Court. All were freed in bond for jury trials.

Alvie Hamilton, of 629 K street north-west and the seizure of 20 quarts of alleged liquor. The woman was charged with possession and Hamilton with sale and possession. Another raid by the same police resulted in the ar-rest of Peter Eckell on charges of sell-ing and possessing liquor at 1413 South Carolina avenue southeast and the seizure of half gallon of alleged liquor.

Bested in a foot race, Frank Wash ington, colored, was arrested by a po-liceman and a half gallon of reputed liquor he was carrying under his arm was seized, police said. Washington began running when he saw a police-man on First street southeast.

#### **Mail Boxes Looted** At Masonic Temple

Letters Containing Money, Left by Secretaries, Re-

ported Missing.

Robbers rifled six mail boxes in the Masonic Temple, Thirteenth street and

Masonic Temple, Thirteenth street and New York avenue northwest, over the week-end, it was discovered yesterday morning when J. Claude Keiper, grand secretary of District Masons, returned to his office.

Letters containing large sums of money are believed to have been dropped into the mail boxes by the secretaries of several lodges before they left the building last Saturday, it was disclosed. One of the Royal Arch Chapters is said to have closed its accounts for the year and dropped mail containing money in the box.

The secretaries of the lodges will have to audit their books before the amount dropped into the boxes can be ascertained it was stated. The robbers smashed the glass fronts to the mail boxes, which are located on the second floor of the building. Several parcel post and insured packages that were left on the fifth floor of the building were also broker into and the contents removed, Keiper reported.

#### **Auto Association Adds** 7,000 Members in 1928

An increase of approximately 7,000 members for the year 1928 was announced yesterday by the District of Columbia division of the American Automobile Association, following a check-up of the year's activities. The membership, according to the report.

check-up of the year's activities. The membership, according to the report, now stands at 22,000, as against 15,000 at the beginning of last year.

In the club's emergency road service.

A. A. stations responded to 48,000 calls, an increase of more than 30 per cent over 1927. Five thousand brakes were adjusted and 1,300 headlights were made to meet legal requirements. In the legal departmnt, the division handled more than 800 cases and aided in the settlement of 70 personal injury claims.

#### Women's Club to Hear **About Parkway Plans**

A bill to develop the George Washington Memorial parkway will be discussed by its auth. Representative
Louis C. Cramton, of the House appropriations committee, before the
public grounds committee of the
Women's City Club at a luncheon
Wednesday at the club headquarters,
27 Jackson place. The bill also provides for the acquisition of lands in
the District, Maryland, and Virginia,
for a park and playground system.

The bill was introduced in the
House by Representative Cramton December 18 and was referred to the
committee on public buildings and
grounds.

Electrician Hurt in Fall. John Doolen, 38 years old, an electri-clan living at 3701 Sixteenth street northwest, was injured yesterday morning when he lost his footing while working in an airshaft on the new building located at 3007 Fourteenth street northwest and fell about 10 feet. Doolen was taken to Garfield Hospital and treated for a possible fracture of his left knee.

Penn Oil Station Bobbed. Charles Phillips, manager of the Penn Gil Station at Third and Maryland ave-nue southwest, yesterday reported the thest of 850 from the station. The money was left in the desk to the sta-tion office Saturday night, he said, and was missing from its hiding piace when

#### Whisky, Honey and Oils Lead to Cell Wrecking

He denied drunkenness, but Manning Jones, colored, admitted in Police Court yesterday that he partook of a physician's prescription containing whisky, honey, linseed oil and cod liver oil, before tearing apart iron bunks in cells at the Eighth Precinct.

Judge Ralph Given found Jones guilty of destroying public property and sentenced him to 15 days in the District Jail. Charges of intoxication and disorderly conduct against the same defendant, were continued ten days by Judge Isaac R. Hitt.

Police testified Jones spit and kicked at them when they were searching him at the station hous and that he broke up two fron bunks in cells in which he was placed. Jones, wearing a black eye, declared the police beat him, but devied he was drunk.

# JURY IS DISMISSED

50 Cases Retained for New Panel Because Two Faced Liquor Charges.

HELD FIRST SUCH FAILURE

ed to return any indictments

Virginia authorities and caused the unusual procedure. Unwilling to chance validity of indictments returned by the incomplete jury, United States Attorney Leo A. Rover refused to submit fifty cases for indictments to the body. Some of the cases had been been mit fifty cases for indictments to the body. Some of the cases had been submitted. Rover declared, but were not reported by the jury and will be resubmitted to the new jury, which will be summoned tomorrow.

The jury was discharged by Justice Frederick L. Siddons, who had been absent from his judicial duties since June as a result of illness. The jurors were thanked by Justice Siddons for were thanked by Justice Siddons for performance on their "important civic-duty." Attaches of the courthouse de-clared it was the first time in their memory that a grand jury had been discharged without returning indict-

Returning from an inspection tour of the District penal institutions at Lorton and Occoquan, Va., a few weeks ago, an automobile occupied by three members of the jury, Edwin C. Crouch, William H. Ontrich and Carl W. Schmidt, was stopped by a Fairfax County policeman. Crouch was arrested and held for the Fairfax County grand jury on charges of driving while intoxicated, in \$500. and Ontrich paid an \$18 fine on an intoxication charge. No charge was made against Schmidt. Following publication of the incident in newspapers, the three resigned as members of the jury. Returning from an inspection tour

#### **Army Sends Planes** To Scout Capital

Langley Field Airmen Give **Exhibition of Wartime** Reconnaissance.

Executing a tactical mission involng a reconnaissance over the City of ashington preparatory to an assumed attack by a larger force, nine attack planes manned by officers of the Air Corps Tactical School at Langley Field. Va., flew to this city yesterday, circled above the National Capital for a half hour and returned to headquarters to

report their "information."

The mission was carried out with true wartime swiftness, the observation planes making a landing at Bolling Field and immediately taking off. Circling above the city in formations of three planes each, the flight turned southward and headed for the home

The formation commanders were Maj. Robert C. Candee, Capt. Robert Oldys and First Lieut. Richard T. Ald-

#### Disjoints His Shoulder In Escaping Store Blaze

Bill to Regulate Exteriors of **Private Property Brings** Protest.

#### SENATOR LEE PRESENT

Objections to application of the pending Shipstead bill regulating external appearance of private structures abutting Federal buildings or property, in its original form, were placed before officials of the National Capital Park and Planning Commission yesterday by representatives of objecting groups headed by Senator Blair Lee, of Maryland.

No action resulted from the conference, modification of the measure now being discussed by the District Commissioners, the park and planning commissioners are consistent to the conference of the co ternal appearance of private structures

headed by Senator Blair Lee, of Maryland.

No action resulted from the conference, modification of the measure now being discussed by the District Commissioners, the park and planning commission and in Congress. Enforcement of the law, if enacted, by the District Commissioners, with the Commission of Fine Arts serving in an advisory capacity, and application of provisions of the bill to major Federal building or parking projects were subjects discussed at the conference.

The park and planning commission is now investigating provisions of the bill in its original sense, and in a way that would eliminate its application to minor Federal areas such as school sites and fire stations.

Autoist Speeding Third

Third

Autoist Speeding Third

Jury failed to return any indictments yesterday before being discharged in the District Supreme Court.

Three members of the jury resigned as a result of liquor charges being placed against two of them recently by Virginia authorities and caused the Van Buren street northwest.

It was Thomas' third offense, according to the police. Patton clamed that the young man, whom he said he purple of the Public Utilities Commission of the Public Utilities Commission.

Telephone Order nue, was doing 34 miles an hour.

#### Joke Riot Call Sends Police on False Alarm

Some irresponsible person's idea of a New Year's joke last night sent police reserves and headquarters detectives on a riot call to the Fox Theater. on a riot call to the Fox Theater.

Upon their arrival the policemen leaped out of their machines only to find an orderly crowd that immediately became very curious. Nothing of a disturbing nature could be found so the police all piled back into their autos and headed for headquarters.

#### **Auto Strikes Man** At Wreck Scene

Bystander Hit-Run Victim as Re Stands With Curious Crowd.

While standing with a crowd at the scene of an automobile accident which had occurred at Sherman avenue and Columbia road northwest. Penbrook Williams, 50 years old, 700 Sixth street northwest, was struck and severely injured yesterday afternoon by a passing automobile, which continued without atomobie.

williams was treated at Garfield Hospital for a possible fracture of the skull and a compound fracture of the right leg. His condition was said to be seri-

The hit-and-run automobile was proceeding south along Sherman ave-nue when it struck Williams. None of nue when it struck Williams. None of the witnesses was able to obtain its license numbers, according to police. The crowd with which the hit-and-run victim was standing had been at-tracted by a collision between automo-biles said by police to have been driven by Albert Westfall, 1411 Harvard street northwest, and by Robert J. Har-ris, colored, 1920 Eleventh street north-west.

Woman Knocked Down By Auto. Woman Knocked Down By Auto.

Mrs. Mary Petty, 37 years old, 317
Kennedy street northwest, was knocked down at Thirteenth and F streets northwest yesterday morning by an automobile driven by Mrs. R. Fred Hatcher, 3334 Seventeenth street northwest, police say. She was taken to Emergency Hospital and treated for a possible fracture of the right hip and spine.

Now Held Improbable

With but three-quarters of an inch of ice on Lincoln memorial pool, United States park police headquarters was doubtful of skating on New Year's Day A heavy freeze is all that can bring the ice to the required thickness of 3 inches today, they said.

# BLAINE SAYS STAND IDATA READY TO WIN OF TRACTION HEADS THREATENS MERGER

MORE CONCESSIONS ARE FOREIGN GOVERNMENTS' ONLY HOPE FOR PASSAGE

Crowded Calendar Will Make Fate of Plan for Generous **Delay From Discord Fatal** to Measure, Belief. to Committee.

Prospects for a street car merger at his session of Congress continued to

Senator Blaine, Rapublican, of Wis onsin, a member of the merger subcommittee of the Senate District committee, went so far as to predict that there would be no merger at this

Valuation Demand Balks

Short Session Action.

Commenting on the letter sent to he subcommittee by the heads of the three transportation companies satur-day. Blaine declared that it not only was evasive, but said nothing of

importance.

If the resolution authorizing a merger had the approval of the Senate District committee at this time ar I could be placed before the Senate. Blaine said, there would be a good chance to have it adopted.

Cites Crowded Calendar. "With the Senate calendar crowded as it is," he continued, "with only two months left and with the wide gulf between the traction men and our expert, Dr. Maltble, I do not see how we can do anything about the merger by March 4."

In Blaine's opinion only one thing might insure action at the short session, a suited continuation by the traction

Autoist Speeding Third

Time Is Police Report

John Thomas, 24 years old,: 1116

Eighth street northeast, was arrested on a charge of speeding by Officer J. O. Patton, of the Thirteenth Precinct yesterday afternoon at Georgia avenue and Van Buren street northwest.

It was Thomas, third offense accords.

Washington will be linked a bit more closely with distant cities when the third long-distance rate reduction within two years, which was announced yesterday by the Chesapeake & Potomac Telephone Co., goes into effect Pebruary 1.

The new schedule, according to the announcement, will cut from 5 to 25 cents from toll rates to cities between 130 and 1,500 miles from Washington. The company estimates that the reduction will result in an annual saving of nearly \$5,000,000 to telephone users.

Under the rates just announced, a call from Washington to New York will be reduced from \$1.20 to \$1,15; to Pittsburgh, from \$1.15 to \$1.10; to Boston, from \$1.90 to \$1,65. These rates apply to station-to-station as well as person-to-person calls in the daytime, but on-to-person calls in the daytime, to not affect evening calls.

#### Street Car Passenger Suffers Cut in Crash

Charles F. McKenny, 35 years old, an employe of the United States Geodetic Survey, was slightly injured late yesterday afternoon when a street car on which he was a passenger was in a collision with a 5-ton coal truck at Seventeenth street and Rhode Island avenue northeast.

McKenny was cut over the right eye when thrown from his seat. He was treated at Sibley Hospital. The street when thrown from his seat. He was treated at Sibley Hospital. The street car was crowded with passengers when the crash occurred. The truck, which was driven by Albert L. Grooms, colored, 23 years old, 1731 Williard street northwest, ripped a hole in the front end of the car. The street car was operated by Marion C. Samson, 28, 622 Minnesota avenue northeast.

# 91,150 Police Court Cases Bring \$457,323 in '28 Revenue

George Jenkins, colored, 31 years old, 4920 Deane avenue northeast, scorched his finger and dislocated his shoulder yesterday morning while building a fire in the kitchen stove at his home.

The flames suddenly flared up, burning his finger. He jerked his arm away from the fire with such haste and force that he threw his shoulder out of joint. He received treatment at Casualty Hospital.

Wife Asks Absolute Divorce.

Charging misconduct and naming a corespondent, Mrs. Sylvia Jones, of 606 K sireet northeast, yesterday instituted suift for absolute divorce from Charles Jones, of 1224 Thirteenth street northwest. The parties were married October 13, 1919, according to the court and the courts of the courts. As an "award" for his distinction, and the single her only person tried in the various branch of being the year 1928, the distinction of the court. In the part all of the four 1928, the first tregulation by hitchen and the court. In the total of it 475, treffic law J. E. Bennett, of the Fifth Precinct. With a total of it 475, treffic law J. E. Bennett, of the Fifth Precinct. With a total of it 475, treffic law J. E. Bennett, of the Fifth Precinct.

# **VOTES IN HOUSE FOR**

PAYMENTS ARE CITED

# Policy on Retirement Up

A powerful argument in favor of passage of the Dale-Lehlbach retire ment bill has been prepared by Rober H Alcorn, chairman of the joint con ference on retirement, in readiness for the return of Congress on Thursday.

It is an exhaustive statement in which Alcorn shows how much more liberal than Uncle Sam's are the re-tirement laws of foreign countries and how much more is being done for employes by various American cities and business firms.

The fate of the Dale-Lehlbach bi will be decided when the steering com-mittee of the House meets shortly after the recess. If the steering committee decides to let the bill come up for a vote it will pass. Hense, it will become a law, as the Senate already has passed it.

The bill would increase the maximu increase slightly the amount of all an nuities, would permit optional retire-ment after 30 years' service and reduce

ment after 30 years' service and reduce the present retirement ages two years.

The great body of clerks in the Government now must wait until they are 70 in order to retire and get the full benefits. The bill would permit them to retire at 68.

Alcorn has listed a score of foreign countries that have adopted retirement laws much more liberal than the Dale-Lehlbach bill. And many of these countries, he points out, are sadly overburdened with war debts.

In France, for example, the voluntary retirement age in the sedentary branch is 60 years, with 30 years' service; in the field service it is \$5 years, after 25 years' service. The maximum pension is three-fourths of the employe's salary.

Belgian System Cited. In Belgium the voluntary retirement age is 65 years, with 30 years' service, and, as in France, the maximum pen-sion is three-fourths of the employe's

erality are cited.

Alcorn also points out how much more liberal the Government is in retiring soldiers and sallors, foreign service workers. Supreme Court judges and lighthouse workers.

He lists a score or more of business firms and cities that permit voluntary retirement at 60 and grant much more liberal pensions than does the United States Government.

Revolutionary Business Changes Are Subject rece

Cuts Distance Rate

Business in the United States has broken away from its old fundamentalistic habits and become scientific, Merle Thorpe, editor of Nation's Business, declared yesterday in an address before the Twentieth Century Club at the National Fress Club.

"Some of the most revolutionary changes in business the world has seen," according to Mr. Thorpe, "have been crowded together in the few short years since the war. They are reflected in mass production, mass selling, chain stores, the new competition among within two years, which was unnounced yesterday by the Chesapeake & Poto
grant Tilenhouse Co. goes into effect.

#### Hesse Warns Citizens To Obey Constitution

The duty of all citizens to obey the Constitution was emphasized by Maj E. B. Hesse, superintendent of police, in a brief talk before members of the Sons of Jonedab, a temperance organization, which held a watch service last night at 623 Louisiana avenue northwest. An entertainment program was provided and followed by a supper.

Maj. Hesse expressed his appreciation to the members for their cooperation in upholding the eighteenth amendment, and declared that respect for all laws is of paramount impor-

#### 200-Pound Painter Breaks Fall: Saves Life

Carl Spitzinger, 200-pound painter, three stories in easy stages, physi-cians at Emergency Hospital said last night he would have been

Spitzinger, 39, of 1919 North Care

lina avenue southeast, was said to be suffering from a possible frac-tured skull and internal injuries. When the fadder on which he standing broke while he was paintstanding broke while he was paint-ing on the roof at 1348 Gallatin street northwest. Spitzinger grabbed the rain spouting on an adjoining house. This broke and Spitzinger fell to the second floor. He grabbed a shutter on a window, but this too

broke under his weight.

As he passed the first floor window, Spitzinger made a last effort to break his fall by catching hold of a board sticking out of the window This too, broke and he landed in a heap on the concrete walk. He was taken to Emergency Hospital in Walter Reed Hospital ambulance.

H. E. Morgan Cites Passage of Spoils System in Speech to 430,000 U. S. Aids.

MEASURE CALLED SOUND he was

Avowal of faith in the future of the

United States civil service and a decla-ration that had the spoils system con-tinued in effect Washington would not have reached its present state of civic bert E. Morgan, editor and recruit director of The Civil Service Morgan, representing the Civil Service Con sion, delivered a message to the 430,000 Pederal employes under civil service who are scattered over the length and breadth of the Nation.

"I look with confidence to the luture of the United States civil service," the speaker declared. "Notable improvements have been made and further advances may be expected. The Governmnt should be a model employer, its working conditions generally should be an example for private employers. The tendency is all in that direction."

The speaker gave a comprehensive Cites Improvements in Law.

Cites improvements in Law.

He classified the advances in the Pederal employment system since the passage of the civil service act, as follows: The employes' compensation act, the retirement law and the classification act, with its amendment under the so-called Welch bill. He declared that all these provisions are imperfect, but are distinctly forward steps.

He expressed belief that the present Congress will give early attention to the question of liberalizing the retirementials will also to a consideration of the recent salary legislation with a view to

and also to a consideration of the ent salary legislation with a view to ustment of what are regarded by Morgan stated that the Civil Service act, organically, needs no change, explaining that "it is very wisely a mere outline of its purposes." He expressed the belief that a great need of the Federal Civil Service "is for classification with the Civil Service and the property of the control of the Civil Service and the civil Servic

under the Civil Service law of higher administrative officers, below those which may be described as policywhich may be described as policyforming."

He pointed out that the President
has the right to select his Cabinet
and that "possibly a few offices require men with training and experience not obtainable in Government establishments." In this connection he
added: "However, it is maintained
that the Pederal Civil Service would be
improved from the top to the bottom
if the promotion of worthy subordinates to the higher administrative office were the rule rather than the exception."

#### Money Given to Suspect By Woman, Police Say

Cleola Hainsworth, 21 years old, colored, 1804 Twenty-sixth street northwest, yesterday was charged with being an accessory after the fact in the death of Ruth Watkins, 21 years old, colored, 2221 F street northwest, who was found shot to death in a rear room on the second floor of 1806 Twenty-sixth atreet northwest on the night of December 22.

The woman in charged by police with having furnished money to Andrew

Mrs. Edith Davis 35 years old, 5311 day afternoon, suffering from a cerebility of the sidewalk while walking in front of 704 Ninth street northwest, was said to be serious. Miss Connelly is librarian at the Washington Club, She was treated at Emergency Hospital for bruises to her far and body.

# EARLE SUSPECT SAYS

Accused Now Faces Action on Three Charges; Two Are Filed by Detectives.

LETTER FROM HIS BRIDE CAUSES HIM TO WEEP

Locked in Cell With Uncle Brought Here From Florida: Writes Mother.

l, had failed to identify him-Villiam Williams, 21-year-old co

William Williams, 21-year-old confessed Earle Theater bandit, yesterday admitted to headquarters detectives that he tricked a colored porter of the People's Drug Store at 1107 G street northwest, out of 470.

Charles Kemper, colored, of Rosslyn, Va., the porter, was on his way to the bank with the day's proceeds when a young man wearing a People's Drug Store tag approached him at Tenth and G streets. Calling the porter by name, the robber told him that "Mr. Collins," the manager of the store, wanted him immediately.

id to be

Williams and his uncle, Thomas Edison Williams, 21 years old, who was brought here from Tamps, Fla., were lodged together last night in a cell at the First Precinct.

Before leaving headquarters last night after a three-hour questioning, Williams

bery yesterday, detectives say that all the money the young man sent home is accounted for. In all, it amounted to approximately \$2,100. Part of this noney he sent to his mother and part money he sent to his mother and part to his young uncle, who is now under arrest here. Both returned it to him, however, when he arrived in Chicago after ficeing from Washington.

Detectives said the mother refused to touch the money, although the son urged her to take at least \$200, because she believed he got it by bootlegging. The uncle is said to have returned all the money sent him for similar reasons.

## F. M. Dent Made Police Lieutenant

Sergeant, on Capital Force 30 Years, Promoted;

As a River road northwest, was treated yesterday morning at Georgetown Hopital for poisoning. She is expected to reced. 1504 Twenty-sixth street northwest, woman, who is the mother of two children, was found lying in her bely the colored maid, Mary Smith, when she did not get up. A note was found in the room, according to J. W. Casey, of the Fourteenth Pretents, who is charged with being when the client of get up. A note was found in the room, according to J. W. Casey, of the Fourteenth Pretents, who is charged with the method in the room according to J. W. # GOOD TIMES ARE PREDICTED FOR 1929

# CAPITAL HAS MADE **ECONOMIC PROGRESS**

Four Chief Factors Are Shown by Secretary of Washington Chamber of Commerce.

93 CONVENTIONS IN 1928

By DORSEY W. HYDE, JR., Secretary Washington Chamber of Commerce.

Off to a slow start last spring, business in Washington gathered momentum as the months sped by and now, with the returns nearly all in, we find that the business record for 1928 is one of which Washington business men may well be proud.

Outstanding factors in the general business situations were: The Federal building program; the recovery of real estate and building activity; increased salaries for Government employes, and the continued growth at a healthy rate of local industrial undertakings.

The Federal building program has resulted in the condemnation of land and the commencement of construction of the much-needed new buildings to house the experience of general tests.

tion of the much-needed new buildings tion of the much-needed new buildings to house the various Government departments. Former owners and tenants of this property are now seeking new places of business in other parts of the city. This has oeen one of several elements which has caused an increase of 37 per cent for 1928 as compared with 1927 in the volume of local building undertakings. undertakings

#### Federal Salaries Raised.

The enactment of the Welch act increasing the salaries of Government employes has been another factor of importance. Under this act it is estimated, according to John T. Doyle, of the United States Civil Service Commission, that the total increase in the compensation of Government employes will

the United States Civil Service Commission, that the total increase in the compensation of Government employes will amount to about \$20,000 000. A few days ago it was announced that requested salary increases for a large number of employes ir the navy yard had been approved.

The rapid , rowth of Washington's industries and the important part which they play in the business life of the city has not been generally realized. In 1925 we were surprised to learn that local industries produced goods valued at more than \$83,000,000. The Census Bureau is now collecting the 1927 figures, and through the courtesy of E. K. Ellsworth the Chamber of Commerce has received a preliminary report which shows that Washington's industries in 1927 produced \$90,279,276 worth of manufactured goods. This is \$6,702,450 more than the 1925 figure, or an increase of 8 per cent, and does not, of course, include the large number of plants in nearby Maryland and Virginia which would bring the grand total for the metropolitan area well over \$100.
When we come to consider the progress made in particular business fields we find ample evidence that the year 1928 was one of substington. The continued cooperation of our city.

"The year 1929 should also be a prosperous one for Washington. The continued cooperation of our city. beautification of our city.

"The year 1929 should also be a prosperous one for Washington. The continued cooperation of our city beautification of our city.

"The year 1929 should also be a prosperous one for Washington. The continued cooperation of our city.

"The year 1929 should also be a prosperous one for Washington. The continued cooperation of our city.

"The year 1929 should also be

When we come to consider the progress made in particular business fields we find ample evidence that the year 1928 was one of substantial economic progress. Real estate and building have shown marked increase. Figures have been applied showing the value of building construction proposed in 1928 as totaling \$49,994,355, as compared to \$36,321,450 in 1927. The increase therefore was \$13,321,450, or 37 per cent.

#### Rental Situation Better.

John A. Petty, of the Washington Real Estate Board, reports that the speculative tendencies of a year and a half ago have commenced to recede, and during 1928 building activities were conducted by responsible firms doing a legitimate busine. The rental situa-tion has improved considerably with resultant benefits to tenants, and in-creased and new facilities and services have been introduced in homes and

During the last year Rufus Lusk, of the Operative Builders Association, points out there has been considerable relative increase in the number of apartments constructed. The figure for 1927 was 58 per cent, but in 1928 almost 70 per cent of the buildings were apartments. Actual building included 2,975 apartments and 1,350 houses. Mr.

2,975 apartments and 1,350 houses. Mr. Lusk states that normally Washington should build 2,500 houses each year.

In the banking field, John Poole, Joshua Tvans, Jr., and Henry H. McKee reported general improvement and a decidedly prosperous year. There were considerable increases in bank clearings and bank deposits. Mr. Poole kindly supplied the following figures on deposits:

# Capital City Will Enjoy Prosperity This Year, Equal to '28, Bankers Say

General satisfaction with business conditions which have prevailed here for a year past, and an optimistic attitude toward developments likely to take place in the year ahead, may be drawn from tratements on the business outlook prepared especially for The Post by a representative group of Washington bankers.

Nowhere was there a note of pessimism in so far as the first six months of the new year was concerned. On the other hand, what enthusiasm was expressed concerning the future was generally tempered with that degree of conservatism traditionally characteristic of the banking fraternity.

The consensus recognizes 1928 as a record year in many respects and looks forward to 1929 as a year that should prove equally good, with the possibility even of greater expansion under the impetus given in the closing months of 1928. Some there were among those questioned who declined to make any predictions concerning the future, holding it largely dependent upon factors beyond contemporary promitted to the consensuration of the District of Columbia Bankers Association and treasurer of the manugural committee, sees the year so boisterously ushered in last night as a prosperous one for Washington.

1928 Most Successful Year.

#### 1928 Most Successful Year.

"As the year 1928 has been a most "As the year 1928 has been a most prosperous one for our country, likewise our city, the Nation's Capital, has prospered," he said. "Our merchants have enjoyed a most successful year, our large corporations have been successful, and conditions in the real estate market have strengthened and improved.

#### Outlook Held Encouraging.

W. W. Spaid, partner of W. B. Hibbs & Co., and past president of the District of Columbia Bankers Association, believes that the vigorous condition of trade and industry at the close of the

trade and industry at the close of the year gives us an encouraging outlook for the opening months of 1929.

"Prognosticators of repute tell us that the first six months should see a continuation of the present general business activity," he stated. "It is reasonable to assume that our present momentum will carry us some distance, but just how far it is difficult to prophesy.

"At the moment, attention seems to be focused on the security markets.

be focused on the security markets.
Generally, price levels are a reflection
of business conditions, but out present
indicator seems to be discounting
future prospects to a marked degree.
A continuation of the upward move-A continuation of the upward move-ment in stocks, and the improvement in business activities will surely gene-rate such a strain on our credit structure that liquidation will be the only remedy. Forced liquidation in the security markets, unless of short dura-tion, in almost every instance retards trade and industry. It is reasonable to believe we will approach this point sometime in 1929. "While our local condition is to a

great extent a reflection of general business throughout the country, the beginning of the Government building program and the appearance of a rather substantial buying power in the real estate field, seem to give us a hopeful outlook for 1929."

said:
"If record production in many industrial lines and an increase of over \$1,000,000,000 in the individual net income in 1928 mean anything, the outlook for the new year is most encouraging. Retail sales show gains in nearly all the States except in the extreme South, and the construction industry has exceeded all previous totals. It is especially gratifying to note the gains in employment.

#### Gain of Half Billion.

"Bank deposits of the whole country show a gain of nearly \$500,000,000, a very healthy sign. One factor that is most encouraging is the evidence of an increasing spirit of mutual cooperation and sympathy in the business world. Other factors might be mentioned, but they all seem to me to point to continued material progress and prosperity. Against this is the natural tendency to discount the future, to endeavor to realize profits before they are actually earned as evidence i. the stock market we have witnessed in the past months. However, I am glad to believe that better judgment will prevail this year, and an opportunity will be given for earning power to catch up or keep pace with valuations of securities. Washington's immediate future is bright, with promise of great development in its growth and industries."

"Our country is prosperous—our people are employed—and our Nation

"Our country is prosperous—our people are employed—and our Nation is at peace with the world," said John Pools, president of the Federal-American Bank.

"President-elect Herbert Hoover can "President-elect Herbert Hoover can not only be expected to carry on but with his wealth of experience and proven resourcefulness, it is reasonable to predict that he will find profitable markets for those things we produce in excess of our consumption and needs. Business and financial prosperity should result in a measure not hereto-fore known to our people.

#### - Hoover Is Praised.

"An enviable and honorable record is "An enviable and honorable record is behind us, for which we can and do acknowledge our greatful appreciation to Calvin Coolidge. A world of opportunity is before us with Herbert Hoover as our leader, to whom more than 20,000,000 of the people in the United States have already recently pledged their complete and loyal support."

A stand equally ontimistic was taken

A stand equally optimistic was taken by Peter A. Drury, sr., president of the Merchants Bank & Trust Co.

Always an Optimist.

"I am always an optimist where business, both national and local, are concerned, and have generally found that I was rightly so," he said. "We have just had a splendid year, and I see no reason why 1929 should not be every bit as good."

John M. Riordon was intuitive.

Always an Optimist.

"I am always an optimist where business, both national and local, are concerned, and have generally found that I was rightly so," he said. "We have just had a splendid year, and I see no reason why 1929 should not be every bit as good."

John M. Riordon way. Speaking from the standpoint of Washington alone, I might even say there is some danger of too rapid a growth. Sometimes I think we are too ambitious as regards Washington, and seek to force its expansion beyond its normal needs. I think this attitude is unwise, for if carried too far it must result in a slump in activity and harm-ful results to local business."

The next business year will be just hat public opinion makes it, believes Col. Robert N. Harper, president of the District National Bank.

"Just so far as we are able to think in terms of good times in 1929, just that far will the actual conditions bear out our belief," he said. "I mean by this that the mental attitude of the people generally plays a tremendous part in predetermining business condipart in predetermining business condi-tions. It is largely a question of crowd psychology. Prom the local standpoint, we can only estimate Washington's ex-pansion next year by its growth in the past. Judging solely on this basis, the next year should be a bright one. Wash-ington is like a huge snowball, that grows in size and momentum as it travels forward."

# Record Year Just Ended Itself Was Unusual, Experts Declare. 1928, bearing in mind that if this year finishes as did 1928 we could not hope for anything more. Conditions and industries are encouraging, and it is our duty to help the continuance of solid propositions." John B. Larner, president of the Washington Loan & Trust Co., believes the new year will be one of continued material progress and prosperity. He said: Hoover's Policies Looked Forward to as Great Aid to Business. Now there are some factors, such as the employment situation, which must improve if this is to prove general. The

prove if this is to prove general. The Government's building program undoubtedly will furnish considerable re lief in this quarter."

Regardless of conditions prevailing elsewhere, business will continue good in Washington, th'nks Y. E. Booker, of Y. E. Booker & Co. Lacking in industrial enterprises, and drawing its trade either from the idle rich or Government employes, this city seldom shows any great amount of fluctuation with gains or depressions experienced in other sections, he holds.

#### Sees Good Business.

"Generally speaking, I think business will be good in 1929," said Mr. Booker. 'Virtually all of the accepted indice point to a continuation of the conditions which have prevailed in 1928. F. ankly, I don't think that the New York Stock Market will experience any such rise as it did last year, but there is no reason why this should have a

is no reason why this should have a detrimental effect upon business."

Although jubilant over business advances made in 1928, Edward J. Stellwagen, president of the Union Trust Co., was reluctant to make any predictions regarding the future, concerning which he believes that one man's opinion is often as good as another's. "We have had a very, very excellent year," he said. "If 1929 proves nearly so good a year, I shall be delighted, indeed."

Eliot H. Thomson, treasurer of the Capital Title & Guarantee Co., and chairman of the advertising committee of the District Bankers Association, looks upon the future for Washington during the year just ahead with healthy optimism.

#### -New Markets Opening Up.

"Why shouldn't we be encouraged by the prospect of the new year?" he asked. "With hundreds of millions in "Through the skill and ingenuity of Mr. Hoover, the Lepartment of Commerce has come to be known as one of the most important bureaus of the Federal Government, so far as the farmer and manufacturer are concerned.

"I look forward to a continued and even greater era of prosperity for this country with a further stimulation of domestic and foreign commerce, the strengthening of the bonds of friendship with the other nations of the world.

"An enviable and honorable.

as good."

John M. Riordon, executive vice president of the Bank of Commerce & Savings, and a member of the council of administration of the District of Columbia Bankers Association, regards the present upward trend of business as a good omen. He said:

"Judging from the rush of business October and November."

Columbia Bankers Association, regards the present upward trend of business as a good omen. He said:
"Judging from the rush of business as 1928 draws to a close, the new year will certainly open under favorable auspices, and I see no reason why this condition should not improve as the year advances. I am speaking in terms of our own bank. The last six months have been the best in our history." have been the best in our history.

#### November Wholesale Distribution Less

Wholesale distribution showed a de-crease in November, but the reduction was smaller than is usual at this season was smaller than is usual at this season according to a survey made public yesterday by the Federal Reserve Board Combined dollar sales of the nine lines of trade reporting to the Federal Reserve Board decreased 14 per cent, the largest decreases being reported for drugs, men's and women's clothing and furniture

Sales in November as in October

Statistics of Banks.

National banks—Call of October 10, 1927, \$138,568,752.77; call of October 3, 1928, \$444,703,687.68; increase, \$5,134,-904.89.

Savings banks—Call of October 10, 1927, \$37,327,236.49; call of October 3, 1928, \$40,315,796,23; increase, \$2,988,-1927, \$37,327,236.49; call of October 3, 1927, \$81,164,889.52; call of October 3, 1927, \$81,164,889.52; call of October 3, 1929 maintaining the record set for 1927 and the outlook for the Nation's business structure.

Good Times Ahead Seen.

Expressing the opinion that wide-spread confidence in Hoover policies of the coming year is "excellent," in the opinion of George W. White, president of the Nation's business structure, "Caution should be practiced by all in responsible positions, and if inflational Bank, president of the Washington, and the end of November as in October, were in larger volume than those of a year ago were responsible opinion of George W. White, president of the Caution should be practiced by all in responsible positions, and if inflational Bank, president of the Washington, and the outlook for the coming year is "excellent." in the opinion of George W. Bank Deposits in 1928 Total \$274,253,000, Exceeding Those of 1927.

#### GAINS IN STOCK EXCHANGE

#### By ROBERT C. ALBRIGHT.

By ROBERT C. ALBRIGHT.
With local banks in the strongest position they have been in years, business activity as judged by Washington clearings at a new high level, and building construction here booming under the impetus given by the Federal building program, "residential" Washington, placid in its remoteness from the hurly burly of industry, has nevertheless completed a business year rivaling that of many of the so-called industrial centers.

centers.

In the language of the man on the street, business in Washington has been "good." Statistical data prepared by governmental agencies, banking institutions and business analysts, all tend to support him in this belief. The local merchant has prospered, banks have expanded in strength and resources, real estate interests have fared well, the Government worker, and certainly the Government may be considered a legitimate "business" in Washington, is in a better economic position, due to last

mate "business" in Washington, is in a better economic position, due to last year's salary legislation.

There is the matter of bank clearings, widely accepted as an index to the volume of business, and this shows a consistent improvement here over 1927. In only two months, January and June, was there any reduction under the same months last year, as against substantial gains in all of the rest. October saw a record for all time hung up, when the clearings total for that month reached \$137,660,693.74.

#### Clearings Reach High Mark.

Clearings from Washington banks for the 12-months ended yesterday reached the high total of \$1,435,725,602.08, a record for all time. This figure repre-sents an increase of \$49,828,175.23 over the \$1,385,897,426.85 reported by the Washington Clearing House Association in 1927, and compares with \$1,392,580, 951.65 recorded in 1926.

December clearings were higher than

f	with no impending legislation or change of administrative policies to disturb the situation, what is there to cloud the outlook for 1929?	951.65 recorded in 1926.  December clearings were higher than those reported in any other month, with the single exception of October. They reached \$129,981,412.41, a gain of \$6,400,160.14 over the figures for December a year ago, and an increase of \$7.275,167.60 over the \$122,706,244.81 reported for the month preceding.

#### year ...\$1.385.897,426.85 \$1.435.725,602.08 Increased Sales in Stores.

Department store sales here have shown a marked increase over 1927, judging from the index prepared by the Federal Reserve Board. Records available for the first eleven months show large gains in every month except January. April and August. On the basis

March. April. May, June September, October and November.

The last call of the Comptroller of the Currency disclosed a huge increase in the resources of District of Columbia banking institutions over the period of a year. This item reached \$335.114,-000 for Washingtor 42 banks, as against \$313.814,000 reported in the corresponding bank call a year ago. As apportioned among the three types of institutions, this city's 13 national banks now have resources aggregating \$174.753,000; its 22 savings banks, \$46,-309,000, and its I trust companies, \$114,052,000.

An equally encouraging gain in de-

\$114,052,000.

An equally encouraging gain in deposits was revealed by the Comptroller of the Currency. He reported deposits in Washington banks totaling \$274,-253,000 on October 3, compared with \$257,228,000 reported the year before. There was \$144,679,000 on deposit in the city's national banks. \$40,385,000 in its saving institutions and \$89,189,000 in its trust companies.

#### Gain in Capital Savings.

A study just completed by the American Bankers Association estimates the gain in savings per inhabitant in this city, over last year, at \$20, as against a gain of only \$17 for the country as a whole. This represents an increase of 12.2 per cent over 1927, and an advance of 183.8 per cent over 1918. The association reports savings in this city aggregating \$99,200,000. There were

on the Washington Stock Exchi shares, a volume gain of 17,303 over last year's 71,335-share turnover. The bond division did not fare so well, its total transactions aggregating but \$2,044,500, as against the higher figure of \$2,184,100 last year. The bond aggregate includes \$10,500 in unlisted bonds, as against \$4,500 last year; and the stock turnover includes 678 shares of unlisted stocks, against 60 shares last year.

Generally speaking, the issues which figured most prominently in last year's trading were again the most active in 1928. National Mortgage & Investment preferred topped the list, 18,281 shares changing hands, at prices ranging from 4 to 6. Washington Gas was next, with a turnover of 10,461 shares, and a price a turnover of 10,461 shares, and a price range from 84 to 106. Trading in Mer-genthaler Linotype aggregated 10,269, with prices fluctuating between 99%, and 111%. The volume of trading in Capital Traction reached 6,482 shares; Potomac Electric Power 5% per cent preferred, 5,662 shares; and Washington Railway & Electric preferred, 4,420 shares.

#### Capital Traction Bonds Lead.

Capital Traction Bonds Lead.

Capital Traction 5s led the bond division, with transactions aggregating \$349.500, and the price ranging from 100 to 104½. Sale of Washington Railway & Electric consolidated 4s approximated \$314.500, at quotations running from 83¼ to 92½. Washington Gas & Geries A, to the amount of \$285, 000, changed hands, and \$141,300 of Washington Gas 6s, Series B.

The year closes with a new president. George O. Walson, president of the Liberty National Bank, presiding over the sessions of the exchange, he having succeeded Charles Carroll Glover, ir. who had held the office for two years. The year 1928 has been an auspicious one for the District of Columbia Bankers Association. Under the guidance of Robert V. Fleming, of Riggs National Bank, who was elected president of the association at its June convention, the organization has undergone a healthy expansion in the last six months. Three new sections, covering the audit, fiducitary and safe deposit fields, have been espoused which will make for greater progress and cooperation among the member banks. Largely through the efforts of the advertising committee of this association. Christmas savings deposits in Washington banks reached the high total of \$8,000,000, a record for all time

Opening the new year with a meeting January 21, at the Willard Hotel, the organization of local bankers will lay plans for carrying forward the progressive achievements of the year past. Already C. H. Pope. of the Munsey Trust Co., general convention chairman of the association, has begun preparations for what probably will prove the largest and most representative convention next June. The association has yet to decide upon a place of meeting. Institute Chapter Active.

#### Institute Chapter Active.

Opening their fall session with a drive for 1,000 members, the Washington Chapter, American Institute of Banking under the leadership of President James A. Soper, of the Lincoin National Bank, has already progressed a long way toward its goal At this writing there are 637 members, with dues paid in full, and prospects are bright for swelling this total when the chapter opens its second semester late next month. Two important functions, notably the chapter's annual theater party and the first of a series of dinger forums, have already been held, and plans are now under way for the annual banquet scheduled for late in February.

February.
Outstanding among the developments last year in Washington's world of finance was the consolidation of the Farmers & Mechanics Bank of Georgetown with the Riggs National Bank of this city. The action was ratified November 2 and took effect December 15. bringing about the unification of two of the country's oldest institutions.

#### Prospects in 1929 **Considered Bright**

#### President of Advertising Agency Looks Forward to Business Gains.

New York, Dec. 31 .-- In response to inquiries as to the business outlook for 1929, M. Amos Brown, president of Lord, Thomas & Logan, stated today that he expected 1929 would be an even better year than 1928.

"Accepting advertising as a barometer," said Mr. Brown, "I feel justified in making an optimistic prediction as to general conditions.

to general conditions.

"During 1928 Lord, Thomas & Logan placed the largest volume of newspaper advertising in its history—a larger volume, I believe, than was ever placed by any advertising agency in a period of twelve months. Present plans of our clients contemplate a considerably larger volume of newspaper advertising in 1929. The amount of magazine, radio and outdoor advertising placed by us in 1928 also set a new high record, and there is every indication that there will be a considerable increase in 1929. I believe the present period of sound prosperity will continue.

"Tooking at our own business, we expect from bookings now on hand, from old clients and new, that 1929 will show an increase of 30 per cent over 1928. In the year just closing our volume in found figures touched \$30,000,000,\*

# **OPTIMISTIC FOR 1929**

New Impetus Expected From Absorption of Overconstruction Two Years Ago.

#### U. S. HAS HUGE PROGRAM

Local building operators are looking with optimistic vision on the next twelve months. All present indications point to a good year in 1929, according to Rufus S. Lusk, executive secretary of the Operating Builders Association of the District of Columbia.

Association of the District of Columbia.

There are two principal reasons why local builders are hopeful of a good year in 1929.

First, according to Lusk, statistics show that practically all of the overconstruction apparent two years ago has been absorbed and building generally will have a new impetus to carry it forward during the next twelve months.

Secondly, Lusk pointed out, thousands of persons who will find employment as a result of the Government's gigantic, building program now under way, will be in Washington before many of the next twelve months pass. Only a few hundreds who have come here during the last, year as a result of the Pederal building operations have found permanent employment, but, Lusk pointed out, the Government construction projects will be well under way before the elapse of many more months and several thousand skilled and unskilled laborers will come to Washington for permanent residence.

Capital Rapidly Growing.

#### Capital Rapidly Growing.

Washington for permanent residence.

Capital Rapidly Growing.

These conditions, together with the fact that Washington is a rapidly growing city, are good omens for building operators, Lusk said

Conditions in respect to the construction of apartment houses during the last twelve months were declared good, although the construction of private homes, however, was icclared to have been low during the last year

Before the World War, approximately 75 per cent of the total of private building enterprises was in the construction of houses. During the years that followed, however, the proportion of homes built to the total private construction projects has dwindled until last year it represented but 35 per cent of total private onstruction. Lusk said. The percentage of private homes constructed undoubtedly was caused by the public's taste for apartment house dwellings, which is becoming more pronounced each year through the country, but especially so in Washington.

As is the custom each year most of the number of private homes to be built during 1929 will be started about the middle of March. The larger construction projects, tuch as apartment houses and hotels, will be started earlier.

But few failures in building projects were noted during the last twelve months. The day when those inexperienced in the building profession dabled in construction projects is now thought to be passed. Past failures of those so inexperienced have left the field practically wide open for those experienced in construction projects. During the same period 88 apartment houses, having a permit value of \$15.368,000, were constructed or started. During the same period 88 apartment houses, having a permit value of \$15.368,000, were started or completed There were 2,957 building units in the apartment house, naving a total of 2,076 units and a permit value of \$9.511,000 in 1927, statistics she ved.

# LIFE INSURANCE AIM IS 100-BILLION MARK

Volume of Underwriting Grows With Prosperity. Says Economist.

#### 1928 MAKES BIG RECORD

By W. A. BERRIDGE (Economist, Metropolitan Life Insurance Co.).

Sometime during 1929 the life insurance business should pass the epochal figure of \$100,000,000,000 of life insurance in force.

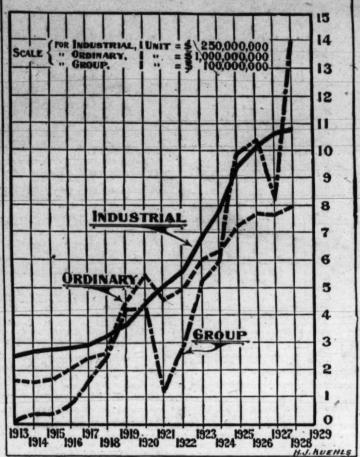

Insurance in force.

The year 1928 has witnessed a phenomenal record in the placement of life insurance in its several forms. When the figures are all in hand, it is not unlikely that the total new business issued will approximate \$15,000,000,000. The member companies of the Association of Life Insurance Presidents, which constitutes about \$2 per cent of the business in the United States, are estimated to have placed about \$12,000,000,000, divided among the three leading types as follows: Industrial, \$2,700,000,000; ordinary, \$8,000,000,000; group, \$1,400,000,000—all of which figures are, however, subject to revision.

This excellent showing is due to two factors, one of which is the favorable position of 1928 in the tide of business conditions, after the weakening in business cycle conditions during 1927. In its response to the ebb and flow of fundamental economic conditions, the volume of life insurance marketed shows a strong family resemblance to that of other consumers' goods and services. In general nearly every the services. In general, nearly every up-swing in the cycle of general economic conditions not only increases the amount of business written, revived or increases, but also reduces policy loans

#### LIFE INSURANCE GROWS

The service the

Growth in industrial, ordinary and group insurance since prewar days is shown in the chart.

generations—being somewhat accelerincreases, but also reduces policy loans and lapses.

The favorable effect of 1928 business conditions on issue in all three major divisions of the business is graphically shown in the accompanying chart. For example, and the severe depression of 1921.

But in addition to these cycle influences an especially powerful long-time or "secular" growth is evident in the same chart. As a matter of fact, such a growth has characterized the life in-

surance business throughout the past | in the fact that 1928 closes with about \$95,000,000,000 in force.

Yet there is still much to be done before human life values in the Nation's assets will be properly underwritten. Even now only about 21/2 per written. Even how only about 2½ per cent of the national income goes (in the form of life insurance premiums) toward the conservation of future income-earning capacity of the population. These and other economic considerations justify a thoroughly optimistic attitude toward the future of life insurance in the United States and Canada.

1928, \$89,213,377.38; increase, \$8,048,-Total increase for all banks, \$16,171,-

952.49.

The District of Columbia League of Building and Loan Associations reports material increases in resources and loans in real estate. Resources increased from \$53,800,000 in 1927 to \$63,000,000 in 1928, or 17 per cent. Loans increased from \$50,940,000 in 1927 to \$61,000,000 in 1928, or 19 per cent. In previous years, the rate of increase for resources had been 10 per cent, and for loans from 8 to 10 per cent.

#### Incomes of Utilities.

District public utilities have kept pace 'th the advances in other fields. Col. Harrison Brand jr., of 'he Public Utilities Commission, has furnished the following figures regarding their net

Traction companies (11 months)— 1928 over 1927, \$89,000, or 4 per cent increase. Potomac Electric Power Co. increase. Potomac Electric Power Co. (11 months)—1928 over 1927, \$715,500, or 27 per cent increase. Washington Gas Co. (10 months)—1928 over 1927, \$103,500, or 22 per cent increase. Georgetown Gas Co. (10 months)—1928 over 1927, \$15,000, or 19 per cent increase. Chesapeake and Potomac Phone Co. (10 months)—1928 over 192, \$29,800, or 2 per cent increase.

The 1928 retail trade record, accord-The 1928 retail trade record, according to W. W. Everett, Harry King and B. B. Burgunder, was better than that of 1927. A number of firms report the best year's business in their history, particularly from the viewpoint of sales volume. Competition has been keen, with lower profit margins, and some of the smaller stores encountered difficulties. During 1928, unit prices reached a low level, and customers were offered bargains greater than had been offered bargains greater than had been available for some years past.

Stephen H. Talkes, of the Credit Men's Association, reports that credit conditions in 1928 were decidedly good. More credit business was handled with more care in the extension of credit. Washington merchants realize that credit business is good when credit extensions are properly safeguarded. Collections were better during 1928 with smaller losses from bad accounts.

#### Insurance Averages Good

In the insurance field, Edward S. In the insurance field, Edward S. Brashears, of the Underwriters Association, says that business averaged good, with a fair increase in life insurance and considerably increased business in compulsory insurance as the result of the enactment of the workman's compensation legislation. The recent action of the Underwriters Association in reducing fire insurance

The recent action of the Underwriters Association in reducing fire insurance rates, while not affecting coverage, will decrease premiums in varying amounts, and this saving will be passed on to the buyer of insurance.

Automobile sales have increased in 1928 over 1927. Erwin M. Wallace, of the Automotive Trade Association, reports satisfactory progress in 1928, when 9.787 cars were sold in Washington as compared with 9.342 in 1927. These 445 additional cars represent an increase of 5 per cent over the previous year.

During the last 10 years the District electrical business has grown into a \$7,000,000 to \$7,500,000 enterprise. Al-bert F. E. Horn, who makes this esti-mate, states that in 1928 local manu-facturers and wholesalers of electrical

supplies made profits and that the restail field has been in a healthy condition. The total business for 1928 execeeded that for 1927, with electric refrigerators playing an important part in the increase

#### Tourist Business Growing.

The tourist business is an important item in the economic life of Washington. The city's hotel facilities have been further extended in 1928. Laurenc Mills, of the Hotel Association, says that the volume of business handled increased in 1938 over 1927, but that—due to the 700 extra room units supplied and to apartment house competition for transients—the profits competition for transients—the profits of individual hotels were not what they

or individual notes were not what they might have been.

Augustus Gumpert, of the Washington Convention Bureau, reports 93 conventions in 1928 compared to 85 for 1927, or an increase of 9 per cent. This is at the rate of almost eight conventions a month or two conventions. is at the rate of almost eight conventions a month or two conventions a week. Figuring the average convention crowd at 700, Mr. Gumpert points out that this would mean a total of about 65,000 persons. The average stay being about four days, this would mean 260,000 visitor-days, which, at \$10 a day, would represent a revenue of some \$2,500,000 \$2.600,000.

These are a few of the high spots in Washington's business record during 1928. It is a record of which every Washington business man may well be proud and it furnishes a splendid basis for still greater and more far-reaching accomplishments in the year 1929.

#### Gas Taxes Increase

Taxes paid by the manufactured gas industry have shown a steady increase during the period from 1923 to 1927, inclusive. / In 1923 taxes paid by the industry constituted 8.7 per cent of its total revenue. In 1927 that ratio had risen to 9.5 per cent.

# MARKET ENDS YEAR IN NEW BUYING WAVE

Demand for Stocks Is Widespread-Nearly All Groups Are Buoyant.

#### MONEY AT 12 PER CENT

Special to The Washington Post. New York, Dec. 31.—Offering a fitting elimax to a year which must go down

elimax to a year which must go down in financial history as the greatest in the annals of American speculation, to-day's stock market session saw another impressive display of strength, with new high prices registered by many issues and gains, in extreme instances ranging up to about 20 points.

Strength reached to buoyancy in various directions and predominated from the start to the close in a session unusually active for one sandwiched between two market holidays. The turnover topped the 4,575,000-share level Money continued to hold firmly at the 12 per cent renewal figure despite early predictions of a let-down in that direction before the end of the day.

Demand for stocks was quite evenly distributed throughout the list. Winding up of accounts on a cash basis for jax purposes was relatively light and restricted rather generally to stocks in which it was possible to register substantial losses for that purpose.

Rails Also Well Taken.

#### Rails Also Well Taken.

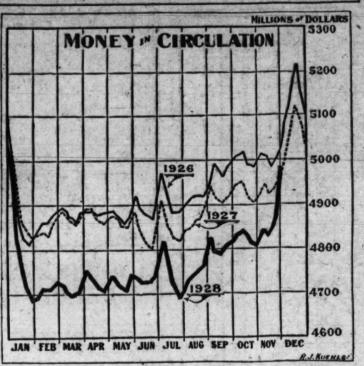

Rails Also Well Taken.

Strength and activity were conspicuous particularly in the steel, copper, rubber, oil and public utility groups, but rails also were well bought, with Chesapeake & Ohio and Pennsylvania lifting their high levels for the year. The motors were stimulated for the approaching annual show which gets under way at the end of the week.

Here and there a few stocks dipped moderately, but these were decidedly exceptions to the general trend.

National Bellas Hess, the spectacular advancer of recent weeks was the one outstanding weak spot, falling on profitaking sales for a net loss of 15% points.

#### VOLUME OF MONEY SMALLER

As shown by the chart, throughout 1928 the volume of money in circulation was smaller than in 1927, when in turn the volume of money had been smaller than in 1926.

of 19% points; Case Threshing, 18; Interstate Department Stores, common, 71/4, and preferred, 14; General Motors, 73/4; Booth Fisheries first preferred, 71/4; Richfield Oll of California, 8; St. Joseph Lead, 6; By-Products Coke, 111/4; Warren Brothers, 8; Keith-Albee-

than 100 heavy locomotives for de-livery in the course of 1929. The bulk of the new business, comprising the largest order which has come to the equipment industry in months is un-derstood to have gone to the American

rubber, oil and public utility groups, but rails also were well bought, with Chesapeake & Ohio and Pennsylvania lifting their high levels for the year. The motors were stimulated for the approaching annual show which gets under way at the end of the week. Here and there a few stocks dipped moderately, but these were decidedly exceptions to the general trend.

National Bellas Hess, the spectacular advancer of recent weeks was the one outstanding weak spot, falling on profitaking sales for a net loss of 15% points.

Principal gainers on the day included Abraham & Straus, which boomed to a new price peak at 142 and closed only a trifle lower at a net gain into the market with an order for more

# Key to Prosperity Is Given By Schwab in Ten Points

Live and Let Live, Pay Big Wages, Publicity, New Ideas, Economy, Look and Think Ahead, Smile, Among His Ideas.

New York, Dec. 31 (A.P.).—We have reached in this country an amazing degree of general prosperity. American business on the whole no longer faces an up-hil climb. The problem today is an entirely new one. It is what to do the make presently newmannt.

is an entirely new one. It is what to do
to make prosperity permanent.

No one, of course, has any patent
rights to continuing business success,
but I venture to suggest a few fundamental considerations which all of us
may find helpful to keep in mind.
These ten rules seem to me to hold the
key to lasting prosperity:

1. Pay labor the highest possible
wages. Prosperity is intimately related
to a liberal wage scale.

2. Treat labor as a business partner.
Successful industry depends more on
human relations than upon the organization of money and machines.

3. Conduct business in the full light
of day. Public confidence and public
suspicion may be separated only by a
door.

4. Remember that the law of sup-

4. Remember that the law of sup-ply and demand is inexorable. It would also be well to remember that there no necessity for producing an excess.

commodation as developed at the ruling rate of the day.

A distinctly lower trend was in evidence in the local foreign exchange market, with business on a moderately heavy scale. The widest price losses occurred in the Swedish and Holland units, which lost 3½ and 2 points, respectively. British pound sterling was ½ per cent lower and the weakness here had a sentimental effect on the trend of other leading European currencies. French francs eased slightly. Reichsmarks dropped 1½ points. Lire, however, were ½ point higher. South American exchanges were steady, but Far Easterns sought lower levels, aside from Japanese, which held unchanged. Canadian rallied 5 points to ½-cent discount.

#### Greatest Bull Market in History.

That the year 1928 brought the great That the year 1928 brought the greatest bull market in history, selective though it was, is something no widely accepted as a fact. Any doubt on that score can be quickly eradicated by a comparison of the year's early low prices for the leading favorites with their highs reached very generally in the big post-election rise of last month. The spread between the early lows and the subsequent highs is little short of amazing in those stocks in which bullish activity centered very largely during the year.

A list of thirty-two of the most active

A list of thirty-two of the most active stocks shows that gains from the lows of last spring ran around 25 points to well over 109 points, with the appreciation much greater in a number of the higher priced descriptions.

Among the year's outstanding performers, Radio takes precedent over Montgomery Ward in point of gain, the former having risen some 324% points from its early low with Montgomery Ward old stock having soared 3223-8 points from the low of January to the high reached before capital readjustment a short time back. International Nickel pushed up 196 points, National Bellas Hess, 208; Johns Manville, 103; Goodyear, 95; American Smelters, 124; Goodyear, 95; American Smelters, 124; Allied Chemical, 106 3-8; Kennecott, 75; Victor Talking Machine, 106, and Wright Aero, 220 points from the early

Not all the year's big profits were realized from dealings in the high priced or so-called rich men's stocks. On the contrary, there have been handsome profits accruing to those who have had the good fortune to uncover neglected opportunities among those shares which ranged in comparatively low levels early in the year. On a percentage basis Mexican Seaboard Oil was probably one of the outstanding was probably one of the outstanding was probably one of the outstanding features of the period, showing an appreciation of some 1,600 per cent at the top levels. American and Foreign Power was another spectacular performer, with Nevada Consolidated, Packard Motor, Sinclair Consolidated, St. Joseph Lead, National Cash Register and Public Service of New Jersey all having doubled or trebled their low prices of the year.

By CHARLES M. SCHWAB

(President. American Iron and Steel Institute).

New York, Dec. 31 (A.P.).—We have reached in this country an amazing degree of general prosperity. American

6. Welcome new ideas. To establish permanent institutions we must always be prepared for change.

7. Never be satisfied that what has been achieved is sufficient. Smugness and complacency do not promote propersy.

and complacency do not promote progress.

8. Operate business on the most economical basis Price-cutting, over-expansion, uneconomical methods of distribution are just as harmful to business and to the puolic as price-fixing, monopolies and rebates.

9. Look ahead and think ahead. It is easier to avoid depressions than it is to cure them.

10. Smile, be cheerful and work upon the basis that the fundamental purpose of business is to promote the happiness of human beings.

# BONDS' PRICES EASE IN YEAR-END MARKET

Few Convertibles Advance; Most Copper Issues Move Upward.

#### FOREIGNS ARE LISTLESS

New York, Dec. 31 (A.P.).—The bond market ended the year quietly and with prices showing easing tendencies in direct contrast to the strength and buoyancy displayed at the beginning of 1928. A few convertibles advanced on buying encouraged by rising stock prices and there was some demand for secondary rails and utilities, but the general list continued duil.

The Associated Press combined averages of ten first-grade rails, ten secondary rails, ten public utilities and ten industrials advanced slightly to 96.83, which compares with the average of 97.42 a month ago and 99.72 a year ago, and indicates about the extent of the decline in prices during a year in which public interest turned definitely to stocks.

The most active issues of the day

which public interest turned definitely to stocks.

The most active issues of the day were International Telephone & Telegraph convertible 4½s, which made a net gain of 1¾ points on buying encouraged by the demand for utility stocks. Public service of New Jersey 4½s had a smaller turnover, but moved to a new high at 183. The issue broke to 179½ and then recovered to 181½, closing with a net gain of 4¾ points for the day.

Copper responded to buying prompted by advancing Copper prices and the buoyancy of Copper stocks. Anaconda Copper 7s moved up 5 points to a new top at 191 and Tennessee Copper 6s gained about 2 points.

The general list was irregular. A few oils, such as Barnsdall 6s and Transcontinental Oil 6½s, shared demand with Dodge Brothers 6s, General Motors acceptance 6s, Lorillard debentures 5½s, Pressed Steel Car 5s and a few others.

Ralls active at better prices included

few others.

Rails active at better prices included Grand Trunk Railway of Canada 7s, New York Railways 6s, Pennsylvania 7s, Hudson & Manhattan 5s and Union

Prices showed no definite trend in light trading in the foreign list. U. S. Government obligations were inclined to heaviness.

#### NEW YORK GRAIN.

## Wall Street Briefs

New York, Dec. 31 (A.P.).—A \$250,000 order for motor truck engines and transmissions has been placed with American companies by the Soviet Automobile Trust, representing the first large Soviet purchase of this class of equipment in this country. Orders were placed through the Amtorg Trading Corporation, of Canton, Ohio, and the Brown-Lipe-Chapin Co., a General Motors subsidiary, of Syracuse, N. Y. The equipment will be installed in 3½-ton buses and trucks manufactured in Russia.

The Chevrolet Motor Co.'s Ohio plant at Toledo, which manufacturers transmissions, is expected to go on full 24-hour production this week.

Prices on miscellaneous oils, fats and greases showed a rising trend during the past week, Oil, Paint & Drug Reporter says. Business was quieter, but the index number was 146.1, as compared with 145.8 a week earlier and 145.9 last year on the basis of 100 in August, 1914.

Armour & Co. places loss to property and stock through fire in the fertilizer plant at Searsport, Me., at about \$300,-000, all covered by insurance.

Members of the New York Cotton Exchange have approved an amendment to the by-laws previding that "it shall be considered an act detrimental to the best interests of the exchange to retender on new contracts cotton received on October or November 1929 old contracts for the purpose of artificially influencing prices.

Stockholders of the American Exchange Irving Trust Co., of New York, will vote January 16 on a proposal to change the name to Irving Trust Co. Directors have recommended the change be made effective February 1.

General Motors Acceptance Corporation, which operates a wholesale and retail credit service for General Motors dealers and customers, has sold to General Motors Corporation an additional 50,0000 shares of capital stock at \$125 per share. The increase gives the acceptance corporation outstanding capital stock of \$40,000,000, all owned by the parent company. parent company.

Tuesday, January 1, being a legal holiday, the New York Stock Exchange, New York Curb Market and other se-curities and commodities markets will be closed.

The United States Treasury has called for repayment by depository institutions in the New York district of \$7.437,000 on January 2. The total called for the entire country is \$25,632,000, the funds representing a portion of the amount remaining on deposit from proceeds of the sale of U.S. certificates of indebtedness dated December 15.

# **ALSO MUCH IS SPENT**

Prosperity in Nation Uniform, **President Donaldson** Reports.

#### NOTES CAPITAL'S GROWTH

By R. GOLDEN DONALDSON. [President of the Commercial National Bank of Washington).

My experience with and observation of business conditions in America dur-ing the last few years has demonstrated ne thing definitely, and that is, the

ing the last few years has demonstrated one thing definitely, and that is, the sountry is uniformily prosperous. Business men, giving earnest thought to the development of their businesses, have made more money within the last few years than they ever dreamed possible. Having made money, there is a natural tendency to spend it. The spending of money by those who have it, and can afford it, contributes largely to prosperity.

Therefore, the more who make money, the more who will spend it and the greater will be the general prosperity, because the spending of money puts it in circulation and money that is circulated finds its way through all the channels of trade. This prosperity affects every one connected with business and percolates down to the humblest employe, and it is reflected in more stable conditions and more settled and higher wages for employes. If successful business is to be measured by development, enlargement, and expansion of activity and money making, there can be no question of a continuance of prosperity in this country during the next few years.

Men no longer confine their business or their thought to local communities; the tendency, so to speak, is to step out. Men are making their business activities national in scope. There is greater activity in more directions than ever before. More businesses are being enlarged and more that have been local are accordingly becoming national.

Last Year Marvelous.

#### Last Year Marvelous.

Last Year Marvelous.

The last year has been a marvelous one in many ways. We have had record sales in every line of business and high prices have prevailed everywhere; and high prices, when accompanied by record sales, mean real prosperity. This shows the ability of the people, in general, to purchase and to pay, for they could do neither of these things if they did not have the money, and they would not have the money unless prosperity was present and profits available.

There have been record sales on the stock exchange, even in the face of the highest prices for stocks that history has known. During the last year anybody who undertook to say that the prices for stocks were too high and engaged in what is known as "selling short" has lived to rue the day. This does not mean that in every instance the prevailing high prices were justified, but it does mean that we are living in a new ere and that it has opened a new basis of values has been established.

Speaking of the conditions of the

lished.

Speaking of the conditions of the country, every indication points to a continuance of the present prosperity. Bank clearances are greater than ever before. Bank balances are higher. The per capita wealth of the individual citizen has increased, yet the natural resources of the country have scarcely been touched. In addition, new inventions are being introduced and new methods of production put into operation. This is revolutionizing many lines of business and this condition will undoubtedly increase.

#### Great Growth in Capital.

Business here in our own Capital City has grown enormously; far beyond the expectations of those of us who awere born here, as I was, and lived here all our lives and know it intimately in

Every way.

I have seen Washington grow from a straggling community to a city that its rapidly becoming the most beautiful in the world.

As a boy, I remember our present marsh and when a wooden bridge spanned the Potomac River. I remem-Der the time when water for drinking purposes, drawn from the spigot in the ordinary dwelling house, was so filled with mud that it had to set for a while before it could be used.

I remember when malaria was quite prevalent among residents of certain of the Southwest sections of the city, and when spring freshets would over-low a number of the streets, including Pennsylvania avenue at Seventh street. When this occurred, all traffic had to when this occurred, all traffic had to be suspended and the only means of communication from the Southwest to the Northwest sections at that point was by small boats, from the Mall across Pennsylvania avenue.

All of this has changed and nearly all of the undestrable features have been eliminated and Washington has sesumed its present heavitful approximately.

assumed its present beautiful appear-ance. This could not have been done without the general prosperity of the country, which has made a very pros-

country, which has made a very prosperous Nation and a prosperous city.

So, as I see it in every direction, nationally and locally, every indication prosperity throughout the country for the next

#### Curb Review

New York, Dec. 31 (A.P.) .- The bulls chased the old year and many of the bears out of the curb market today in a stampede to buy that lifted scores of issues to new high records, not only

a stampede to buy that lifted scores of issues to new high records, not only for 1928, but for all time. Gains of 5 to 14 points were recorded as steady buying carried total sales above the 1,600,000 mark. Virtually all groups were strong, but the merchandising, automotive and utilities issues especially were in demand.

Ford of Canada led the advance of the automotives, with a net gain of 12 points. Ford, Ltd., was traded in heavy volume, but continued to sag, closing at 17, off 1½. Thompson Products A, Hart Parr, common and preferred A; General Tire & Rubber, Moore Drop Forging A, Paramount Cab, Timken Axle and Timken Roller Bearing, new, were among the automotives to establish new peaks, with gains running as great as 11 points.

Utilities also showed group strength, with a continuation of the buying in this group which marked the closing days of the year on expectations of large earnings and important developments in the public utility field in 1929. American & Foreign Power warrants, Buffalo, Niagara & Eastern, American Superpower, A and B; Electric Power & Light, and Peoples Light & Power A, invaded new high territory.

Marchandising issues to reach new high ground included Dominion Stores, Neisner Brothers, common and preferred; Filenes Sons, J. C. Penny Co., Mercantile Stores and others made wide gains.

Deforest Radio advanced about 5 points, U. S. Gypsum 6, and United Aviation 3. Bristol-Myers, Curtis Publishing, U. S. Freight, Quincy Mining, Mond Niokel, Newton Steel, Parker Pen, Grigsby, Grunow, Gold Seal Electric, Goldman Sachs, and other industrials made new high record prices.

Olls also were strong. Imperial Oil swung up 8 points to a new high, and wide gains were recorded by Vacuum, Standard of Nebraska, Standard of Ohlo, Prairie Pipc Line, old; Humble, and others.

# ON HOUSING IN YEAR 50

Construction Costs for 1928 Held at About the Same Figure as for 1927.

#### MATERIALS ARE LOWER

By S. W. STRAUS (President, S. W. Straus & Co.). New York (A.P.) .- Final reports of

building construction throughout the United States will, at the end of 1928, reflect conditions not greatly at variance from those prevailing throughout 1927.

Basing the estimate on the volume of building permits or building plans filed in approximately 550 cities in all parts of the country, the Nation's investment in housing for the entire year will have been approximately \$5,500,000,000. Building construction costs averaged about the same in 1928 as in 1927, al-

S. W. STRAUS.

though the trend was continually up-ward, while in 1927 the cost indices de-

ward, while in 1927 the cost indices declined steadily. Indices of labor costs
for this year averaged from 1 to -½
per cent higher than 1927, the tendency
being continually upward.

The monthly index for all building
materials averaged about 2 per cent
less in 1928, although during the last
two months the market was a little
firmer. The year's financing through
real estate bonds, debentures, collateral
trust certificates and land trust certificates probably will exceed that of
1927 by about 10½ per cent.

Owing to the element of high money,
which may hold over well into 1929,
earlier months may witness some slowing down in construction activities.
The year's prospects, generally speakling, may be viewed with optimism
nevertheless.

# ILLS, JARDINE SAYS

Three-Fourths of Buying Power Recovered by Farmers Themselves.

#### AID BY U. S. SEEN HELP

By W. M. JARDINE (Secretary of Agriculture). (Associated Press.)

(Associated Press.)

American agriculture is in better shape than commonly supposed.

This is attested by the recent advance in the purchasing power of its products, by its progress in mechanization, in the improvement of crops and livestock, and by its increasing cooperative control over marketing.

Each season inevitably sees the overproduction of certain crops, but agriculture as a whole adjusts supply to demand with constantly increasing skill, as is evidenced by the fact that it has regained more than three-fourths of the buying power lost per unit of its products in the postwar price decline.

Readjustments Are Made.

#### Readjustments Are Made.

Great readjustments have been made in farm enterprises since the war, gen-erally in a manner approved by eco-nomic science and vindicated by cash

Farmers do not wilfully ignore supply and demand conditions. Some branch-es of our agriculture have been ex-

es of our agriculture have been expanded considerably since the war, but
this is not necessarily evidence that the
farmers responsible for the expansion
were ill-advised.

Expansion and development are as
good a ground for inferring health and
vigor in agricultaire as in other industries. The progressive American farmer
puts his faith in science and mechanication, and thus armed feels well zation, and thus armed, feels well equipped for the competitive struggle.

#### Assistance Still Needed.

In large measure the recovery made by American agriculture from the post-war depression is the result of the farmers' energy and enterprise This should not cause us to conclude that no assistance need be given. The post-war depression had complex economic and social causes, and the nation must accept its share of responsibility in seeking and applying sound and ade-quate relief.

It is well to bear in mind, nevertheless, that the most powerful remedial agency has been set in motion by the agricultural industry itself through increased efficiency and a better adjustment of crop enterprises to market requirements quirements

Any governmental action that may be taken should strengthen and not weaken the curative influences brought into play by the farmers themselves.

# \$1,365,000,000 GAIN IN LIFE INSURANCE

Total of \$18,500,000,000 Reported for Nation During Past Year.

#### ACACIA INCREASE LARGE

By WILLIAM MONTGOMERY, President, Acacia Mutual Life Association.

High up in the table of statistics in the last annual report of the Secretary of Commerce, by which the then holder of that portfolio, now President-elect Herbert Hoover, indicated the various factors proving the unprecedented standard of living of the American people, stands the item of life insurance. The figures showed that American families are protected by the staggering sum of almost a hundred billions of dollars. If the estimate of our national wealth of about \$350,000,000,000 is correct, then, in addition to all other forms of wealth, the American homes have an added protection through life insurance of an amount equal to almost one-third of our national wealth.

The importance of this is obvious. High up in the table of statistics in

equal to almost one-third of our national wealth.

The importance of this is obvious, but it was not by mere chance that the total—of life insurance carried was placed so high in Mr. Hoover's scale. It was proof that a "high standard of living" is not measured alone by a profusion of automobiles, radio receiving sets, mechanical refrigerators and electric washing machines, but that the real high standard of living embraces one's duty to himself in the matter of protection to his dependents and security for himself in old age.

It should be remembered, however, that the story of life-insurance is not fully told by cold statistics. Nothing touches the American family more closely than adequate protection from want, and nothing in our whole economic structure more certainly provides this protection than life insurance. The pace of modern life is so swift that were the average bread-winner to be saddled with unremitting anxiety about the future of his loved ones the burden would often become well-nigh insupportable.

Insurance Frees Mind.

#### Insurance Frees Mind.

Insurance Frees Mind.

In its own well-proved way insurance effectively obliterates all the misgivings of the individual on this vital problem and, freeing the minds of the entire family circle from doubt\* and uncertainty about the future, makes possible the full exercise of powers for achievement and enjoyment of the privileges which constitute the high standard of living in America that is the marvel of the entire outside world.

The record of last year discloses a continued increase of business in the field of life insurance. It is unmistakable evidence that the people of the country as a whole are more than ever of the conviction that adequate protection against the sudden stoppage or serious curtailment of family increase.

or serious curtailment of family in-come is a primary duty of the indi-

vidual.

According to latest figures available for the Nation, compiled for the Association of Life Insurance Presidents, the total insurance written in 1928 is approximately \$18,500,000,000, an increase of \$1,365,000,000 over the record of 1927. Upon this basis it is estimated that by next autumn, and before the end, of the eighty-seventh year of American life insurance, the total insurance in force in old-line companies alone in the United States will pass the \$100,000,000,000 mark, a sum which even a mind accustomed to large figures finds difficulty in visualizing. finds difficulty in visualizing.

#### Increase of 900 Per Cent.

It is worthy of note that the purchases of life insurance in this country during the last welvemonth were more than nine times the aggregate of 1901. less than three decades ago, while within the last seven years the assets of the companies have doubled, now totaling approximately \$16,000,000,000, an increase of \$1,600,000,000 in the last

the unprecedented progress, prosperity, and wealth of the Nation. Life insurance inforce in the United States is more than 70 per cent of all of the life insurance in force in the United States is more than 70 per cent of all of the life insurance in force in the world. It is, therefore, not hard for any one to realize that this protection constitutes one of the chief contributing forces toward individual economic independence and is such an important element in the "high standard of living," of which the Nation so justifiably boasts.

Statistics covering the District of Columbia have not yet been completely compiled for the last year, but there is every indication that the steady growth of the last few years will be found to have been maintained. The proportions of the life insurance business in Washington are indicated by the amount of insurance in force December 31, 1927, when the 'otal was \$463,258,409 for all companies, both stock and mutual.

when the 'otal was \$463,258,409 for all companies, both stock and mutual, chartered or doing business in the Dis-

#### Gain of \$9,000,000.

The aggregate amount of insurance in the protection of their dependents in the sectorist during the year was \$108,394,988, against \$101.660,051 in the preceding twelvemonth. These figures eloquently demonstrate the extent to which citizens of the District of Columbia place their future well being and the protection of their dependents in the sectority of life insurance.

Progress if life insurance in the District during the year 1928 is reflected in the advance achieved by the Acacis Mutual Life Association. The new bus-

#### Reading Railroad Banking on 1929

Will Expend \$35,000,000 on Improvements, Says

> President Dice. By AGNEW T. DICE, President Reading Co.

I see no reason why 1929 should not prove to be a better business year than 1928. There is every indication that the country will enjoy continued pros-

the country will enjoy continued prosperity. I expect good railroad earnings. Believing that conditions will continue to improve, the Reading Co. will expend approximately \$35,000,000 during 1929 for improvements.

The expenditures will affect many points along the Reading Railway System. The largest sum to be spent is for electrification through the metropolitan district of Philadelphia. The directors of the Reading Co. have appropriated \$20,000,000 for this work. During 1929 the first expenditures will be made on this account. Work is to be started in the spring and in all probability along the Bethlehem branch.

The company will spend \$1,500,000 to erect a new bridge over the Susquehanna River at Muncy, and \$700,000 on the installation of color light signals on the New York branch. New stations will be built at Pottstown and at Reading. Ten grade crossings will be

tions will be built at Pottstown and at Reading. Ten grade crossings will be removed. At Philadelphia the freight houses on the water front will be extended, and new coal yards will be built.

iness paid for during the year amounted to over \$56,000,000. The insurance in force was increased in the sum of \$36,000,000. The total insurance in force is now over \$300,000,000, making this association the thirty-fifth largest life insurance company in the United States. The association further strengthened its financial position by adding \$5,500,000 to its assets.

But the records show not only the business advance of the association but also a sizable contribution to the economic welfare of the community. There was \$300,000 disbursed during the year for office expenses, supplies and similar items incident to the functioning of such a large enterprise. Employes of the com vany received \$620,000 in salaries. The record of disbursements, however, would be incomplete with mention of the sum paid to members and beneficiaries during the year. This amount approximated \$2,500,000. Figures usually are impressive, and in the instance of the life insurance statistics here presented they tell an eloquent story of the potentiality of this form of protection against an unforeseen future. The individual benefits no matter how it is viewed. He has the assurance that his dependents will not one day be left penniless, and that he has provided for himself in old age—

not one day be left penniless, and that he has provided for himself in old age— a real inducement to any one to save.

#### Human Life Most Valuable.

Life insurance is a logical humanitarian endeavor. One would not think of owning a house, an automobile or valuable machinery without insuring it against damage or loss. The insurance represents the value which the owner places upon it. What is more valuable than human life? It is the individual's assurance of future income. But the span of life, unlike a machine, is uncertain in its length. At any time, earning power may be curtailed. It is the part of wisdom, then, to augment this uncertainty with definiteness and assurance of future proniteness and assurance of future protection

Measured by the progress and development of life insurance and the increase in the business in recent years, it would be difficult for any one to hazard an intelligent opinion as to its future in this country. Every thing at this time points to the year 1929 being the greatest year in life insurance history. The value of life insurance to the Nation is measured not alone by the protection it gives to families and the independence in old age to the policy holder.

The enormous aggregations of wealth which the companies are accumulating

which the companies are accumulating are contributing in a marked degree to the unprecedented progress, prosperity, and wealth of the Nation. Life insur-

By W. W. ATTERBURY,

President of the Pennsylvania Railroad. During the past year the American railroads have made real progress. That progress consists not merely of improvement in railroad operation itself, but in a realization of the importance

provement in railroad operation itself, but in a realization of the importance of coordinating rail, highway and air transportation to the end that the public shall realize the best available service with the minimum of unnecessary overlapping.

During the past year the railroads have also felt they have now become sufficiently secure and the support of the public generally is so manifested through regulating authority that projects of expansion and development could be entered upon with more than ordinary confidence.

Our own company recently announced a comprehensive electrification plan covering the territroy between New York and Wilmington. It is expected that during the next year the rail and air service across the continent will be inaugurated. Progress is being made in coordinating bus, truck and container car service.

More careful and extensive research than ever before is going on concerning the future problems of steel rail construction, road maintenance, the design of motive power and equipment generally, as well as the best methods of arranging terminals and yards and in developing improved operation and economy.

The new year promises to be prosperated.

In developing improved operation and economy.

The new year promises to be prosperous. Railroad progress will go forward with that prosperity, and, as far as possible, ahead of it. The most gratifying characteristic of the situation at the end of the year is the loyal attitude of the working organization and the intelligent support of public opinion.

# Che STORY OF THE GEMS

The Diamond

Its History

T is probable that the first diamonds, to be recognized as such, came from India, and, certainly, this country was the first to organize its mining industry on a large scale, for as early as the seventeenth century, the famous mines of Golconda employed 60,000 people. In 1727 diamonds were discovered in Brazil, and then in 1867 the famous Kimberly mines of South Africa appeared and stepped to the front as the world's largest producers.

The science of diamond cutting was originated by Louis de Berquem, who undertook to shape, three large stones for Charles the Bold of Burgundy. This cutter was the first to sacrifice the bulk of diamonds in order to produce color, fire and luster through cutting and facing.

The problem of deciding between bulk and concentrated value, faces the investor on many occasions. And those who push aside the temptation of spreading their capital out thin, prefer to place their funds in the First Mortgages issued by Swartzell, Rheem & Hensey Co., for here they have concentrated value on which they can depend, undisguised by promises of enormous profits or increase in value.

For these notes are worth one hundred cents on the dollar, day in and day out and pay 6% regularly, promptly and unfailingly.

# KEEL, MELLON SAYS

**Progress in Year Closed Has** Been Steady, Secretary Tells Nation.

#### U. S. FINANCES SOUND

By ANDREW W. MELLON.

During the last year the country has used steady progress. Early in the sar the volume of business began to now marked improvement over the cosing months of 1927, and this improvement has continued. It has been rident in manufacturing, in steel production, carloading, automobile production, building contracts and sales of code to consumers. All of this is evisince also that buying power has been instained and that, on the whole, satistictory employment conditions have revailed. ng the last year the country has

factory employment conditions have prevailed.

Prices in basic industries have not been unduly high and have remained fairly stable, nor does there seem to be any immediate danger of excessive demand sending prices to such high levels as to make a slump in activity, and consequently in prices, inevitable. In the industrial world conditions seem to be on an even keel, and it is much better to have them so, with a slight upward tendency, as at present.

In the financial world there is sufficient money available for all legitimate undertakings. A considerable amount of gold has been exported during the past year. But it has not seriously impaired our credit resources, while at the same time it has helped to establish the gold standard more firmly in Europe and to stabilize foreign currencies, with resulting benefits to our import and export trade.

In so far as the Government is concerned, the finances are in a sound condition. The debt has been reduced to manageable proportions; the revenues are ample for our needs, and during the past year there has been another reduction of taxes, the full benefit of which will be more generally felt during the coming year.

For all of these reasons, I look forward with confidence to continued progress in the year ahead.

Few Municipal Gas Plants.

# There are 957 manufactured gas com-panies in the United States. Of these, 911 are privately owned, the remainder being municipal undertakings.

# PROSPERITY IS SEEN HIGH MOTOR OUTPUT IN MASS METHODS PREDICTED BY SLOAN

on Big Scale in Coming Year.

COSTS MUCH LOWERED OPTIMISTIC ON EXPORTS

By EDWARD A. FILENE

(President, William Filene's Sons Co.). Boston (A.P.).—Selective prosperity is my prediction for 1929. Large-scale, scientifically-run concerns will make big profits, but we shall see an increasing mortality among small, inefficient firms.

The year would be more prosperous if the farming, coal mining, textile and shoe industries were in better economic health, but there is a reasonably good prospect for progress in all these lines. I see no indication of a serious general recession in business, for there are no evidences of basic changes in conditions here and abroad that will vitally affect American busi-

ness.

The key to our future prosperity lies in scientific mass methods. Already successful in most fields of production, they are being applied in the field of distribution through chain stores and cooperating groups of independents. I expect the process to go much further during the year.

Lowered costs of doing business oy scientific mass methods will force more and more concerns to adopt them or go to the wall.

Vastly increased capacity of our factories create an even greater surplus

tories create an even greater surplus of goods beyond the power of our peo-ple to buy them. In order to handle this surplus we shall be forced to ex-

port more goods and increase the purchasing power of the home market through higher wages and lower prices.

Considerable benefit would result if Europe and the United States as well would lower tariffs and so stimulate

\$110,471 in Checks Sent Out.

The Real Estate Mortgage & Guaranty Corporation yesterday mailed checks amounting to \$110,471,37 to stockholders of record as of December 20, 1928, representing the semiannual dividend on the preferred stock of the corporation, at the rate of 8 per cent per annum. This is the eleventh dividend which the corporation has declared and paid since its incorporation in June, 1923.

N. Y. Trust Companies Lead,

Empire State trust companies now have resources of six and one-half billion dollars, largest among all the States, Pensylvania, Illinois, Ohio and New Jersey follow in that order.

Filene Expects Process to Go Holds Sales in 1928 Were Restricted by Production of Cheap Cars.

By ALFRED P. SLOAN, JR.

President General Motors Corporation. My viewpoint so far as 1929 is con-cerned is necessarily predicated upon what I believe to be a fact; viz., that there is nothing except soundness in the general economic and industrial situation; therefore, I see no reason why we should not continue to progress and enjoy excellent business and a gen-

erous measure of prosperity.

It is quite generally understood, I believe, that the automotive industry is an important factor in contributing to our industrial activity and I am certain we can rest assured that this particular industry will do its share in that direction in the forthcoming year This means, expressed otherwise, that I believe the production of motor cars will reach a satisfactory total. As a will reach a satisfactory total matter of fact. I look forwar new record being established. forward to a

Reason for Optimism.

I reach this conclusion because I believe that the statistical position of the automotive industry indicates that sales during 1928 were limited by lack of production in the low price field, which means that we will carry forward a certain amount of business into 1929 which will of course, be in addition to the normal trend. the normal trend.

The normal trend will call for in-creased production due to the increased replacement demand over previous years plus increased demand from over seas markets which are expanding very rapidly, plus a reasonable amount of natural growth, all of which should swell the total to a point where I believe a new record for production will be established.

Life of Car Limited.

I appreciate that when any motor car manufacturer expresses an opinion of still new records in production the question arises in many minds as to how much further the industry can

how much further the industry can expand. We must remember that the life of any motor car is necessarily limited from the standpoint of both depreciation and obsolescence.

The number of cars in daily use has increased tremendously for many years past and each year we therefore pick up an increased replacement demand. The increase in the number of cars per family is also a contributing factor and, as I have before stated, I do not think any of us have any real appreciation of what can be accomplished in the development of our overseas business.

# SAFEGUARD YOUR JANUARY FUNDS

In This Investment of Proven Safety

EVERY dollar of your January Funds should be invested in a non-fluctuating, stable medium which yields as great a return as is compatible with absolute safety and sound business practice.

Shannon & Luchs First Mortgage Notes, paying 6% a year, provide an ideal investment for those Prudent Investors who insist that their Available Funds be kept constantly at work.

Shannon & Luchs First Mortgage Notes are secured by first mortgages on finer improved business and residential property in Washington-the one city in the United States where the absence of strikes, lockouts and other industrial disturbances causes Real Estate Values to be considered the soundest in the country.

No Mortgages are for more than 60% of a fair, unbiased appraisal of the securing property. Thus a 40% margin of safety is always maintained.

Shannon & Luchs, Inc., see to it that the property is fully covered by the necessary insurance, and that it is maintained at all times in first-class condition.

Every note is signed by the borrower, who thus becomes directly responsible to the note-holder for all payments.

Shannon & Luchs have been sponsoring First Mortgage Investments for nearly a quarter of a century, and have issued thousands of First Mortgage Notes on which none of its investors have lost a penny; no interest payment has ever been late and no note unpaid at maturity.

In view of the low returns now obtainable in the general bond market, the high yield of these notes, the soundness of the security and the short-term feature make them more than usually attractive to investors. We suggest, therefore, that you make your reservations from our highly diversified list as promptly as

#### Huge Consumption Of Lumber Seen

Pine Industry in South Looking Forward to Busy Year.

By E. A. FROST (Director Southern Pine Association). Shreyeport, La. (A.P.).—We consider the 1929 outlook for the Southern pine lumber industry most encouraging.

We base this conclusion on current car loadings, the actual centracts for new buildings in the territory we serve, One-fourth Gas Output for Industry.

One-fourth of the 115,000,000,000 cubic feet of manufactured gas produced yearly by New York State utilities is now being used for industrial heating.

new buildings in the territory we serve, and the reduction in output due to closing down of some mills and cessation of operations of others during the next six months.

We fee' confident that there will be

100% More Gas in Ten Years.

The present production of about 500 billion cubic feet of manufactured gas a year will have to be doubled within the next decade to meet the increasing demand, declares L. A. Kirch. gas engineer of the Midland Utilities Company. Chicago. A large and growing consumption of gas for house heating, he says, will take much of the added production.
